## **Futures Of Christianity:**

**The Future of Christianity** John Stenhouse, Brett Knowles, Antony Wood, 2004 This book written by a group of New Zealand scholars theologians historians and lawyers examines the question of New Zealand's Western culture and Christianity The contributors explore recent debates over secularisation exploring its merits and explanatory power while also showing its limitations

The Future of Christianity Arthur J. Bellinzoni, 2010-12-08 Professor Bellinzoni has written a thoughtful and challenging book which must be taken seriously by all those who take the continued influence of Christianity for granted A part of this challenge is to acknowledge the discrediting of central elements of the gospel history But the other challenge just as important is to identify those parts of that tradition which might be reformulated for a future in which the role of Christianity in ethics society and culture is greatly diminished R Joseph Hoffmann Chair Committee for the Scientific Examination of Religion at the Center for Inquiry Professor of Religion Emeritus Wells College Christianity has endured for two thousand years weathering the challenges of clerical corruption religious wars internal schism and scientific criticism Today however there is increasing evidence that institutional Christianity is succumbing to the growing secularism of contemporary society Both church attendance and the number of clergy have noticeably declined Will Christianity survive for another thousand years or even a hundred years In this probing assessment of the state of Christianity biblical scholar Arthur J Bellinzoni boldly asserts that Christianity must break with the past and offer a new vision of the future if it hopes to survive Addressing four issues of central concern Bellinzoni advocates a radical rethinking of the Christian message First he suggests that the God concept must move beyond obsolete notions of a personal God and take its inspiration from such diverse sources as science Taoism Moses Thomas Jefferson and Martin Buber Second Bellinzoni urges a more sophisticated approach to the Bible one that values its timeless elements but is not afraid to discard its many antiquated features Third he recommends a new emphasis on Jesus social ethic arguing that this could lead to a dramatic redistribution of the world's wealth and greater respect for the planet Fourth Bellinzoni criticizes the persistence of obsolete myth in Christianity demonstrating that without its mythical embellishments Christianity still offers a relevant understanding of the meaning of human existence A work of erudition that is also completely accessible to the lay reader The Future of Christianity provides a stimulating critique that forward thinking Christians will welcome Arthur J Bellinzoni Aurora NY is professor of religion emeritus at Wells College the author of The Future of Christianity Can It Survive The Old Testament An Introduction to Biblical Scholarship The Sayings of Jesus in the Writings of Justin Martyr and the editor of The Two Source Hypothesis and The Influence of the Gospel of Saint Matthew on Christian Literature Before Saint Irenaeus

*Generosity and the Christian Future* George M. Newlands, 2008-07-17 Based on the 1995 Henson Lectures delivered in the University of Oxford this study takes as its theme the Christian future and the development of a theology of generosity in response to the challenges likely to face Christian faith in the twenty first century In particular Professor Newlands wishes to explore the suggestion that Christ

represents the ultimate generosity of God for humankind This leads him to concentrate on the contribution made by Christian doctrine to public issues and especially the relationship between Christology and human rights The author is centrally concerned that faith should remain in the public square and that the circle of faith should always be outward facing The result is a liberal pluralistic theology which regards the generous love of God in incarnation and reconciliation as a powerful stimulus to imaginative Christian thought and action In its robust portrayal of what Christianity ought properly to look like this book which emerges from the pen of the leading Scottish liberal theologian of his generation will be sure to stimulate and engage a wide variety of readers      The End of Christendom and the Future of Christianity Douglas John

Hall,2002-06-06 The thesis of this book is that the Christian movement can indeed have a significant future one that will be faithful to the original vision of the movement and of immense service to our beleaguered world But to have that future Christians will have to stop trying to have the kind of future that sixteen centuries of official Christianity in the Western world has conditioned them to covet Douglas John Hall examines the decline and fall of Christendom and looks at ecclesiastical responses to the end of Christendom He proposes that the churches make their disestablishment work for good and describes how the Christian movement might serve dominant societies classes and institutions in a post Christian era

**The Christian Future** Eugen Rosenstock-Huessy,2013-04-08 The Eugen Rosenstock Huessy Fund For four decades the Fund operated a publishing wing Argo Books which published many of Rosenstock Huessy s English language works and unpublished manuscripts as books The German Eugen Rosenstock Huessy Gesellschaft undertook similar efforts with the German language works the Dutch group Respondeo published a number of translations into Dutch The Fund recently decided to pass on responsibility for Rosenstock Huessy s works to another publisher and his English language works are now available on Amazon sold by Wipf and Stock of Eugene OR who also publish Jacques Ellul and William Stringfellow

*Christianity and the Future* Mary Jean Richardson,2011-04-07 THE END TIMES SERIES A set of two books designed to warn and prepare Christians for the dangerous days ahead BOOK 1 Christianity and the Future The churches of Christianity have become divided As dark forces push the world toward the End Times only Christian unity can bring people to Christ Christianity and the Future uses a new reference frame for mapping conflicting Christian postures to discover ways to unite Christians churches and denominations by resolving divisive topics Christians can agree upon a common understanding of God s will as presented in the Holy Bible and revealed through the Holy Spirit      **The Christian Future and the Fate of**

**Earth** Thomas Berry,2011-03-01 This title collects Berry s signature views on the interconnectedness of both Earth s future and the Christian future He ponders why Christians have been late in coming to the issue of the environment      The Future of Christian Realism Dallas Gingles,Joshua Mauldin,Rebekah L. Miles,2023-04-15 In the world s most developed democracies anxiety about the future of democracy is palpable The tension between moral aspiration and moral despair has reached a point of crisis Christian realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian

tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin s account of Christian realism as a nuanced blend of theological moral and political realisms The Future of Christian Realism addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism

The Future of Hindu-Christian Studies Francis Clooney, 2017-07-14 Based on the Westcott Teape Lectures given in India and at the University of Cambridge this book explores the possibilities and problems attendant upon the field of Hindu Christian Studies the reasons for occasional flourishing and decline in such studies and the fragile conditions under which the field can flourish in the 21st century The chapters examine key instances of Christian Hindu learning highlighting the Jesuit engagement with Hinduism the modern Hindu reception of Western thought and certain advances in the study of religion that enhance intellectual cooperation

The Future of Christian Mission in India Augustine Kanjamala, 2014-08-21 Colonial missionaries both Catholic and Protestant arrived in India with the grandiose vision of converting the pagans because like St Peter Acts 4 12 and most of the church fathers they honestly believed that there is no salvation outside the church extra ecclesiam nulla salus At the end of the great Protestant century however Christians made up less than 3 percent of the population in India and the hope of the missionary was nearly shattered But if one looks at mission in India qualitatively rather than quantitatively one sees a number of positive outcomes Missionaries in India particularly Protestant missionaries espousing the social gospel in collaboration with a few British evangelical administrators dared to challenge numerous social evils and even began to eradicate them The scientific and liberal English education began to enlighten and transform the Indian mindset Converts belonging to the upper caste although small in number laid the foundation stone of Indian theology and an inculturated church using Indian genius The end of colonialism in India coincided with the painful death of colonial mission theology Now the power of the Word of God extricated from political power is slowly and peacefully gaining ground like the mustard seed of the parable A paradigm shift from the ecclesio centric mission to missio Dei offers reason for further optimism In short the future of mission in India is as bright as the kingdom of God In today s new context theologians despite objections from some quarters are struggling to discover the Asian face of Jesus disfigured by the Greco Roman Church And the missionary is challenged to become a living Bible that undoubtedly everyone will read

The Future Shape of Christian Proclamation Cleophus J. LaRue, Luiz C. Nascimento, 2020-08-03 Christianity is turning brown and moving south The Christianity the West has known is in recession and has all but dwindled out of recognition in the opening years of the twenty first century Well over half of the world s Christians now live in the Global South Africa Asia and Latin America They are according to Aberdeen missiologist Andrew Walls the new Representative Christians What they think about Christianity will matter more and more and what North America thinks about Christianity will matter less and less This

massive shift in geography and theological point of departure will have a major impact on Christian preaching now and into the future The Future Shape of Christian Proclamation seeks to begin the conversation about how preaching in the Global South will inform the whole of Christian preaching in the coming years

**The Future of Religion and the Religion of the Future** Theodore John Rivers, 2011-11-25 In The Future of Religion and the Religion of the Future Theodore John Rivers explores the changing relationship between technology and religion Rivers draws upon his expertise in the fields of medieval and religious history to discuss how the promotion of Christianity and monasticism in the Middle Ages began a process that has lent religious undertones to the way in which we interact with modern technology Rivers ultimately suggests that the growing presence of technology makes it a likely candidate for the next religious form competing with all the major religions in place today

The Future of the Study of Religion Slavica Jakelić, Lori Pearson, 2004-01-01 This volume brings together divergent voices in religious and theological studies for a conversation about the proper objects methods and goals for the study of religion in the twenty first century

**The Future of Religion** Michael R. Ott, 2007-06-30 In the midst of the increasing antagonism between religion and secularity the sacred and the profane faith and reason currently described in terms of the clash of civilizations is religion any longer relevant or meaningful in the globalizing development of modern subjectivity inter subjectivity family society state and history If so how and to what end In the socio historical context of the highly secular neo liberal neo conservative globalization movement the question of the social meaning and relevancy of religion has entered directly into the contemporary discourse on the future of humanity This book gives expression to the research of international scholars as they wrestled with these issues during the Future of Religion courses held at the Inter university Center in Dubrovnik Croatia from 2001 2005 Contributors include Aleksandra Ba a Reimon Bachika Ale rni Anja Finger Helmut Fritzsche Denis Janz Hans Herbert K gler Werner Krieglstein Mislav Kuko Gottfried K enzlen Aurelia Margareti Michael R Ott Dunja Poto nik A James Reimer Kjartan Selnes Rudolf J Siebert Hans K Weitensteiner Brian Wilson Katarzyna Zielinska

**A Future for Africa** Emmanuel M. Katongole, 2017-05-09 Civil war famine genocide AIDS the peoples of Africa have endured horrific human tragedies Those crises plus widespread economic political and social instability have combined to produce what some consider a dire and nearly hopeless situation Even as this book was going to press the leaders of the G 8 nations were meeting to talk about what could be done to aid Africa in these critical times A careful look at history would indicate that the answer must come from within Africa and from the African people themselves not from other nations or the economic programs and solutions they propose The rapid rise of a Christian social ethics movement as an alternative perspective focused precisely on addressing Africa s challenges using the spiritual resources of its own people is providing a hopeful solution and a timely and powerful coping mechanism for African peoples One of the leaders of this movement is

Emmanuel Katongole a Catholic priest from Uganda In A Future for Africa Katongole wrestles with concrete problems like the AIDS epidemic and widespread military conflicts as well as fundamental systemic ones like poverty corruption and tribalism He then offers faith filled solutions based on the power and example of Christian community and Christian moral imagination Katongole s radical message is that a political ethic based on Christian principles as taught in the Scriptures is the necessary foundation for healing reconciliation and rebuilding the continent **Christian Understandings of the**

**Future** Amy Frykholm ,2016-10-01 Throughout the two thousand year span of Christian history believers in Jesus have sought to articulate their faith and their understanding of how God works in the world How do we as we examine the vast and varied output of those who came before us understand the unity and the diversity of their thinking How do we make sense of our own thought in light of theirs The Christian Understandings series offers to help In this crisp and engaging volume Amy Frykholm offers a tour through more than two millennia of Christian thought on the future Starting with the contexts of the Hebrew Bible and moving forward Frykholm outlines the enduring fascination believers have had with future events and the myriad ways they have articulated their beliefs about what the future holds From the imperial contexts of the book of Revelation to the end times prophecy of Harold Camping Frykholm presents a thoughtful and insightful tour **The Future of Christian Theology** David F. Ford,2011-02-02 The Future of Christian Theology represents a personal manifesto from one of the world s leading theologians exploring the ways Christian theology in the twenty first century has been and can now continue to be both creative and wise Represents an outstanding and engaging account of the task of theology today Offers an insightful description of what makes for discerning and creative theology Written from the perspective of decades of experience and in close dialogue with theologians of other faiths Features a strong interfaith and public theology dimension and a contemporary portrait of the field from the inside A hopeful and illuminating search for wisdom and understanding in the increasingly complex religious and secular world of the twenty first century The Non-religion of the

Future: A Sociological Study Jean-Marie Guyau,2015-01-09 Example in this ebook I Sociality the basis of religion Its definition I We shall meet in the course of this work many different definitions that have at one time or another been given to religion Some were assigned from the point of view of physics others from that of metaphysics others from that of morals almost none from that of sociology And yet upon closer scrutiny the notion of a social bond between man and the powers superior to him but resembling him is precisely the point in which all religious conceptions are at one Man becomes truly religious in our judgment only when above the human society in which he lives he superimposes in his scheme of the world another society more powerful and more cultured a universal and so to speak a cosmic society The sphere of sociality which is one of the characteristics of humanity must be enlarged till it reaches to the stars Sociality is the firm foundation of the religious sentiment and a religious being might be defined as a being disposed to be sociable not only with all living creatures with whom experience makes him acquainted but also with the creatures of thought with whom he peoples the

world That religion consists essentially in the establishment of a bond at first mythical and subsequently mystic in the first instance between man and the forces of the universe then between man and the universe itself and ultimately between man and the elements of the universe is distinctly the outcome of every study of religion but what we wish especially here to consider is the precise way in which this bond has been conceived Well it may appear more clearly at the close of this inquiry the religious bond has been conceived ex analogia societatis human the relations amicable and inimical of men to each other were employed first for the explanation of physical phenomena and natural forces then for the metaphysical explanation of the world of its creation conservation and government in short sociological laws were universalized and the state of war or peace which existed among men families tribes and nations was conceived as existing also among the volitions which were fancied to exist beneath or beyond the forces of nature A mythic or mystic sociology conceived as containing the secret of all things lies at the basis of all religions Religion is not simply the expression of an anthropomorphism animals and fantastic beings of various sorts have played no inconsiderable r le in different cults it is an imaginative extension a universalization of all the good or evil relations which exist among conscious beings of war and peace friendship and enmity obedience and rebellion protection and authority submission fear respect devotion love religion is a universal sociomorphism Social relations with animals with the dead intellectual and social relations with good and evil genii with the forces of nature are nothing more nor less than various forms of this universal sociology in which religion has sought to find the reason of things of physical phenomena such as thunder storm sickness death as well as of metaphysical relations the origin and destiny of things and of moral relations virtue vice law and sanction To be continue in this ebook
