The Psychological Development of Girls and Women Sheila Greene, 2014-11-27 Choice Recommended Read This thoroughly revised new edition updates Sheila Greene s original transformative account of the psychological development of girls and women and the central role of time in shaping human experience Greene critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those that claim to focus on development have presented a view of women s lives as fixed and determined by their nature or their past These theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women Essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasizes temporality emergence and human agency The result is a liberating theory of women s psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal

Changing the Face of Hunger Tony Hall,2007-02-04 Struggling to mask his tears Tony Hall followed a doctor through a mass of dying Ethiopians crying out for food and medicine

help that could not possibly arrive soon enough or in sufficient quantities to keep them alive From that painful scene of hopelessness Hall returned home with a new focus for his faith Both as a U S Congressman and the U S Ambassador to the United Nations Food and Agriculture Agencies in Rome he has been a man with a mission Tony used his passion faith and political skills to solicit the aid of those able to help And as he worked with liberals and conservatives Republicans and Democrats and people of very different faiths he stumbled into a remarkable discovery He found that people who regularly live at odds often are willing to join forces in helping those who are abjectly poor and hungry I ve learned not only that people can work together across differences but our diversity gives us strength Let Tony capture your heart with his dream that we may put aside differences and join hands to feed the hungry clothe the poor and discover the importance of life
