Gap Junctions Proceedings Of The 8th International Gap Junction Conf:

Gap Junctions Rudolf Werner, 1998 This monograph contains research articles from the leading laboratories around the world on gap junctions the intercellular channels that allow communication between neighbouring cells It describes the latest results in gap junctions research the structural and functional characterization of cell cell channels the assembly and degradation of gap junctions the expression and function of gap junctions in different tissues knockout studies of gap junction genes the regulation of connexin gene expression and the functions of gap junctions in development and cancer Any laboratory interested in intercellular communications and gap junction research will find this monograph an indispensable source of information and reference

Gap Junctions Rudolf Werner, 1998 **Gap Junctions: Molecular Basis of Cell Communication in Health and Disease**, 1999-12-22 Since the first gap junction protein connexin was cloned over a decade ago more than a dozen connexin genes have been cloned Consequently a wealth of information on the molecular basis of gap junctional communication has been accumulated This book pays tribute to this exciting era in the history of cell communication research by documenting the great strides made in this field as a result of the merging of biophysics and molecular biology two of the most powerful approaches to studying the molecular basis of membrane channel behavior Twenty eight comprehensive chapters authored by internationally recognized leaders in the field discuss the biophysical physiological and molecular characteristics of cell to cell communication via gap junctions Key aspects of molecular structure formation gating conductance and permeability of vertebrate and invertebrate gap junction channels are highlighted In addition a number of chapters focus on recent discoveries that implicate connexin mutations and alterations of gap junctional communication in the pathogenesis of several diseases including the X linked Charcot Marie Tooth demyelinating disease some forms of inherited sensorineural deafness malignant transformation cardiac malformations and arrhythmia eye lens cataract and Chagas disease
