Statistical Reference Index, 1980 **Arms And The Enlisted Woman** Judith Stiehm, 2010-06-18 Explore the experience of American women in the military **The Deficit and the Public Interest** Joseph White, Aaron Wildavsky, 2021-01-08 Political time is counted not in years but in issues the Depression defined the political era of the 1930s just as the Cold War did the 1950s and civil rights the 1960s In the 1980s the federal budget loomed as the dominant issue by which all others were considered and has become a concern that catalyzes debate in our nation's capital In this definitive work Joseph White and Aaron Wildavsky describe and analyze the struggles over taxing and spending from Carter's last year through the Reagan administration The battle of the budget is largely about defining the role of the government and its relationship to the people It involves congressional horse trading partisan posturing and technical tricks that affect billions of dollars It is also a story of politicians operating within constraints set by both public opinion and political interpretation of economic reality Though budgeting has always been important its impact on the national agenda has grown dramatically Based on documentary sources and extensive interviews with participants *The Deficit and the Public Interest* explains how budgeting works so the reader can see what is at stake in seemingly arcane disputes It also explains the relationship of the budget to the media as well as to party and policy activists and explores the ways in which the deficit represents a crisis of confidence in our institutions preeminently Congress and the presidency Along the way it provides a uniquely comprehensive account of the entire budget problem exploring Gramm Rudman tax reform and the continuing political gridlock The authors demonstrate that institutions have performed better than their members and critics believe and they contend that extreme solutions to the deficit would likely be much worse than the original problems Redefining the problem as one of reducing interest costs so the deficit becomes manageable they proffer political advice on how to make this approach politically acceptable both at home and abroad This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 **Education, Public Confidence, and the Legitimacy of the Modern State** Hans N. Weiler, 1982 **Religion and the Demographic Revolution** Callum G. Brown, 2012 In the 1960s Christian religious practice and identity declined rapidly and women's lives were transformed spawning a demographic revolution in sex family and work The argument of this book is that the two were intimately connected triggered by an historic confluence of factors *Handbook of Public Administration* W. EcoPopulism Andrew Szasz, Moment by moment the evidence mounts that unchecked modern industry is bringing us ever closer to environmental disaster How can we move away from the brink of extinction toward a human society the earth can bear In the thriving popular politics of hazardous waste Andrew Szasz finds an answer a scenario for taking the most pressing environmental issues out of the academy and the boardroom and turning them into everyone's business This book reconstructs the growth of a powerful movement around the question of toxic waste Szasz follows the issue as it moves from the world of official policymaking in Washington onto the nation's television screens and into popular consciousness and then into America's neighborhoods spurring the formation of thousands of local community based groups He shows how in less than a decade a rich infrastructure of more permanent social organizations emerged from this movement expanding its focus to include issues like municipal waste military toxics and pesticides In the growth of this movement we witness the birth of a radical environmental populism Here Szasz identifies the force that pushed environmental policy away from the traditional approach pollution removal toward the superior logic of pollution prevention He discusses the conflicting official responses to the movement's evolution revealing that despite initial resistance lawmakers eventually sought to appease popular discontent by strengthening toxic waste laws In its success Szasz suggests this movement may even prove to be the vehicle for reinvigorating progressive politics in the United States

Gray, 2001-09-28 The American Midwest Essays on Regional History Edited by Andrew R L Cayton and Susan E Gray Is there a Midwest regional identity Read this lively exploration of the Midwestern identity crisis and find out Many would say that ordinariness is the Midwest s historic burden A writer living in Dayton Ohio recently suggested that dullness is a Midwestern trait The Midwest lacks grand scenery Just cornfields silos prairies and the occasional hill Dull He tries to put a nice face on Midwestern dullness by saying that Midwesterners like Shaker furniture are plain in the best sense unadorned Others have found Midwestern ordinariness stultifying Neil LaBute who makes films about mean and nasty people said he was negative because he came from Indiana We re brutally honest in Indiana We realize we re in the middle of nowhere and we re very sore about it from Chapter Five Barbecued Kentuckians and Six Foot Texas Rangers by Nicole Etcheson In a series of often highly personal essays the authors of The American Midwest all of whom are experts on various aspects of Midwestern history consider the question of regional identity as a useful way of thinking about the history of the American Midwest They begin with the assumption that Midwesterners have never been as consciously regional as Western or Southern Americans They note the peculiar absence of the Midwest from the recent revival of interest in American regionalism among both scholars and journalists These lively and well written chapters draw on personal experiences as well as a wide variety of scholarship This book will stimulate readers into thinking more concretely about what it has meant to be from the Midwest and why Midwesterners have traditionally been less assertive about their regional identity than other Americans It suggests that the best place to find Midwesternness is in the stories the residents of the region have told about themselves and each other Being Midwestern is mostly a state of mind It is always fluid always contested always being renegotiated Even the most frequent objection to the existence of Midwestern identity the fact that no one can agree on its borders is part of a larger regional conversation about the ways in which Midwesterners imagine themselves and their relationships with other Americans Andrew R L Cayton Distinguished Professor of History at Miami University in Oxford Ohio is author of numerous

Green, Bernard L. Dugoni, 1995 *Secularization in the Long 1960s* Clive D. Field, 2017-03-09 Secularization in the Long 1960s Numerating Religion in Britain provides a major empirical contribution to the literature of secularization It moves beyond the now largely sterile and theoretical debates about the validity of the secularization thesis or paradigm Combining historical and social scientific perspectives Clive D Field uses a wide range of quantitative sources to probe the extent and pace of religious change in Britain during the long 1960s In most cases data is presented for the years 1955 80 with particular attention to the methodological and other challenges posed by each source type Following an introductory chapter which reviews the historiography introduces the sources and defines the chronological and other parameters Field provides evidence for all major facets of religious belonging behaving and believing as well as for institutional church measures The work engages with and largely refutes Callum G Brown s influential assertion that Britain experienced revolutionary secularization in the 1960s which was highly gendered in nature and with 1963 the major tipping point Instead a more nuanced picture emerges with some religious indicators in crisis others continuing on an existing downward trajectory and

yet others remaining stable Building on previous research by the author and other scholars and rejecting recent proponents of counter secularization the long 1960s are ultimately located within the context of a longstanding gradualist and still ongoing process of secularization in Britain

Attack Politics Emmett H. Buell Jr., Lee Sigelman, 2009-09-01 This second edition of *Attack Politics* updates Emmett Buell and Lee Sigelman's highly regarded study of negativity in presidential campaigns since 1960 with a substantial new chapter on the 2008 contest between Barack Obama and John McCain That campaign the authors contend proved to be the least negative in the last half century and reinforces their central argument that these campaigns have actually not grown dirtier and more negative since the election of JFK In this new edition Buell and Sigelman address the same questions that guided their research in the original book Who attacked whom How frequently On what issues In what ways And at what point in the race They also update their analysis of whether presidential campaigns have gotten more negative since 1960 whether opposing sides addressed the same issues or avoided subjects owned by the other side and whether trailing candidates wage more negative campaigns than leading candidates The authors expand their analysis well beyond their original research base 17 000 campaign statements extracted from nearly 11 000 news items in the New York Times focusing on both presidential and vice presidential nominees as sources and targets of attacks and examining the actions of surrogate campaigners They also compare their findings with previously published accounts of these campaigns including firsthand accounts by candidates and their confidants Each chapter features echoes from the campaign trail that reflect the invective exchanged by rival campaigns Their new chapter shows that rather than neatly resembling either of their typology's extremes runaways or dead heats the 2008 race began as a dead heat in late summer but began to take on all the characteristics of a somewhat competitive affair by the end of September Campaign discourse that began with an anticipated focus on the Iraq War and other national security issues came to be dominated by concerns about the economic meltdown As the campaign headed toward the home stretch anxiety about the economy seemed to eclipse national security health care immigration and other concerns This shift of emphasis they argue doomed whatever chance McCain had of winning Like the first edition this update of *Attack Politics* systematically analyzes negative campaigning pinning down much that has previously been speculated on but left unsubstantiated It offers the best overview yet of modern presidential races and remains must reading for anyone interested in the vagaries of those campaigns

Trends among high school seniors, 1972-1992, **Presidential Leadership** George C. Edwards, Kenneth R. Mayer, Stephen J. Vernacular Voices Gerard A. Hauser, 2022-01-18 An award winning study of how formal and informal public discourse shapes opinions A foundational text of twenty first century rhetorical studies *Vernacular Voices* addresses the role of citizen

voices in steering a democracy through an examination of the rhetoric of publics Gerard A Hauser maintains that the interaction between everyday and official discourse discloses how active members of a complex society discover and clarify their shared interests and engage in exchanges that shape their opinions on issues of common interest In the two decades since Vernacular Voices was first published much has changed in the aftermath of the 9 11 terrorist attacks US presidents have increasingly taken unilateral power to act the internet and new media have blossomed and globalization has raised challenges to the autonomy of nation states In a new preface Hauser shows how in an era of shared global crises we understand publics how public spheres form and function and the possibilities for vernacular expressions of public opinion lie at the core of lived democracy A foreword is provided by Phaedra C Pezzullo associate professor of communication at the University of Colorado Boulder

Who Will Fight the Next War? Martin Binkin, 2010-12-01 The Persian Gulf conflict was the first major combat test for U S military forces since the nation ended conscription two decades ago As hundreds of thousands of American troops were dispatched to the Middle East the nation realized seemingly for the first time that the composition of its armed forces was far removed from any that the nation had previously sent to war The deployment of unprecedented proportions of minorities and women and the prominent role of reserves and national guard troops aroused considerable interest widespread debate and some worry The prospect that African Americans could bear a disproportionate share of military casualties generated a socially diverse debate that threatened to reopen old racial scars the reality that American women were exposed to perils from which by long and deep tradition they had previously been shielded inspired calls for them to be admitted to combat specialties and controversy surrounding the readiness of the Army s combat reserves led to an internecine struggle over the future shape of the U S Army In this book Martin Binkin addresses each of these issues in order to provide a better understanding of the composition of America s fighting forces to prompt an assessment of attitudes toward who should fight in future wars and to delineate the choices for influencing the social distribution of peril Binkin argues that the time for public involvement is now while the memories of the Persian Gulf conflict are still reasonably fresh and while a fundamental rethinking of the post cold war military is under way
