Gang Nation:

Gang Nation Monica Brown, 2002 Explores how Latino gang culture mirrors the most destructive aspects of the American Dream through a look at novels and memoirs There s a place for us Somewhere a place for us With the emergence of a rich body of literature chronicling the experiences of Latino and Latina gang members popular understanding of this outlaw culture has advanced far beyond West Side Story However the diverse works discussed in this important book ranging from the breakthrough 1967 memoir Down These Mean Streets and the crime novel Carlito s Way to the play Zoot Suit and the World War II era historical novel Don t Spit on My Corner to more recent works such as Always Running La Vida Loca Gang Days in L A and Chicana gang narratives like Locas and Two Badges all share with the award winning musical a crucial discourse on nationality citizenship and belonging In Gang Nation Monica Brown offers a sophisticated analysis of these narratives produced by former gang members and by outside observers writing within the Latino community She examines the ubiquity of language and behavior within this literature that reveal the frustrated longings within gangs for greater participation in America s national culture and the desire of members to craft an alternative environment in which they are welcome Through literature and memoirs written from within the culture Brown illustrates how these youth mimic the rhetoric and rituals of American nationalism s most destructive aspects intense territoriality justification of violence and cultural chauvinism to assert their citizenship in an alternative nation Before now studies of gang culture have centered on either the choices of individual members or the social forces that inspire their unfocused rage But through Latino and Chicano gang literature Brown provides a more nuanced portrait of that culture one that raises broader concerns about dominant nationalism civil rights the criminalization of urban youth of color and the often unfulfilled sense of communal identity and acceptance among American youth

The ^AYouth Gang Problem Irving A. Spergel, 1995-06-01 Every day there are new stories of gang related crime from the proliferation of illegal weapons in the streets and children dealing drugs in their schools to innocent bystanders caught in the crossfire of never ending gang wars Once considered an urban phenomenon gang violence is permeating American life spreading to the suburbs and bringing the problem closer to home for much of America The government schools social agencies and the justice system are conspicuous by their sporadic interest in the subject and have failed to develop effective policies and programs Existing social support mechanisms and strategies for suppressing violence have often been unsuccessful And state and federal policy is largely nonexistent In The Youth Gang Problem A Community Approach Irving Spergel provides a systematic analysis of youth gangs in the United States Based on research historical and comparative analysis and agency documents and the author s extensive first hand experience the work explores the gang problem from the perspective of community disorganization especially population movement and the plight of the underclass It examines the factors of gang member personality gang dynamics criminal organization and the influence of family school prisons and politics as well as the response of criminal justice agencies and

community groups Spergel describes techniques used by social agencies schools employment programs criminal justice agencies and grass roots organizations for dealing with gangs and recommends strategies that emphasize the use of local resources planning and collaborative procedures There is no single strategy and no easy solution to the youth gang problem in the United States There are however substantial steps we can take and they must be honestly and systematically tested Offering a practical and alternative approach to a serious social problem The Youth Gang Problem A Community Approach is a major and long awaited contribution to this dilemma It is required reading for criminal justice personnel school staff social workers policy makers students and scholars of urban and organizational sociology and the general reader concerned with the youth gang problem and how to control intervene and prevent it The Barrio Gangs of San Antonio, 1915-2015 Mike Tapia, 2017-06-22 Barrio Gangs is the most comprehensive academic case study of barrio group dynamics in a major Texas city to date This is a sociological work on the history of barrio gangs in San Antonio and other large Texas cities to the present day It examines the century long evolution of urban barrio subcultures using public archives oral histories old photos and other forms of qualitative data The study gives special attention to the barrio gangs heyday from the 1940s through the 1960s comparing their attributes to those of modern groups It illustrates how social and technological changes have affected barrio networking processes and the intensity of the street lifestyle over time Intergenerational shifts and the tension that accompanies such changes are also central themes in the book Few other places are so conducive to such historical exploration as is San Antonio Street ignobility in the barrio no doubt mirrors processes found in other Chicano communities in Texas and the Southwest The gang contexts in major Chicano population centers have lengthy historical bases rooted in weak opportunity structures oppression and discrimination This work shows that participation in street violence drug selling and other parts of the informal economy are functional adaptations to the social structure the forces propelling the formation of barrio gangs are not temporary social phenomena Clicas Frank García, 2024-07-23 2025 First Book Prize Honorable Mention Cultural Studies Association How Latina o x gang literature and film represent women and gay gang members challenges to gendered sexual racial and class oppression Clicas examines Latina o x literature and film by and or about gay and women gang members Through close readings of literature and film Frank Garc a reimagines the typical narratives describing gang membership and culture amplifying and complicating critical gang studies in the social sciences and humanities and looking at gangs across racial ethnic and national identities Analyzing how the autobiographical poetry of Ana Castillo presents gang fashion culture and violence to the outside world the effects of women performing female masculinity in the novel Locas and gay gang members experiences of community in the documentary Homeboy Garc a complicates the dialogue regarding hypermasculine gang cultures He shows how they are accessible not only to straight men but also to women and gay men who can appropriate them in complicated ways which can be harming and also at times emancipating Reading gang members as de colonial agents who contest the power relations inequalities oppressions and

hierarchies of the United States Clicas considers how women and gay gang members resist materially and psychologically within a milieu shaped by the intersection of race gender sexuality and class Juvenile Delinquency Donald J. Shoemaker,2009 Juvenile Delinquency offers a timely and comprehensive look at the issues of criminal behavior and justice related to young persons In this highly readable text Donald J Shoemaker grounds his readers with a historical perspective then presents a series of sharply focused chapters on schooling religion and family as well as sections on drug use gangs and female delinquency With a strong emphasis on the importance of theory and practice Juvenile Delinquency is a must read for understanding crime and youth culture

Convictions of Conscience Brenda J. McMahon, Lisa R. Merriweather,2019-10-01 Convictions of Conscience How Voices From the Margins Inform Public Actions and Educational Leadership seeks to help educational leaders to develop the competencies and capacities required to create socially just and equitable schools It is for educational leaders interested in transforming systems and decolonizing education rooted socially structurally and ideologically in hegemony This edited volume promotes the questioning of assumptions embedded in neoliberal new managerialism practices that often undergird the preparation and training of school leaders New managerialism in higher education seeks to understand the market forces in order to cater to the idiosyncratic often self promoting needs and interests of the few and seeks to respond with programs and policies aligned with those forces and interest This volume suggests that the confluence of context theory and pedagogical strategies within the field of educational leadership should inform curricular decisions in educational leadership preparation programs and such programs should be

designed to prepare school leaders as both activists and advocates for marginalized students parents communities and staff

Convictions of Conscience is a call on educational leaders who are committed to success for all students to reject new managerial approaches at all levels of educational leadership and is an invitation to expand their emphasis to concerns rooted in human context particularly identity politics Towards this end a decolonizing philosophically grounded practice of educational leadership that disrupts static relations within the structures of power is required to move toward a more socially just praxis The chapter authors seek to problematize understandings of diversity and inclusion by emphasizing the integral role of equity and social justice as critical dimensions of human relationships Additionally chapter authors intentionally interrogate the socio cultural dimensions that affect educational leaders

Invisibility and Influence Regina Marie Mills, 2024-06-04 Invisibility and Influence is the first study of writings depicting Afro Latinx life in the US and the Hispanophone Caribbean It demonstrates how a century s worth of Afro Latinx writers in both places helped shape life writing including autobiography memoir collective autobiography and other formats Mills s work explores the tensions these writers experienced in being viewed by others as only either Latinx or Black not as a distinctive community that embodies both and should not be seen as simply a bridge between them This is not only a story of this specific and overlooked community but is also a history of how its work shaped and complicated discourses on race and colorism in the western hemisphere In doing so these writers created a literary history of themselves within the broader literary history of the Americas The first chapter looks at the life writings of Arturo Arthur Schomburg a writer who collected and recovered the voices of lost writers of the African Diaspora such as Phyllis Wheatley His collections of papers and art eventually created the core archive for the Schomburg Center for Research in Black Culture Mills elucidates his own writings of his life in Harlem and shows how they were in deeper conversation with Ralph Waldo Emerson and Thomas Carlyle s writings that had shaped a white American tradition of autobiography as well as with Black autobiographical writers such as W E B DuBois She extends the ties of Schomburg s Afro Puerto Rican background and life writings to Jesus Col n s sketches in the 1920s and even further to self depictions by members of The Young Lords through multiple medias such as photography film and poetry She is particularly interested in the ways that The Young Lords created a model of observe and participate that permeates all of their activities from recruitment to writing among others She uses the work of Afro Cuban and Puerto Rican writer Piri Thomas to think about the crucial role that violence against minority communities plays in the creation of self identity Her final chapter considers the place of secrecy and spirituality in the work of mostly but not solely Afro Latina writers to re center how the valuing of domesticity and spirituality can push back against the way their lives are marginalized to create their own Afro Latina feminisms
