The Grammar of Japanese Mimetics Noriko Iwasaki,Peter Sells,Kimi Akita,2016-12-01 Mimetic words also known as sound symbolic words ideophones or more popularly as onomatopoeia constitute an important subset of the Japanese lexicon we find them as well in the lexicons of other Asian languages and sub Saharan African languages Mimetics play a central role in Japanese grammar and feature in children s early utterances However this class of words is not considered as important in English and other European languages This book aims to bridge the gap between the extensive research on Japanese mimetics and its availability to an international audience and also to provide a better understanding of grammatical and structural aspects of sound symbolic words from a Japanese perspective Through the accounts of mimetics from the perspectives of morpho syntax semantics language development and translation of mimetic words linguists and students alike would find this book particularly valuable *Shoko-Ken: A Late Medieval Daime Sukiya Style Japanese Tea-House* Robin Noel Walker,2012-11-12 First published in 2003 Built in 1628 at the Koto in temple in the precincts of Daitoku ji monastery in Kyoto the Shoko ken is a late medieval daime sukiya Japanese tea house It is attributed to Hosokawa Tadaoki also known as Hosokawa Sansai an aristocrat and daimyo military leader and a disciple and friend of Sen no Riky This work is an extremely thorough look at one of the few remaining tea houses of the Momoyama era tea masters who studied with Sen no Rikyu The English language sources on Hosokawa Sansai and his tea houses have been exhaustively researched Many facts and minute observations have been brought together to give even the reader unfamiliar with Tea a sense of the presence which the tea house still manifests **Birkhäuser Architectural Guide Japan** Francesco Montagnana,1997 This book like all volumes in the Birkhauser Architectural Guide series beginning with Germany by Nerding Tafel successfully represents all important developments of the 20th century This includes work by the masters Kenzo Tange Arata Isozaki and Tadao Ando the projects of younger architects such as Itsuko Hasegawa Hiroshi Naito and Kazuo Shinohara as well the buildings designed by foreign architects such as Aldo Rossi Cesar Pelli Rem Koolhaas and Norman Foster Nearly 400 buildings are introduced in separate entries The addresses locating each building and the weatherproof jacket make the book an indispensable companion for all travelers to Japan It is also a valuable and inexpensive reference guide by virtue of extensive indices and bibliographical information **Project 2004** Yoshio Futagawa,2004 TEAM ZOO Lucien Kroll,Patrice Goulet,1991 Document Image Processing Ergina Kavallieratou,Laurence Likforman-Sulem,2018-10-03 This
