El Gibraltar Economico Franco Y Riotinto 19361954:

Gibraltar and the Spanish Civil War, 1936-39 Julio Ponce Alberca, 2014-11-20 Incorporating local national and international dimensions of the conflict Gibraltar and the Spanish Civil War 1936 39 provides the first detailed account of the British enclave Gibraltar's role during and after the Spanish Civil War The neutral stance adopted by democratic powers upon the outbreak of the Spanish Civil War is well known The Non Intervention Committee played a key role in this strategy with Great Britain a key player in what became known as the London Committee British interests in the Iberian Peninsula however meant that events in Spain were of crucial importance to the Foreign Office and the victory of the Popular Front in February 1936 was deemed a potential threat that could drive the country towards instability This book explores how British authorities in Gibraltar ostensibly initiated a formal policy of neutrality when the uprising took place only for the Gibraltarian authorities to provide real support for the Nationalists under the surface The book draws on a wealth of primary source material some of it little known before now to deliver a significant contribution to our knowledge of the part played by democratic powers in the 1930s confrontation between Communism and Fascism It is essential reading for anyone seeking a complete understanding of the Spanish Civil War

El Terrible: Life and Labor in Pueblonuevo, 1887-1939 Patricia A. Schechter, 2024-07-12 This book is a biography of Pueblonuevo del Terrible a mining town located in Andalusia Spain Based on previously unexamined sources the study paints a fresh portrait of industrial workers and their families in Córdoba province enriching our understanding of this mostly agricultural region Previous studies of laboring communities in Spain have identified radical workers miners among them as a destabilizing element due to their insurgent protest activity including lethal violence This study by contrast describes both worker activism and cross class organizing as constructive not destructive and aimed at integration into Spanish society Economically the mining zone was dominated by a French company in the Rothschild portfolio But by running their own city waging peaceful labor strikes raising a church building housing and honoring their dead residents turned a quasi colonial outpost into a pueblo worth defending and they rallied in defense of the Republic at the outbreak of the Spanish Civil War In the making of Pueblonuevo del Terrible Spanish men and women contended with the perils of mine work the jolts of industrial capitalism creeping fascism and civil war As such this book tells a village scale story of global events that defined the twentieth century

Peninsular Identities, Transatlantic Crossings and Iberian Networks Mark Gant, Siân Edwards, Susana Rocha Relvas, 2024-03-06 This volume promotes recent and innovative research in different areas of knowledge within the scope of Iberian studies contributing to the deepening and dissemination of this expanding research area This book makes available new approaches to the study of Iberian and Ibero American spaces and cultures with particular emphasis on Portuguese Galician Basque and Catalan identities produced in the aftermath of the Spanish Civil War and during dictatorship A considerable number of chapters discuss issues of memory reflecting the impact of the Historical Memory Law in Spain and its lively discussion in the public sphere Social mobilization and economic

dynamics also play an important role in this volume In addition transatlantic contacts with Portuguese and Spanish speaking countries are covered giving expression to the most recent trends in Iberian studies which is broadening its scope to exchanges and influences between the Iberian Peninsula and South America and Africa This volume will be of interest to students developing and established researchers and experts in Iberian studies *El "Gibraltar económico"* Antonio Gómez Mendoza,1994 *Economic Change and the National Question in Twentieth-Century Europe* Alice Teichova,Herbert Matis,Jaroslav Pátek,2000-11-30 The authors in this collection of essays address the largely neglected but significant economic aspects of the national question in its historical context during the course of the twentieth century There exists a large gap in our understanding of the historical relationship between the national question and economic change Above all there is insufficient knowledge about the economic dimension of the historical experience with regard to the former multi national states such as the Soviet Union Yugoslavia or Czechoslovakia and equally too little is known about the economic component of national tensions and conflicts in bilingual Belgium or Finland or the multilingual Spain or Switzerland At the same time as emphasis is placed on the complex relationships between the economy and society in individual European countries questions of state identity language religion and racism as instruments of economic furtherance are at the centre of the contributors attention *LOS FERROCARRILES EN LA PROVINCIA DE HUELVA* ROMERO MACÍAS, EMILIO,2016-05-06 Esta obra nos sumerge en esta apasionante parte de nuestra historia que nos hizo pasar casi de repente de una vida agr cola a una industrial y nos permiti atisbar los primeros pasos de la globalizaci n econ mica Fue este momento el gran impulsor de la revoluci n industrial en Huelva con la implantaci n de los sistemas de transporte por ferrocarril que con anterioridad se ven an realizando a lomos de caballer as *LOS ROTHSCHILD Y LA VENTA DE LAS MINAS DE RÍO TINTO EN EL PROCESO DE LA LEY GENERAL DE DESAMORTIZAIÓN DE MADDOZ* Manuel Flores Caballero,2017-01-17 Tiene el lector entre sus manos una obra sin ninguna duda llena de importantes y atrayentes an lisis e investigaciones sobre uno de los acontecimientos socioecon micos m s relevantes de la Espa a de la segunda mitad del siglo XIX Un siglo de por s el XIX clave para entender la Espa a del siglo XX y hasta los inicios del presente siglo XXI tanto en cuestiones sociales y pol ticas como en los siempre intrincados y complejos aspectos econ micos Se aborda con inteligencia y acierto la apasionante y larga relaci n de la Familia Rothschild con la venta de las minas de R o Tinto tras el proceso abierto con la aprobaci n de Ley General de Desamortizaci n de Madoz *The Reason Why: the Post Civil-war Agrarian Crisis in Spain* Thomas Christiansen,2012-05-07 This book analyses the influence of Francoist policy on agricultural output in the 1939-55 period The focus is on the wheat olive and wine sectors and special attention is given to small scale farmers Agrarian policy for wheat and olive oil included pricefixing production quotas and rationing of consumption Producers and consumers circumvented intervention by creating a black market When earnings from the black market are included value of output per unit of land remained close to pre war levels It is then concluded that the decrease in wheat output was caused by lack of draught

animals and fertilisers rather than state intervention Intervention in the wheat sector was therefore desirable from a social viewpoint but the system could have been improved significantly Average olive oil output only fell below the pre war level immediately after the war Consequently state intervention was unnecessary after 1942-43 and could have been abolished long before it was finally done in 1952 In the wine sector policy aimed at increasing farm prices rather than decreasing consumer prices Table wine consumption declined after the war but this was counteracted by higher demand for high alcohol white wine for the production of brandy and industrial alcohol Consequently the analysis shows that similar kinds of intervention led to quite different result in terms of production as demonstrated in the cases of wheat and olives On the other hand different types of intervention led to similar results in production for olives and vines

Crises and Transformation in the Mediterranean World Jordi Catalan Vidal, 2023-08-16 This edited collection presents an economic history of Catalonia and its economic crises from Roman times to the political difficulties of the present day It considers how the strong identity of the Catalan people has been reinforced in critical episodes such as the commercial revolution of the Late Medieval Age the 1640 rebellion the Succession War of 1705-1714 the industrial revolution of the eighteenth and nineteenth centuries and the strong repression during early Francoism The book also explores how historical parallels from Catalonia's past might shed light on the long term consequences of the Great Recession of 2007-9 and recovery in the EU showing how the typical Mediterranean approach of adjusting to crises by depreciating currencies and expanding public deficits has been less straightforward during the most recent financial crisis A particularly deep slump has contributed to fostering the claim for independence of Catalonia in recent times echoing larger dissatisfaction with EU monetary policy With a comprehensive overview of major events in Catalonian economic history and their broader implications to European political economy and development this book will be of interest to students and academics in economic history social history and monetary economics

Britain's Informal Empire in Spain, 1830-1950 Nick Sharman, 2021-09-25 Based on five years of archival research this book offers a radical reinterpretation of Britain and Spain's relationship during the growth apogee and decline of the British Empire It shows that from the early nineteenth century

Britain turned Spain into an informal colony using its economic and military dominance to achieve its strategic and economic ends Britain's free trade campaign which aimed to tear down the legal barriers to its explosive trade and investment expansion undermined Spain's attempts to achieve industrial take off demonstrating that the relationship between the two countries was imperial in nature and not simply one of unequal national power Exploring five key moments of crisis in their relations from the First Carlist War in the 1830s to the Second World War the author analyses Britain's use of military force in achieving its goals and the consequences that this had for economic and political policy making in Spain Ultimately the Anglo Spanish relationship was an early example of the interaction between industrial power and colonies formal and informal that characterised the post World War Two period An insightful read for anyone researching the British Empire and its colonies this book offers an innovative perspective by closely examining the volatile relationship between two European powers

The Biological Standard Of Living On Three Continents John Komlos, 2019-07-11 The effort of anthropometric historians to unearth the broad patterns of human biological well being has led to the examination of nearly forgotten centuries old records from dusty archives in practically all the continents of the globe French historians in the Annales tradition were among the first to adopt methods from physical anthropology and from the biological sciences but the real expansion of the field dates from the pathbreaking work of Richard Steckel and Robert Fogel which launched the discipline of anthropometric history on American soil Research has confirmed that physical stature is related to nutritional status and therefore to real family income and thus to the general standard of living Historians and development economists will find this line of research useful as it informs us about the standard of living of members of society for whom data on wages are seldom available women children aristocrats farmers and slaves In addition this research has shown that the biological standard of living may diverge from conventional indicators of welfare during the early stages of industrialization Thus per capita income is an ambiguous measure of welfare during some phases of growth and it must be supplemented with data from other indicators such as physical stature The essays in this volume broaden our knowledge of the human effects of the momentous economic changes of the last two centuries extending analysis to regions for which such information has
