Quixotic Modernists Louise Ciallella, 2007 Quixotic Modernists gives close readings of two novels by two little studied writers of the early twentieth century in Spain Felipe Trigo s Las ingenuas 1901 and Maria Martinez Sierra s Tu eres la paz 1906 in relation to the canonical Tristana by Benito Perez Galdos Spain's greatest nineteenth century novelist This study shows the modern message regarding gender and modernist qualities of the prose of these works Included are discussions of Quijote intertexts proverbial language and tactics the angel and the mujer nina flower water and animal imagery and visual arts in relation to gender definition Also included are contemporary responses to the novels and material about the authors lives and Spain's social conditions in the early twentieth century Quixotic Modernists integrates these themes into a study of the novelization of difficulties in transforming contemporary gender and class roles In all three authors works this process of change in roles for both men and women becomes a quixotic enterprise in which artists as and characters search to reconnect with an elusive material social body Galdós's Segunda Manera Linda M. Willem, 1998 This book explores the change that occurred in the writings of Spanish novelist Benito Perez Galdos when he entered his segunda manera in 1881 with the publication of La desheredada his first contemporary novel Critical work on this important phase of Galdos s career has tended to concentrate on the content of his novels with little attention given to the way in which Galdos conveys that content to the reader By studying these works in light of how their stories are told Linda Willem shows that La desheredada marks the beginning of a more sophisticated and varied mode of narrative in Galdos's novels Through close readings of his first seven contemporary works Willem shows how the affective response associated with various narrative devices plays a role in the rhetorical strategies of each text **Visions of Filth** Teresa Fuentes Peris, 2003-01-01 This book explores how notions of deviancy and social control are dramatized in the novels of the late nineteenth century Spanish realist author Benito P rez Gald s Gald s s treatment of prostitutes alcoholics beggars and vagrants is studied within the context of the socio cultural and medical debates circulating during the period Drawing on Foucault's very specific conceptualization of the idea of control through discourses the book analyzes how Gald's s novels interacted with contemporary debates on poverty and deviancy notably discourses on hygiene domesticity and philanthropy It is proposed that Gald's s view of marginal social groups was much more open minded shrewd and liberal than the often inflexible pronouncements made by contemporary professional voices Current Contents Institute for Scientific Information (Philadelphia), 2001 American Book Publishing Record ,1999 Forthcoming Books Rose Arny,1998 Subject Guide to Books in Print ,1991 Directory of American Scholars: Foreign languages, linguistics and philology ,1999 Books in Print Supplement, 2002 GaldÃ3s's Segunda Manera Linda M.
