His Where Are Our Boys? Martin Woods, 2016-08-01 In 1914 the newspaper map or newsmap began to supply readers with the geographical backdrop to the Great War an important tool in explaining the progress of the war to the public at home Day by day for every campaign and battle readers across the nation were deluged with maps both in the pages of newspapers and pasted up in town and city streets allowing them to follow Australian and Allied exploits Drawn from scant news cables out of date cartography and the writer's imagination a semi-fictional war story emerged of ANZAC successes and sometimes disasters Our boys were in Egypt Palestine Gallipoli Belgium Germany and France in towns and villages most Australians had never heard of Soon these places were being discussed with growing expertise over maps in homes pubs churches and clubs Those following the war at home were never allowed too close as censorship rules dictated when maps could be published Yet *Where Are Our Boys* is not simply about propaganda Maps in newspapers tracked the war's many campaigns and the exploits of our boys but most importantly allowed those at home to feel close to their brothers husbands fathers uncles neighbours and cousins Maps naturally became central to commemorating events people and places The war produced more maps than any time before in history giving us along the way some of the most beautiful and sometimes misleading maps ever published *Where Are Our Boys* tells the story of how the war was fought and won from the opening salvos in 1914 to Gallipoli and victory on the Western Front In the end though these maps were needed most to help understand the conflict and to comprehend the great human costs

Hitting the Ball You Cannot See Jurie Kriel, NXT Move Community, 2025-09-09 In a world defined by unprecedented change the very foundations of society are shifting leaving many disoriented and searching for direction Technology is rewriting what it means to be human Trust is collapsing in our institutions and relationships Communities are more connected and yet more fragmented than ever For many leaders it feels like trying to swing at a ball you cannot see unpredictable invisible and moving faster than you can track *Hitting the Ball You Cannot See* is both a prophetic wake up call and a practical field guide for Christian leaders seeking to navigate this new reality with clarity courage and faith It challenges us not to retreat into what's familiar but to pioneer boldly into the unknown trusting that God is already present in the future we are stepping into Born out of global conversations with leaders across every continent this book explores the profound shifts shaping the next era of Christian faith and leadership the redefinition of humanity in light of technology the rise of digital existence the collapse of trust the changing dimensions of organization the shifting degrees of separation and the rediscovery of belonging Each chapter highlights one of these critical shifts and pairs it with a practical leadership skill anticipating the unseen rebuilding trust cultivating collaboration embracing innovation and more This is not a book of abstract trends or academic theory It is a compass for leaders in every sphere of society pastors educators non-profit leaders entrepreneurs and next-gen pioneers who are determined to remain rooted in Christ while leading into an uncertain future Through vivid metaphors wisdom from global practitioners and deeply theological reflections readers are equipped to move beyond reacting to cultural disruption and instead anticipate innovate

and disciple faithfully in the midst of it Reflection questions at the end of each chapter make this more than a book to read it is a conversation to join a movement to be part of and a call to personal and communal transformation In these pages you ll wrestle with questions such as Are we swinging at where the ball used to be or where it s headed How do we disciple in a digital age without losing depth How do we build intergenerational teams rooted in authenticity and trust What does it mean to pioneer kingdom innovation in a rapidly unraveling world Hitting the Ball You Cannot See offers hope direction and a vision for the future of Jesus following It reminds us that while the world may feel unpredictable God s Kingdom is unshakable This is how we lead into the future This is how we swing by faith not by sight **Bulletin of the Atomic**

Scientists ,1977-03 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world Public Papers of the Presidents of the United States United States. President,1993 Containing the public messages speeches and statements of the President 1956 1992 *Love Letter to a Conflicted Church* Richard P. Olson,2010-01-01 The book is organized into three divisions and as the title implies there is a brief letter in the form of a New Testament epistle to the contemporary church a portion of which begins each chapter The first division reexamines the gifts and redemptive possibilities of anger and conflict The barriers to healthy anger conflict are considered and addressed In the second attention is given to conflicts surrounding the Bible There is a chapter on conflict and reconciliation in the Bible followed by suggestions on how people who read the Bible differently from each other can resolve some of those differences Consideration is also given to discovering biblical priorities for the contemporary church The third division offers vistas of change and reconciliation Parables of hope and promise are provided Insights from the studies of persons and communities as well as ethics and theology are summarized There is reflection on those unresolved conflicts that continue in spite of our best efforts Then moral imagination is engaged to visualize the opportunities for a church that moves beyond its present stalemates
