In *The Games People Play* Robert Ellis constructs a theology around the global cultural phenomenon of modern sport paying particular attention to its British and American manifestations Using historical narrative and social analysis to enter the debate on sport as religion Ellis shows that modern sport may be said to have taken on some of the functions previously vested in organized religion Through biblical and theological reflection he presents a practical theology of sport's appeal and value with special attention to the theological concept of transcendence Throughout he draws on original empirical work with sports participants and

spectators The Games People Play addresses issues often considered problematic in theological discussions of sport such as gender race consumerism and the role of the modern media as well as problems associated with excessive competition and performance enhancing substances As Ellis explains Sporting journalists often use religious language in covering sports events Salvation features in many a headline and talk of moments of redemption is not uncommon Perhaps somewhere beyond the cliched hyperbole there is some theological truth in all this after all **Plays** James Matthew Barrie,1929
