role of antagonists they allow us to play with behaviour that would be offensive illegal or immoral if it happened outside of the game sphere While contemporary games have always handled certain problematic topics such as war disasters human decay post apocalyptic futures cruelty and betrayal lately even the most playful of genres are introducing situations in which players are presented with difficult ethical and moral dilemmas This volume is an investigation of dark play in video games or game play with controversial themes as well as controversial play behaviour It covers such questions as Why do some games stir up political controversies How do games invite or even push players towards dark play through their design Where are the boundaries for what can be presented in a games Are these boundaries different from other media such as film and books and if so why What is the allure of dark play and why do players engage in these practices *Social Exclusion, Power, and Video Game Play* David G. Embrick, Talmadge J. Wright, Andras Lukacs, 2012-03-01 While many books and articles are emerging on the new area of game studies and the application of computer games to learning therapeutic military and entertainment environments few have attempted to contextualize the importance of virtual play within a broader social cultural and political environment that raises the question of the significance of work play power and inequalities in the modern world Studies tend to concentrate on the content of virtual games but few have questioned how power is produced or reproduced by publishers gamers or even social media how social exclusion based on race class or gender in the virtual environment is reproduced from the real world and how actors are able to use new media to transcend their fears anxieties prejudices and assumptions The articles presented by the contributors in this volume represent cutting edge research in the area of critical game play with the hope of drawing attention to the need for more studies that are both sociological and critical
