Eighteenth-century Gunflints From Fort Michilimackinac And Other Colonial Sites:

Eighteenth-century Gunflints from Fort Michilimackinac and Other Colonial Sites T. M. Hamilton, Kenneth Orris Emery, 1988 **International Handbook of Historical Archaeology** Teresita Majewski, David Gaimster, 2009-06-07 In studying the past archaeologists have focused on the material remains of our ancestors Prehistorians generally have only artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior Those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved Increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context In short historical archaeology provides direct evidence for how humans have shaped the world we live in today Historical archaeology is a branch of global archaeology that has grown in the last 40 years from its North American base into an increasingly global community of archaeologists each studying their area of the world in a historical context Where historical archaeology started as part of the study of the post Columbian societies of the United States and Canada it has now expanded to interface with the post medieval archaeologies of Europe and the diverse post imperial experiences of Africa Latin America and Australasia The 36 essays in the International Handbook of Historical Archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology The volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world This key reference work captures the energy and diversity of this global discipline today **Historical Archaeology in South Africa** Carmel Schrire, 2018-12-13 This volume documents the analysis of excavated historical archaeological collections at the Cape of Good Hope South Africa The corpus provides a rich picture of life and times at this distant outpost of an immense Dutch seaborne empire during the contact period Representing over three decades of excavation conservation and analysis the book examines ceramics glass metal and other categories of artifacts in their archaeological contexts An enclosed CD includes a video reconstruction plus a comprehensive catalog and color illustrations of the artifacts in the corpus The parallels and contrasts this volume reveals will help scholars studying the European expansion period to build a richer comparative picture of colonial material culture **The Line of Forts** Michael D. Coe, 2006 A fascinating analysis of artifacts that illuminates relationships among the English French and Indians at a critical moment in American history Archaeology of the War of 1812 Michael T. Lucas, Julie M. Schablitsky, 2016-06-16 This is the first summary of how archaeology has contributed to our understanding of the War of 1812 The contributors of original papers discuss recent excavations and field surveys that present an archaeological perspective that enriches and

often conflicts with received historical narratives The studies cover fortifications encampments landscapes shipwrecks and battles in the midwestern southern mid atlantic and northeastern regions of the United States and in Canada In addition to archaeologists this volume will appeal to military history specialists and other historians American Indians and the Market Economy, 1775-1850 Lance Greene, Mark R. Plane, 2010 Provides a clear view of the realities of the economic and social interactions between Native groups and the expanding Euro American population The last quarter of the 18th century was a period of extensive political economic and social change in North America as the continent wide struggle between European superpowers waned Native groups found themselves enmeshed in the market economy and new state forms of control among other new threats to their cultural survival Native populations throughout North America actively engaged the expanding marketplace in a variety of economic and social forms These actions often driven by and expressed through changes in material culture were supported by a desire to maintain distinctive ethnic identities Illustrating the diversity of Native adaptations in an increasingly hostile and marginalized world this volume is continental in scope ranging from Connecticut to the Carolinas and westward through Texas and Colorado Calling on various theoretical perspectives the authors provide nuanced perspectives on material culture use as a manipulation of the market economy A thorough examination of artifacts used by Native Americans whether of Euro American or Native origin this volume provides a clear view of the realities of the economic and social interactions between Native groups and the expanding Euro American population and the engagement of these Native groups in determining their own fate **Classifications by Historical Archaeologists and Eighteenth Century Montreal Merchants and Military Personnel in New France** Misty May Jackson, 2005 *Archeological Investigation of the Armory Street, Lower Armory Grounds, Harpers Ferry Armory* 46JF518 Darlene Hassler, Justin Ebersole, 2016 The archeological investigation of the Armory Street within the Lower Armory Grounds provides us with a broader view of both the Native American and early Armory occupation periods and yields further data to better understand the early history and prehistory of Harpers Ferry A number of interesting artifacts were collected during the course of the excavations Some interesting items included a cache of 75 100 three piece long range rear sights for the U S Model 1855 rifle in a small deposit at the corner of the warehouse China plates commissioned by the railroad to commemorate the funding of the B O Railroad were also discovered plus several items from the Civil War era were found Other products produced by the National Park Service American Indians collection Buildings Landmarks Historic Sites resources collection **Archaeological Research at Fort Michilimackinac, an Eighteenth Century Historic Site in Emmet County, Michigan** Lyle M. Brett Cruse, 2017-08-03 Battles of the Red River War unearths a long buried record of the collision of two cultures In 1874 U S forces led by Col Ranald S Mackenzie carried out a surprise attack on several Cheyenne Comanche and Kiowa bands that had taken refuge in the Palo Duro Canyon of the Texas panhandle and destroyed their winter stores and horses After this devastating loss many of these Indians returned to their reservations and effectively brought to a close what has come to be known as the Red River War a campaign carried out by the U S Army during 1874 as a result of Indian attacks on white settlers in the region After this operation the Southern Plains Indians would never again pose a coherent threat to whites expansion and settlement across their ancestral homelands Until now the few historians who have undertaken to tell the story of the Red River War have had to rely on the official records of the battles and a handful of extant accounts letters and journals of the U S Army participants Starting in 1998 J Brett Cruse under the auspices of the Texas Historical Commission conducted archeological investigations at six battle sites In the artifacts they unearthed Cruse and his teams found clues that would both correct and complete the written records and aid understanding of the Indian perspectives on this clash of cultures Including a chapter on historiography and archival research by Martha Doty Freeman and an analysis of cartridges and bullets by Douglas D Scott this rigorously researched and lavishly illustrated work will commend itself to archeologists military historians and scientists and students and scholars of the Westward Expansion **Lead Seals from Fort Michilimackinac, 1715-1781** Diane L. Ray, 2017-03-03 In 1995 Texas Historical Commission underwater archaeologists discovered the wreck of La Salle s La Belle remnant of an ill fated French attempt to establish a colony at the mouth of the Mississippi River that landed instead along today s Matagorda Bay in Texas During 1996 1997 the Commission uncovered the ship s remains under the direction of archaeologist James E Bruseh and employing a team of archaeologists and volunteers Amid the shallow waters of Matagorda Bay a steel cofferdam was constructed around the site creating one of the most complex nautical archaeological excavations ever attempted in North America and allowing the archaeologists to excavate the sunken wreck much as if it were located on dry land The ship s hold was discovered full of everything the would be colonists would need to establish themselves in the New World more than 1 8 million artifacts were recovered from the site More than two decades in the making due to the

immensity of the find and the complexity of cataloging and conserving the artifacts this book thoroughly documents one of the most significant North American archaeological discoveries of the twentieth century *The Functions of Four Colonial Yards of the Southeast Row House, Fort Michilimackinac, Michigan* John Martin Francis Whitaker,1998 *Proceedings of the Sixteenth Meeting of the French Colonial Historical Society, Mackinac Island, May 1990* French Colonial Historical Society.
