## Ein Traumspiel:

**Die kronbraut; Schwanenweiss; Ein Traumspiel** August Strindberg, 1920      **An International Annotated Bibliography of Strindberg Studies 1870-2005: The plays** Michael Robinson, 2008 This copiously annotated bibliography documents and examines the whole range of commentary on Strindberg's works and activity in many fields besides the plays for which he is internationally best known. These include his prose fiction and poetry, his work as an historian and natural historian and his relationship to the other arts, most notably his painting. It is concerned with both lasting works of literary and dramatic criticism as well as reviews of his books and plays in the theatre and some more ephemeral material, all of this in several languages. Organised generically and by subject and individual work, the bibliography enables the reader to trace the changing impact of Strindberg and his works in various countries and during different periods. It is thus very much a study in reception as well as a bibliographical record of published material. It traces the developing image of Strindberg and his writing both during his lifetime and in subsequent years and with frequent cross reference offers a comprehensive overview of a literary and existential project that has rarely been matched for its multifaceted diversity. The bibliography is published in three parts: Volume 1 General Studies 978 0 947623 81 4 and Volume 3 Prose Poetry Miscellaneous 978 0 947623 83 8 are also now available. Michael Robinson is Emeritus Professor of Drama and Scandinavian Studies at the University of East Anglia, Norwich.

**August Strindberg, "Ein Traumspiel"** Helmut Müssener, 1965      *Unterwerfung und Aufruhr* Andrea Heyde, 1997      **An Introduction to the Works of Peter Weiss** Olaf Berwald, 2003 Discusses Weiss's plays, fiction, autobiography and non-fiction prose. Pp 22-25 illuminate Die Ermittlung, an oratorio based on Weiss's 1964 attendance at the Frankfurt war crimes trial. He used actual documents, both aesthetically and politically. 18 of the defendants appear with their real names, either defending themselves with the jargon of doing their duty or totally denying their guilt. Among the charges against these Nazis were conducting medical experiments, torture and murder. Ch 7 pp 107-129 elucidates Weiss's three-volume novel Die Sthetik des Widerstands about resistance to Nazism in thought and action. The characters in the novel are based on members of the Rote Kapelle resistance group. Politics and creative thinking/art are shown as complementary, not contradictory.

**TheaterDenken** Freddie Rokem, 2017-10-23 Wechselseitige Beziehungen, Befragungen und Beeinflussungen von Philosophie und Theater bzw. Performance sind in jüngster Zeit zu einem wichtigen und innovativen Forschungsfeld geworden. TheaterDenken trägt zur Entwicklung dieses Untersuchungsfelds mit der Analyse von vier direkten Begegnungen zwischen Philosophen und Theatermachern im weiteren Sinne bei. Die Studie beginnt mit der Diskussion zwischen Sokrates, Agathon und Aristophanes in Platons Das Gastmahl. Sie endet bei der Auseinandersetzung von Walter Benjamin und Bertolt Brecht über einen kurzen Text von Franz Kafka bei ihrer Begegnung in Dänemark 1934. Zudem analysiert Rokem Hamlets komplexe und tragische Identitätsspaltung in Philosoph und Theatermacher. Er widmet sich ferner der intensiven Korrespondenz von Friedrich Nietzsche und August Strindberg, bestehend aus dreizehn Briefen. In

TheaterDenken das sich zugleich auf historischen und fiktionalen Schauplätzen bewegt eröffnet zudem eine umfangreiche Diskussion über die Bedeutung von Performativität für das philosophische Denken. Er entwickelt sie aus Begegnungen und Konstellationen philosophischer und theatraler Praktiken. Diese unterschiedlichen Diskursfelder, so zeigt der Autor, sind nicht nur im Wettstreit aufeinander bezogen oder schließen sich wechselseitig aus, sondern sie fließen immer wieder ineinander und eröffnen kreative Sphären des TheaterDenkens.

Space in America Klaus Benesch, Kerstin Schmidt, 2005. America's sense of space has always been tied to what Hayden White called the narrativization of real events. If the awe-inspiring manifestations of nature in America—Niagara Falls, Virginia's Natural Bridge, the Grand Canyon etc.—were often used as a foil for projecting utopian visions and idealizations of the nation's exceptional place among the nations of the world, the rapid technological progress and its concomitant appropriation of natural spaces served equally well as David Nye argues to promote the dominant cultural idiom of exploration and conquest. From the beginning, American attitudes towards space were thus utterly contradictory, if not paradoxical, a paradox that scholars tried to capture in such hybrid concepts as the middle landscape, Leo Marx' an engineered New Earth, Cecelia Tichi or the technological sublime. David Nye: Not only was America's concept of space paradoxical, it has always also been a contested terrain, a site of continuous social and cultural conflict. Many foundational issues in American history—the dislocation of Native and African Americans, the geo-political implications of nation building, immigration and transmigration, the increasing division and clustering of contemporary American society etc.—involve differing ideals and notions of space. Quite literally, space and its various ideological appropriations formed the arena where America's search for identity, national, political, cultural, has been staged. If American democracy, as Frederick Jackson Turner claimed, is born of free land, then its history may well be defined as the history of the fierce struggles to gain and maintain power over both the geographical, social and political spaces of America and its concomitant narratives. The number and range of topics, interests and critical approaches of the essays gathered here open up exciting new avenues of inquiry into the tangled, contentious relations of space in America. Topics include: Theories of Space, Landscape, Nature, Technoscape, Architecture, Urban Utopia, Literature, Performance, Film, Visual Arts.

Screening the Stage Bert Cardullo, 2006. This book examines the historical, cultural and aesthetic relationships between theater and film. As we enter the 21st century, almost all artists, students and critics working in theater will have had earlier and greater exposure to film than to theater. In fact, film has become central to the way in which we perceive and formulate stories, images, ideas and sounds. At the same time, film and video occupy an increasingly significant place in theater study, both for the adaptation of plays and for the documentation and preservation of theatrical performances. Yet far too often, theater and film artists, as well as educators, make the jump from one medium to the other without being fully aware of the ways in which the qualities of each medium affect content and artistic expression. This book is intended to fill such a gap by providing a theoretical and practical foundation for understanding the effect that film and drama have had and continue to have on each other's development. Moreover, this

study provides a history of the relationship between drama and cinema starting with the pre cinematic late 19th century impulse towards capturing spectacular action on the stage and examining the artistic and commercial interaction between movies and plays both in popular and experimental work throughout the 20th century Important subjects treated in this book include stage versus screen acting the adaptation process itself the theatrical as well as the cinematic avant garde and the portability or adaptability of dramatic character

**Roger Blin** Mark Taylor-Batty, 2007 Roger Blin s career in the Arts was woven inextricably into the fabric of the Twentieth Century French Avant Garde First appearing in the films of Abel Gance Marcel Carné and Jean Cocteau his acting career led him to a close friendship and association with Antonin Artaud for whom he performed the function of assistant director He championed Samuel Beckett s *En attendant Godot* otherwise rejected unanimously by the French theatrical establishment

was Jean Genet's director of choice and was long associated with artists and practitioners as diverse as Arthur Adamov, Jean Louis Barrault and Jacques Prévert. Marxist in outlook, Blin also sought to apply rigorous humanist principles to his art and delighted in the opportunities he enjoyed to disrupt and upturn the attitudes and complacencies of certain of his audiences. This book surveys all aspects of Blin's artistic output to consider and clarify his motivations, his ambitions and his aesthetic preferences. In doing so, the author hopes to offer perspectives on the methodologies that Blin employed and define the influence his work and his legacy has exerted on the French and World stage.

**Structures of Influence** Marilyn Johns Blackwell, 2020-05-01 This collection of essays featuring contributions from eminent Swedish and American Strindberg scholars addresses the question of how Strindberg's art collides and colludes ideologically and aesthetically with the literary doyens of the nineteenth and twentieth centuries in both the Scandinavian and the larger Western cultural context.

This collection of biographical sketches, fueled by Hunecker's vivid literary style, weaves together a rich tapestry of cultural critique and admiration for the unconventional. Through meticulous observation and an impassioned prose, Hunecker explores the challenges faced by these iconoclastic figures, ranging from composers to painters during the early 20th century, emphasizing their profound impact on the artistic landscape. The book serves as both a celebration and an exploration of the tension between creativity and conformity.
