Goreuon Storiâu Kate Roberts:

Kate Roberts Katie Gramich, 2011-02-15 When the Welsh writer Kate Roberts died in 1985 at the age of 94 the Times obituary noted that she was felt by many to rank with Maupassant as one of the leading European short story writers Roberts is widely acknowledged as the major twentieth century novelist and short story writer to have written in the Welsh language being known and revered in Wales as the Queen of our Literature Much of her work has been translated into English and other languages and yet she remains today relatively little known and under appreciated in comparison for example with other female contemporaries who wrote in English such as Virginia Woolf Katherine Mansfield and Elizabeth Bowen This volume seeks to redress the balance bringing the life and work of this extraordinary novelist playwright short story writer journalist and ardent political campaigner to the attention of the wider world audience that the sheer quality of her writing deserves British Working Class women authors (born before 1962) a list Stefan Szczelkun , 2025-06-07 A collection of

Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence Introduction Looking through Sarah Richardson s Writing on the Line 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from Writing on the Line and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel **Goreuon storïau Kate Roberts** Kate Roberts, 1997 **British and Irish Short-fiction Writers, 1945-2000**
