

# 7 EFFECTIVE STUDY TIPS FOR STUDENTS

**Avoid cramming at the last minute. Space out your study sessions in short periods over time.**

**Get a good night's sleep. It allows your brain to recharge and improves your ability to recall what you learned the night before.**

**Teach what you've learned to someone else. This helps to encode the knowledge you've acquired and refine your recall abilities.**

**Mix up the modes of learning. A combination of visual, audio, and hands-on activities make for much better recall later on.**

**Ask questions. Asking a teacher, parent or tutor for clarification on a difficult concept will help to clear any confusion you might have.**

**Physically write out your notes. Instead of just typing and highlighting your text, writing notes out by hand improves your understanding and memorization of the material.**

**Minimize distractions and avoid multitasking. Find a quiet space, turn off electronic devices, and avoid anything that could cause you to lose focus.**
