## Efter Floden:

**Efter floden** P. C. Jersild, 2016-09-01 Efter floden är en postapokalyptisk science fiction roman från 1982. Boken utspelar sig på en plats som en gång i tiden kallades Sverige. Ett globalt atomkrig har utplånat civilisationen och en liten människospörra hankar sig fram i Stockholms skräck. Den sanden har smält till glas. Edwin Fittmun försörjer sig som lskare till självkaptener och verges en dag på en bebodd av ledrade straffningar.

*Efter floden* Per Christian Jersild, 1982 I romanen skildras livet hos det fåtal män som överlevt den slutgiltiga krvapenkatastrofen. Den nattsvarta pessimismen i denna bok har en swiftsk moraliskt uppfordrande karaktär av varning och därmed ett paradoxalt drag av hoppfullhet.

Reahard, 1997 In an attempt to discover the one idea with respect to which Goethe claimed he had worked while writing Die Wahlverwandtschaften taking my cue from Goethe himself I have united the investigational techniques of hermeneutics and complexity or chaos theory and brought them to bear on the structure of several of the mirroring events in the text. The overwhelming conclusion of this author is that like those investigating chaos in nature literary theorists must turn to comprehensive approaches if they wish to treat seriously the structure of texts as works which flow from nature the nature of the human mind.

Historical Dictionary of Scandinavian Literature and Theater Jan Sjåvik, 2006-04-19 The literature of Scandinavia is amazingly rich and varied consisting of the works produced by the countries of Denmark Norway Sweden Finland and Iceland and stretching from the ancient Norse Sagas to the present day. While much of it is unknown outside of the region some has gained worldwide popularity including the fairy tales of Hans Christian Andersen the stories of Isak Dinesen and the plays of Henrik Ibsen and August Strindberg. While obviously including the area's most famous works the Historical Dictionary of Scandinavian

Literature and Theater also provides information on lesser known authors and currents trends literary circles and journals and historical background This is accomplished through a list of acronyms a chronology an introductory essay a bibliography and several hundred cross referenced dictionary entries which together make this reference the most comprehensive and up to date work of its kind related to Scandinavian literature and theater available anywhere

**Documentarism in Scandinavian Literature** Poul Houe,Sven Hakon Rossel,1997 Documentary literature became an international phenomenon on the cultural and political scene in the 1960s and 1970s From the American New Journalism in works by such writers as Norman Mailer and Tom Wolfe to the German Industriereportagen by G nther Wallraff and others documentarism presented a variety of controversial interplays between facts and fiction labeled as fact fictions or the like Scandinavian literature made important and unique contributions to this international movement and Documentarism in Scandinavian Literature is the first comprehensive volume ever published on the historical significance and future implications of these Nordic dimensions of documentarism and their international context The volume is centered on Swedish documentary literature in the 1960s and 1970s and on such major writers as Per Olov Enquist Sven Lindqvist Sara Lidman and Per Olov Sundman but the powerful voices of Danish writer Thorkild Hansen and Norwegian novelist Dag Solstad are also heard in its critical concert The diversity of Documentarism in Scandinavian Literature is further enhanced by surveys and analyses of the historical background for more recent works and activities and by theoretical inquiries into the epistemological status of documentarism its theoretical narrative and theatrical devices its predominant genres and links to other modes of mass communication and its political affiliations and implications For readers already familiar with its subject matter

Documentarism in Scandinavian Literature offers an opportunity to revisit and recontextualize a crucial moment in their recent cultural past For readers who have yet to be exposed to documentary works of fiction the volume presents a timely theoretical historical and critical introduction to the key problematics and potentials of their novel field of interest Whether viewed as part of the past or part of the present documentarism remains an intellectual challenge which this volume is aimed at addressing Documentarism in Scandinavian Literature is edited by two Scandinavian scholars living abroad and its essays are written by senior and junior scholars and critics from Scandinavia Europe and America an interview with Per Olov Enquist and an autobiographical piece by Sven Lindqvist complete the volume

*Allers illustrerade konversationslexikon* ,1906     The Identification of Progress in Learning T. Hägerstrand,1985-04-25 This series of essays discusses how progress is identified in a range of disciplines physics mathematics biology medicine sociology linguistics art history history economics and ecology The articles are based on discussions at a symposium organised by the European Science Foundation and are by acknowledged leaders in the fields covered They seek to promote communication

between the different disciplines to identify the criteria of advancement and to examine problems in assessing them

*Discourses of Global Climate Change* Jonas Anshelm, Martin Hultman, 2014-11-13 This book examines the arguments made by political actors in the creation of antagonistic discourses on climate change. Using in-depth empirical research from Sweden, a country considered by the international political community to be a frontrunner in tackling climate change, it draws out lessons that contribute to the worldwide environmental debate. The book identifies and analyses four globally circulated discourses that call for very different action to be taken to achieve sustainability: Industrial fatalism, Green Keynesianism, Eco-socialism, and Climate scepticism. Drawing on risk society and post-political theory, it elaborates concepts such as industrial modern masculinity and ecomodern utopia, exploring how it is possible to reconcile apocalyptic framing to the dominant discourse of political conservatism. This highly original and detailed study focuses on opinion leaders and the way discourses are framed in the climate change debate, making it valuable reading for students and scholars of environmental communication and media, global environmental policy, energy research and sustainability.
