Society Annette Zimmer,Eckhard Priller,2013-12-20 Few developments in the recent history of Central Europe have been
more momentous than the emergence or more precisely the re emergence of civil society of organized citizen activity outside
the boundaries of the state and the market Indeed the re emergence of civil society was the key to all the other momentous
developments that have characterized the extraordinary past two decades of Central European history the fall of the Berlin
Wall the disintegration of the Soviet empire the re emergence of the market the appearance of democratic government and
now the re integration of Europe More than that the re emergence of civil society in Central Europe has revolutionized the
position of civil society on the world stage more generally boosting its visibility enhancing its credibility and transforming its
reputation from that of ineffectual supplicant to powerful instrument of social economic and political change Despite its
achievements however the Central European civil society sector remains at least in its Visegrad segments a fragile organism
undercapitalized under staffed and still not fully integrated into the prevailing political and economic order It is as if these
countries have not yet decided how to reconcile their new civil society institutions with their recent history of extensive state

provision of social welfare services not to mention their earlier rich histories of civil society organization and voluntary action Indeed this earlier history has been largely lost from view **Wiley CPA Exam Review 2009** O.
