Pentecostal Churches in Transition Shane Clifton, 2009-05-20 The global growth of Pentecostal movements during the course of the twentieth century has been widely documented although to date there has been little written on their developing ecclesiology After making the case for a concrete rather than idealised approach to ecclesiology this book describes and analyses the transitions that have framed the ways in which Australian Pentecostals have understood church life and mission From a loosely knit faith missions movement to congregational free church structures to the so called apostolic models of mega churches Australian pentecostalism stands as a microcosmos of ecclesial developments that have occurred throughout the world This book therefore provides a means of reflecting upon what has been gained and lost in the process of ecclesiological change

Australian Pentecostal and Charismatic Movements, 2020-04-28 In Australian Pentecostal and Charismatic Movements Arguments from the Margins Rocha Hutchinson and Openshaw argue that Australia has made and still makes important contributions to how Pentecostal and charismatic Christianities have developed worldwide This edited volume fills a critical gap in two important scholarly literatures The first is the Australian literature on religion in which the absence of the charismatic and Pentecostal element tends to reinforce now widely debunked notions of Australia as lacking the religious tendencies of old Europe The second is the emerging transnational literature on Pentecostal and Charismatic movements This book enriches our understanding not only of how these movements spread worldwide but also how they are indigenised and grow new shoots in very diverse contexts

Australia's New Aged John McCallum, 2023-04-28 The idea that our society is ageing is a popular source of gloomy predictions for the future We see today s youth struggling in their mature years to pay for the masses of geriatric baby boomers whose productive years lie far behind Australia s New Aged shows that this belief is part reality and part myth While there will be an increase in the proportion of aged people in the next 20 years this is a temporary phenomenon and it is likely that tomorrow s elderly will quite differently from their parents Australia s New Aged examines public policy for the aged in the context of an increasingly vocal and active elderly population and cutbacks to health and welfare spending The authors argue that policy makers have become trapped in a social problem approach to ageing that assumes the elderly are a homogeneous disadvantaged group with common interests They examine a range of cases and identify negative consequences of inappropriate assumptions in terms of structural blindness and brutality They show that this approach is no longer viable and argue that both policy makers and the aged care industry will need to be more sensitive to diversity and more flexible than ever before Australia s New Aged is essential reading for students policy makers and anyone working with the aged John McCallum is Professor of Public Health and Dean of the Faculty of Health at the University of Western Sydney Macarthur and co editor of Grey Policy 1990 Karin Geiselhart is a journalist previously employed by the Office for the Status of Women in Canberra
