Geelhoed, A. Edmonds, 2002-12-13 Between 1957 1961 Dwight D Eisenhower and Harold Macmillan restored the Special Relationship between the United States and Great Britain after the Suez Crisis of 1956 threatened to divide these longtime allies Their diplomatic partnership designed to keep the peace during one of the most difficult periods of the Cold War was based on their personal friendship the system of bilateral consultations which they established and the program of defence co operation which they instituted In this fascinating study Geelhoed and Edmonds explore the most important diplomatic partnership of the 1950s **France, Britain and the United States in the Twentieth Century: Volume 2, 1940-1961** Andrew J. Williams, 2019-12-31 In his account of the relationship between France the UK and the US Andrew Williams successfully intertwines diplomatic history with international thought We are presented with a historical stage that includes both the doers and the thinkers of the age and as a result this is a must read for both diplomatic historians and historians of international thought The second in a multivolume study this volume takes the story beyond the fall of France into the war years the period of post war reconstruction and the Cold War As with the first volume Williams is an excellent guide stepping over the ruins of past worlds and introducing us to an epoch with more than its fair share of both visionaries and villains Yet in this second volume the stakes are higher as the United States comes to terms with its role as the paramount world power Britain faces a world that challenges its imperial order and France is picking up the pieces from its defeat Lucian Ashworth Memorial University Canada Following on from his outstanding first volume reviewing the complex interwar relationships between France Britain and the United States Williams second volume is an indispensable and lucid overview of the vitally important era of post war reconstruction From national post war developments to institutional structures and superpower shifts Williams examines clearly and engagingly the final passing of pre modern power structures and the emergence of a new Europe Amelia Hadfield University of Surrey UK divAt a time of intense debates about Europe the Anglosphere and empires old and new Andrew Williams s book is a timely demonstration that the weight of emotion in the shaping of foreign policy and its makers should not be forgotten Unearthing some of the forces profondes in diplomacy and reflecting on feelings of humiliation and liberation in national constructs Andrew Williams discusses the cultural conceptions and misconceptions that French American and British diplomats had of each other thereby

revisiting the reasons why the special relationship was largely a myth but one which had tangible consequences on French and British policies in their retreat from empire By connecting the personal and the national the structural and accidental Williams offers essential insights into the major conflicts of the period and their impact on diplomatic cultures across the Atlantic M lanie Torrent Universit Picardie Jules Verne Amiens France The second volume of this study of France s unique contribution to the international relations of the last century covers the period from the Fall of France in 1940 to Charles de Gaulle s triumphant return to power in the late 1950s France had gone from being a victorious member of the coalition with Britain and the United States that won the First World War to a defeated nation in a few short weeks France then experienced the humiliation of collaboration with and occupation by the enemy followed by resistance and liberation and a slow return to global influence over the next twenty years This volume examines how these processes played out by concentrating on France s relations with Britain and the United States most importantly over questions of post war order the integration of Europe and the withdrawal from Empire **Britain's Revival and Fall in the Gulf** Simon C.

Smith,2004-04-29 This book examines Britain s decision to leave the Gulf and considers the interaction between British decision making and local responses and initiatives in shaping the modern Gulf Ending Empire in the Middle East Simon C. Smith,2013-03-01 This book is a major and wide ranging re assessment of Anglo American relations in the Middle Eastern context It analyses the process of ending of empire in the Middle East from 1945 to the Yom Kippur War of 1973 Based on original research into both British and American archival sources it covers all the key events of the period including the withdrawal from Palestine the Anglo American coup against the Musaddiq regime in Iran the Suez Crisis and its aftermath the Iraqi and Yemeni revolutions and the Arab Israeli conflicts It demonstrates that far from experiencing a loss of nerve or tamely acquiescing in a transfer of power to the United States British decision makers robustly defended their regional interests well into the 1960s and even beyond It also argues that concept of the special relationship impeded the smooth running of Anglo American relations in the region by obscuring differences stymieing clear communication and practising self deception on policy makers on both sides of the Atlantic who assumed a contiguity which all too often failed to exist With the Middle East at the top of the contemporary international policy agenda and recent Anglo American interventions fuelling interest in empire this is a timely book of importance to all those interested in the contemporary development of the region

Almost Impossible Ally Peter Mangold,2006-02-02 On 14 January 1963 General de Gaulle described by the Foreign Office as an almost impossible ally brutally vetoed Britain s first bid to join the Common Market It was a blow that delayed Britain s entry for a decade and hastened the end of Harold Macmillan s political career Peter Mangold writes in arresting detail about the fascinating personal duel that shaped high politics and Anglo French diplomacy He portrays two of the most complex and skilful leaders of the post war era old friends from their association in Algiers during World War II de Gaulle the dour lofty moralist obsessed with high notions of France and Macmillan the canny ambitious fixer always the pragmatist seeking to get things done As Resident Minister Allied Forces Headquarters in Algiers in 1943 Macmillan had done much to help de Gaulle and protect him from Churchill s and Roosevelt s hostility They next met in 1958 as leaders of their two countries when Britain and France faced many similar problems ranging from decolonization and their determination to retain national Great Power status to relations with the impetuous Soviet leader Nikita Khrushchev But while both seemed anxious to retain their old wartime connection they were now rivals with very different views of the world Divided by the Atlantic as much as the Channel the two leaders disagreed fundamentally over America De Gaulle sought the leadership of a Europe independent of the United States the pro American Macmillan talked of Britain as a bridge between the two sides of the Atlantic When Macmillan finally sought EEC membership de Gaulle played on the old alliance to keep the British Prime Minister off guard Ultimately Macmillan was outwitted out manoeuvred and even perhaps outclassed by the General The Almost Impossible Ally is a fascinating story of a friendship turned sour and of a compelling new episode in the turbulent relations between Britain and France **The Macmillan-Eisenhower Correspondence, 1957-69** E. Diplomacy Shot Down E. Bruce Geelhoed,2020-03-26 The history of the Cold War is littered with what ifs and in *Diplomacy Shot Down* E Bruce Geelhoed explores one of the most intriguing What if the Soviets had not shot down the American U 2 spy plane and President Dwight D Eisenhower had visited the Soviet Union in 1960 as planned In August

1959 with his second term nearing its end Eisenhower made the surprise announcement that he and Soviet premier Nikita S Khrushchev would visit each other's countries as a means of thawing some of the ice of the Cold War Khrushchev's trip to the United States in September 1959 resulted in plans for a four power summit involving Great Britain and France and for Eisenhower's visit to Russia in early summer 1960 Then in May 1960 the Soviet Union shot down an American U 2 surveillance plane piloted by Francis Gary Powers The downing of Powers's plane was in Geelhoed's recounting of this episode in Cold War history not just a diplomatic crisis The ensuing collapse of the summit and the subsequent cancellation of Eisenhower's trip to the Soviet Union amounted to a critical missed opportunity for improved US Soviet relations at a crucial juncture in the Cold War In a blow by blow description of the diplomatic overtures the U 2 incident and the aftermath *Diplomacy Shot Down* draws upon Eisenhower's projected itinerary and unmade speeches and statements as well as the American and international press corps preparations for covering the aborted visit to give readers a sense of what might have been Eisenhower's prestige within the Soviet Union was so great Geelhoed observes that the trip if it had happened could well have led to a détente in the increasingly dangerous US Soviet relationship Instead the cancellation of Ike's visit led to an escalation in hostilities that played out around the globe and nearly guaranteed that the missile gap would reemerge as an issue in the 1960 presidential campaign A detailed account of an episode that defined the Cold War for a generation *Diplomacy Shot Down* is in its insights and revelations something rarer still a behind the scenes look at history in the unmaking
