Pollak,2000-08-04 In this provocative analysis of Whitman s exemplary quest for happiness Vivian Pollak skillfully explores the intimate relationships that contributed to his portrayal of masculinity in crisis She maintains that in representing himself as a characteristic nineteenth century American and in proposing to heal national ills Whitman was trying to temper his own inner conflicts as well The poet s expansive vision of natural eroticism and of unfettered comradeship between democratic equals was however only part of the story As Whitman waged a conscious campaign to challenge misogynistic and homophobic literary codes he promoted a raceless classless ideal of sexual democracy that theoretically equalized all varieties of desire and resisted none Pollak suggests that this goal remains imperfectly achieved in his writings which liberates some forbidden voices and silences others Integrating biography and criticism Pollak employs a loosely chronological organization to describe the poet s multifaceted faith in sex Drawing on his early fiction journalism poetry and self reviews as well as letters and notebook entries she shows how in spite of his personal ambivalence about sustained erotic intimacy Whitman came to imagine himself as the phallic choice of America **Aunt Louisa's Book of Nursery Rhymes** Laura Valentine,1892 **Always, My Love** Dorothy Fletcher,2013-08-19 As *Crimson Romance* celebrates its first anniversary we honor those pioneers who helped shape the direction of romance novels for all of us Suspense mystery paranormal activity and love always love have been the cornerstone of the genre since the early 1970s

Ballinger, 2019-05-24 This title was first published in 2000 Between 1900 and 1950 130 women were sentenced to death for murder in England and Wales Only 12 of these women were actually executed Thus 91 per cent of women murderers had their sentence commuted whereas if we examine the corresponding figures for men only 39 per cent had their sentence commuted It would appear that state servants working within the criminal justice system were far more reluctant to hang women than men However this text argues that a closer examination of this apparent discrepancy reveals it to be a misconception which has come about as a result of the statistics regarding infanticide That is to say unlike men the vast majority of women murderers have killed their own child or children Once this is taken into account we find that women who had murdered an adult had less hope of a reprieve than men Thus the author shows that the large proportion of women murderers as killers of their own children has created a false impression of how female murderers fared inside the criminal justice system **English Life** Theron Clark Crawford, 1889 *Vote for Murder* Jacqueline Beard, 2015-09-18
