Realist novels that dominated Western culture for most of the nineteenth century and beyond is based on historical truth and that great novels possess a documentary value That trust Gay brilliantly shows is misplaced novels take their own path to reality Using Dickens Flaubert and Mann as his examples Gay explores their world their craftsmanship and their minds In the process he discovers that all three share one overriding quality a resentment and rage against the society that sustains the novel itself Using their stylish writing as a form of revenge they deal out savage reprisals which have become part of our Western literary canon A New York Times Notable Book and a Best Book of 2002 *Challenging Realities: Magic Realism in Contemporary American Women's Fiction* M.
