strong interdisciplinary backdrop featuring systems and crisis theories The City of Grace tackles these obstacles by picturing gracious function and graceful form in a human scale settlement In an attempt to salvage things lost in the teleology of urban development over the last 100 years the outlook is both heterodox and contrarian How long can we all go on in the present way In addressing grace a more elevated concept than those focusing previous urban analyses this manifesto aims not to placate or please but instead to get humanity to face the encompassing realities it tries so hard to forget
