Future Sex Emily Witt, 2016-10-11 A funny fresh and moving antidote to conventional attitudes about sex and the single woman Emily Witt is single and in her thirties Up until a few years ago she still envisioned her sexual experience eventually reaching a terminus like a monorail gliding to a stop at Epcot Center Like many people she imagined herself disembarking finding herself face to face with another human being and there we would remain in our permanent station in life the future But as many of us have found things are more complicated than that Love is rare and frequently unreciprocated Sexual experience doesn't necessarily lead to a future of traditional monogamy and why should it Have we given up too quickly on the alternatives In Future Sex Witt explores Internet dating Internet pornography polyamory and avant garde sexual subcultures as sites of possibility She observes these scenes from within capturing them in all their strangeness ridiculousness and beauty The result is an open minded honest account of the contemporary pursuit of connection and pleasure
