*The Fontane Workshop* Petra S. McGillen, 2019-07-25 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures Awarded by the MLA With an innovative approach that combines material media history media theory and literary poetics this book reconstructs the great German writer Theodor Fontane s creative process Petra McGillen follows Fontane into the engine room of his text production Analyzing a wealth of unexplored archival evidence which includes a collection of the author s 67 extant notebooks along with an array of other paper tools such as cardboard boxes envelopes and slips McGillen demonstrates how Fontane compiled his realist prose works That is he assembled them from premediated sources literally with scissors and glue in an extraordinarily inorganic and radically intertextual manner that turned writing into a process of ongoing remix By exploring the far reaching implications of Fontane s creative practices for our understanding of his authorship originality and poetics this book opens up a completely new way to think about his works and by extension 19th century literary realism This conceptualization of authors notebooks as creative tools makes a substantial contribution to scholarship on the history of writing media in several disciplines from German studies and literary studies to media history and to our understanding of the relationship between mass media and literary creativity in the late 19th century
