African American Organized Crime Rufus Schatzberg, Robert J. Kelly, 1997 Comprehensive and objective this study argues that organized crime in the United States results from the struggle to attain the elusive American Dream to achieve success at any cost by any means The authors examine the social economic political and cultural conditions that fostered growth of criminal groups and organizations in African American communities from the post Civil War era to the ghettos of today

The Taking of New York City Andrew Rausch, 2024-11-05 For a time in the 1970s New York City seemed to many to be genuinely on the cusp of collapse Plagued by rampant crime graft catastrophic finances and crumbling infrastructure it served as a symbol for the plight of American cities after the convulsions of the 1960s This tale of urban blight was reinforced wherever one looked whether in the news media memorably captured in the infamous New York Daily News headline Ford to City Drop Dead or the countless movies that evoked the era s uniquely gritty sense of dread The Taking of New York City is a history of both New York and some of the decade s most definitive films including The French Connection 1971 the first two Godfather movies 1972 1974 Taxi Driver 1976 Serpico 1973 Dog Day Afternoon 1975 and many more It was also an era in which the city wrestled with the racial tensions still threatening the tear the nation apart never more so than in Blaxploitation classics such as Shaft 1971 and Super Fly 1972 These films depicted the city that never sleeps as a grim violent place overridden with muggers pimps and killers Projected at drive ins and inside their local movie houses rural

America saw New York as a nightmare a vile dystopia where the innocent couldn't rely on the local law enforcement who were seemingly all on the take. If one took Hollywood's word for it, the only way a person was able to find justice in 1970s New York City was by grabbing a gun and meting it out themselves. Author Andrew Rausch meticulously separates fact and fiction in this illuminating book. Attentive to the ways that New York's problems were exaggerated or misrepresented, it also gives an unvarnished look at just how bad things could get in the Rotten Apple and how movies told that story to the country and the world.

The Drop Dead Funny '70s Dan Lalande, 2023-08-04 This work offers a critical examination of 130 commercially released film comedies of the 1970s. It considers the socio-political circumstances of each year of the decade, then critiques each film released that year with a focus on its effect on the film industry and the art of big screen comedy as well as the emergence of talents whose work influenced or was influenced by the zeitgeist of the decade. Covering popular titles like *M A S H*, *Blazing Saddles*, *American Graffiti*, *The Bad News Bears*, *Smokey and the Bandit*, and many more, it argues that the 1970s may rightly be considered the last golden age of film comedy.

Untouchable: Robert De Niro Andy Dougan, 2011-05-31 Andy Dougan draws on first-hand interviews with some of De Niro's closest friends and colleagues. The result is a revealing and sometimes startling account of an intensely private man. While previous biographies of De Niro have only scraped the surface of his complex character, this sensitive and perceptive portrayal lays bare the psychological and emotional scars that De Niro has sought to hide for so long.

Killing the Messenger Thomas Peele, 2012 An investigative reporter explores the origins and history of the Black Muslim movement, the rise of a small but violent Black Muslim cult in Oakland, and the 2007 murder of journalist Chauncey Bailey by a teenage member of the cult.

Science and Judicial Reasoning Katalin Sulyok, 2020-10-29 Science, which inevitably underlies environmental disputes, poses significant challenges for the scientifically untrained judges who decide such cases. In addition to disrupting ordinary fact-finding and causal inquiry, science can impact the framing of disputes and the standard of review. Judges must therefore adopt various tools to adjust the level of science allowed to enter their deliberations, which may fundamentally impact the legitimacy of their reasoning. While neglecting or replacing scientific authority can erode the convincing nature of judicial reasoning, the same authority when treated properly may lend persuasive force to adjudicatory findings and buttress the legitimacy of judgments. In this work, Katalin Sulyok surveys the environmental case law of seven major jurisdictions and analyzes framing techniques, evidentiary procedures, causal inquiries, and standards of review, offering valuable insight into how judges justify their choices between rival scientific claims in a convincing and legitimate manner.

Proportionality, Reasonableness and Standards of Review in International Investment Law and Arbitration Valentina Vadi, 2018-04-27 International investment law is one of the most dynamic fields of international law, and yet it has been criticised for failing to strike a fair balance between private and public interests. In this valuable contribution to the current debate, Valentina Vadi examines the merits and pitfalls of arbitral tribunals' use of the concepts of proportionality and reasonableness to review the compatibility of a state's regulatory actions.
