Eighteenth-Century Women Poets and Their Poetry Paula R. Backscheider, 2005-12-31 Co Winner James Russell Lowell Prize Modern Language Association This major study offers a broad view of the writing and careers of eighteenth century women poets casting new light on the ways in which poetry was read and enjoyed on changing poetic tastes in British culture and on the development of many major poetic genres and traditions. Rather than presenting a chronological survey Paula R. Backscheider explores the forms in which women wrote and the uses to which they put those forms. Considering more than forty women in relation to canonical male writers of the same era she concludes that women wrote in all of the genres that men did but often adapted, revised and even created new poetic kinds from traditional forms. Backscheider demonstrates that knowledge of these women's poetry is necessary for an accurate and nuanced literary history. Within chapters on important canonical and popular verse forms she gives particular attention to such topics as women's use of religious poetry to express candid ideas about patriarchy and rape, the continuing evolution and important role of the supposedly antiquarian genre of the friendship poetry, same sex desire in elegy by women as well as by men and the status of Charlotte Smith as a key figure of the long eighteenth century not only as a Romantic era poet

Broad coverage of writers and texts presents a new picture of 18th century British authorship. Takes advantage of newly expanded eighteenth century canon to include significantly more women writers and labouring class writers than have traditionally been studied. Draws on the latest scholarship to more accurately reflect the literary achievements of the long eighteenth century

The Working-Class Intellectual in Eighteenth- and Nineteenth-Century Britain Aruna Krishnamurthy, 2016-12-14 In Britain the period that stretches from the middle of the eighteenth century to the mid nineteenth century marks the emergence of the working classes alongside and in response to the development of the middle class public sphere This collection contributes to that scholarship by exploring the figure of the working class intellectual who both assimilates the anti authoritarian lexicon of the middle classes to create a new political and cultural identity and revolutionizes it with the subversive energy of class hostility Through considering a broad range of writings across key moments of working class self expression the essays reevaluate a host of familiar writers such as Robert Burns John Thelwall Charles Dickens Charles Kingsley Ann Yearsley and even Shakespeare in terms of their role within a working class constituency The collection also breaks fresh ground in eighteenth and nineteenth century scholarship by shedding light on a number of unfamiliar and underrepresented figures such as Alexander Somerville Michael Faraday and the singer Ned Corvan
