Gothic Art Michael Camille,1996 When we look at the soaring spaces of Chartres cathedral or the shimmering pages of a gilded and painted manuscript we are witnesses to a new kind of vision In this radical reappraisal of Gothic art in Europe the word Gothic describes not only an art style but a changing concept of space time and society a new kind of perception both visual and spiritual in which light is of central importance Camille shows us how the art of the thirteenth and fourteenth centuries was seen in its own time and explores the way vision itself was understood In this age of glorious painting magnificent intricate architecture and sculpture and jewellike manuscript illumination art was an expression of religious

passion and earthly power of public and private wealth of science and learning The new vision led to an explosion of brilliant images but had its grim side rarely noticed by art history the distorted representation of others like Jews heretics and lepers a new vision not only of the marvelous but also of the grotesque *How to Recognize Gothic Art* Maria Cristina
