exploration as intrepid travelers sailed around the world to gain firsthand knowledge of previously unknown continents. These explorers also collected the world's most beautiful flora and often their findings were recorded for posterity by talented professional artists. The Golden Age of Botanical Art tells the story of these exciting plant hunting journeys and marries it with full color reproductions of the stunning artwork they produced. Covering work through the nineteenth century, this lavishly illustrated book offers readers a look at 250 rare or unpublished images by some of the world's most important botanical artists. Truly global in its scope, The Golden Age of Botanical Art features work by artists from Europe, China, and India, recording plants from places as disparate as Africa and South America. Martyn Rix has compiled the stories and art not only of well-known figures such as Leonardo da Vinci and the artists of Empress Josephine Bonaparte but also of those adventurous botanists and painters whose names and work have been forgotten. A celebration of both extraordinarily beautiful plant life and the globe-trotting men and women who found and recorded it, The Golden Age of Botanical Art will enchant gardeners and art lovers alike.

Skilled Visions Cristina Grasseni, 2007-01-01. Most arguments for a rediscovery of the body and the senses hinge on a critique of visualism in our globalized, technified society. This approach has led to a lack of actual research on the processes of visual enskillment. Providing a comprehensive spectrum of case studies in relevant contexts, this volume raises the issue of the rehabilitation of vision and contextualizes vision in the contemporary debate on the construction of local knowledge vs. the hegemony of the socio-technical network. By maintaining an ethnographic approach, the book provides practical examples that are both accessible to undergraduate students and informative for an academic audience.

Arnoldia, 1994. **An Oak Spring Herbaria** Lucia Tongiorgi Tomasi, Tony Willis, 2019-04-30. This magnificent compendium is the fourth in a series of catalogues describing selections of rare books and other material in the Oak Spring Garden Library, a collection assembled by Mrs. Rachel Bunney Lambert Mellon. Herbaria describes sixty-three books and manuscripts about herbs and includes exquisite illustrations selected from the works themselves. Spanning the fourteenth to nineteenth centuries and featuring works by Brunfels, Culpeper, Monardes, and Linnaeus among others, this authoritative catalogue will prove fascinating to botanists, bibliophiles, garden historians, and herbalists alike.

Visible Empire Daniela Bleichmar, 2012-10-08. Between 1777 and 1816, botanical expeditions crisscrossed the vast Spanish empire in an ambitious project to survey the flora of much of the Americas, the Caribbean, and the Philippines. While these voyages produced written texts and compiled collections of specimens, they dedicated an overwhelming proportion of their resources and energy to the creation of visual materials. European and American naturalists and artists collaborated to manufacture a staggering total of more than 12,000 botanical illustrations. Yet these images have remained largely overlooked until now. In this lavishly illustrated volume, Daniela Bleichmar gives this archive its due, finding in these botanical images a window into the worlds of Enlightenment science, visual culture, and empire. Through innovative interdisciplinary scholarship that bridges the histories of science, visual culture, and the Hispanic world, Bleichmar uses these images to trace two related histories: the

little known history of scientific expeditions in the Hispanic Enlightenment and the history of visual evidence in both science and administration in the early modern Spanish empire As Bleichmar shows in the Spanish empire visual epistemology operated not only in scientific contexts but also as part of an imperial apparatus that had a long established tradition of deploying visual evidence for administrative purposes
