Margaret Ripley Wolfe, 2021-12-14 From *Gone with the Wind* to *Designing Women* images of southern females that emerge from fiction and film tend to obscure the diversity of American women from below the Mason Dixon line In a work that deftly lays bare a myriad of myths and stereotypes while presenting true stories of ambition grit and endurance Margaret Ripley Wolfe offers the first professional historical synthesis of southern women s experiences across the centuries In telling their story she considers many ordinary lives those of Native American African American and white women from the Tidewater region and Appalachia to the Mississippi Delta to the Gulf Coastal Plain women whose varied economic and social circumstances resist simple explanations Wolfe examines critical eras outstanding personalities and groups wives mothers pioneers soldiers suffragists politicians and civil rights activists and the impact of the passage of time and the pressure of historical forces on the region s females The historical southern woman argues Wolfe has operated under a number of handicaps bearing the full weight of southern history mythology and legend Added to these have been the limitations of being female in a patriarchal society and the constraining images of the southern belle and her mentor the southern lady In addition the specter of race has haunted all southern women Gender is a common denominator but according to Wolfe it does not transcend race class point of view or a host of other factors Intrigued by the imagery as well as the irony of biblical stories and southern history Wolfe titles her work *Daughters of Canaan* Canaan symbolizes promise and for activist women in particular the South has been about promise as much as fulfillment General readers and students of southern and women s history will be drawn to Wolfe s engrossing chronicle **Crude Awakening** Amanda Coyne, Tony Hopfinger, 2011-11-08

oil fields and an uncertain future **Redneck Liberation** David Fillingim, 2003 In this unique book David Fillingim explores country music as a mode of theological expression Following the lead of James Cone's classic *The Spirituals and the Blues* Fillingim looks to country music for themes of theological liberation by and for the redneck community The introduction sets forth the book's methodology and relates it to recent scholarship on country music Chapter 1 contrasts country music with Southern gospel music the sacred music of the redneck community as responses to the question of theodicy which a number of thinkers recognize as the central question of marginalized groups The next chapter *The Gospel according to Hank* outlines the career of Hank Williams and follows that trajectory through the work of other artists whose work illustrates how the tradition negotiates Hank's legacy The *Apocalypse according to Garth* considers the seismic shifts occurring during country music's popularity boom in the 1980s Another chapter is dedicated to the women of country music whose honky tonky feminism parallels and intertwines with mainstream country music which was dominated by men for most of its history Written to entertain as well as educate and advance *Redneck Liberation* will appeal to anyone who is interested in country music Southern religion American popular religiosity or liberation theology *How to Transform Workplace Bullies into Allies* Jacqueline A. Gilbert, 2020-04-01 The rash of bullying incidents within schools universities and workplaces has prompted a public outcry and a call to action To address the growing problem of interpersonal violence schools have engaged in anti bullying rallies businesses have enacted civility policies states have passed legislation and efforts have been made to educate individuals on what constitutes good behavior Increasingly institutions are realizing from a cost benefit perspective that a hurtful environment can negatively impact their bottom line Correspondingly the rising number of climate surveys to address bullying at work is a testament to the importance of this topic and its potential negative impact Colleges and universities confirm the need to create a more welcoming culture as reflected in the current dialogue to promote civility Publisher offerings in business ethics are inadequate to address this issue as they focus on the importance of social responsibility and the fallout from moral turpitude There is a pressing need for materials that will educate students on civil concepts and provide them with applied learning Institutions of higher education would like to inform students about bullying its ramifications and how it can be avoided but a compendium of related exercises is in most cases non-existent To solidify student learning about positive citizenship an established author and anti bullying activist has proposed *How to Transform Workplace Bullies into Allies* This unique groundbreaking text will provide hands on experiential exercises that will engage students with the material and create a multi dimensional focus to enable concept retention Considered a hallmark of applied education learning by doing will be this book's primary emphasis Exercises are designed to sharpen critical thinking immerse students in real world dilemmas and provide them with tools for conflict resolution The emotional intelligence promoted by working through in text scenarios is a sought-after employee trait one that is desired by classmates and career centers alike Unfortunately people skills at work have long been ignored in traditional college curricula As a result schools are creating

graduates who possess technical know how but not the skill set to effectively navigate personal encounters The soft skills of people savvy which have been deemed crucial to employee success are in large part absent from college offerings By navigating carefully constructed scenarios web quests learning modules and teachable moments readers will develop a keen awareness of what it takes to be a respectful person Moreover they will gain expertise in what has been deemed a critical skill set by many organizations including the Society for Human Resource Management Exercises to strengthen incivility awareness are designed not only to prevent potential conflict but to create change agents within the business arena Completion of this workbook will provide people with a competitive advantage and their institution and workplace with a more courteous populace

Freeman, 2020-12-01 Women of Discriminating Taste examines the role of historically white sororities in the shaping of white womanhood in the twentieth century As national women's organizations sororities have long held power on college campuses and in American life Yet the groups also have

always been conservative in nature and inherently discriminatory selecting new members on the basis of social class religion race or physical attractiveness In the early twentieth century sororities filled a niche on campuses as they purported to prepare college women for ladyhood Sorority training led members to comport themselves as hyperfeminine heterosocially inclined traditionally minded women following a model largely premised on the mythical image of the southern lady Although many sororities were founded at non southern schools and also maintained membership strongholds in many non southern states the groups adhered to a decidedly southern aesthetic a modernized version of Lost Cause ideology in their social training to deploy a conservative agenda Margaret L Freeman researched sorority archives sorority related materials in student organizations as well as dean of women s student affairs and president s office records collections for historical data that show how white southerners repeatedly called upon the image of the southern lady to support southern racial hierarchies Her research also demonstrates how this image could be easily exported for similar uses in other areas of the United States that shared white southerners concerns over changing social demographics and racial discord By revealing national sororities as significant players in the grassroots conservative movement of the twentieth century Freeman illuminates the history of contemporary sororities difficult campus relationships and their continuing legacy of discriminatory behavior and conservative rhetoric
