The Power Struggles over the Post-neoliberal Social Security System Reforms in Venezuela and Ecuador Ezequiel Luis Bistoletti,2018-08-25 This book carries out a comparative analysis of the power struggles over the post neoliberal social security reforms in Venezuela and Ecuador The research breaks down why the social security system reform initiated by Hugo Ch vez government in Venezuela has come down since its passing in 2002 whereas the social security system reform initiated by Rafael Correa s government in Ecuador has come along in spite of the obstacles since 2007 All in all the analysis determined that the struggles over the social security system reforms in both countries remarkably corresponded to each other with regard to their structural conditions points of contention and contending actors In contrast the analysis established substantial divergences regarding the ways in which the struggles over both reforms came about due to the divergent development of the struggles for hegemony between government and opposition These divergences finally brought about the indefinite stagnation of the reform in Venezuela and the advancement of subsequent partial reforms aimed at the universalization of social security in Ecuador **AYÜEIMI** Florencia Arauco,2014-08-26 Ayuemi es un libro de poemas y cuentos inspirado en la cultura Mapuche recopilando su historia sentimientos y mostrando las riquezas y cualidades con las que ha cimentado la cultura chilena Se incorpora la producci n po tica y narrativa de estudiantes de secundaria quienes con su sensibilidad creatividad y empat a han nutrido art sticamente esta publicaci n Creado en un momento hist rico especial para el pueblo Mapuche en Chile deseamos que esta publicaci n sea un aporte a la comprensi n el respeto mutuo y la paz

Ram,2019-02-25 This book is named from heavens to earth written directly from my hands of course in the explanation from the beginning how my life has been unfolded and conducted under the hardness of my creator and the discovery at the end of time that Mother Earth is the producer of all that we can observe and that Celestial King is created under this sanctity and is set to govern all that it creates In this way Craon God continues to create and at the same time Mother Earth also produces This is that we cannot understand the psychology to which we are placed but we must understand that we must kneel down to God and to Mother Earth because even God kneels down himself Celestially there is this high force that cannot be destroyed but we must obey him as we are taught by our only begotten God and do not doubt that our forces will not decay in silence but in a force that is not invented I am declaring it today and with the presence of my paintings in this second book called Firmament12 I will explain that everything has been studied by me since the beginning of my life focusing my studies on everything I have been able to observe and posing from time to time to let them know my face It is something I can leave to be recognized in time and that my presence is legitimate today and that my offspring is also presented in this book descendant Maya Of course this is the race that God has chosen from the beginning I know you cannot understand but I leave you with this thinking with my stay here on Earth I am the son of man from the land of the Holy Spirit Of course humanity does not understand why they say that God acts in a mysterious way It is clear that Mother Earth is in charge of creating everything that pleases her and she gives them to the only begotten saint to govern it It s that in this form they homosexuals and lesbians are created under this divine order For that reason the Holy begotten King has had to provide a perfect plan so that all the creations are modified with a holy and celestial order which is his last covenant and he declares it in Jeremiah 31 33 34 With this perfect plan it is pleasing to our Mother Earth Note that the heart has no gender

Ciencia Pura: Roimán Valbuena,2023-10-09 Este libro Ciencia Pura Lingüística de Procedimientos y Razonamientos Científicos consiste en una segunda edición de la primera versión del 2017 Es una obra que cubre los temas de Filosofía de la Ciencia epistemología lingüística de la física teórica filosofía del espacio y el tiempo y aspectos varios acerca de temas científicos Incluye nuevos conceptos como los de Epistemocracia Algoritmica e Intuérinoia En esta obra se presenta el denominado M todo AGEGUI Acto Fenoménico Guiado por Intuición forma que tiene su autor para denominar a un todo que se circunscribe a la exploración de problemas científicos partiendo de la intuición El M todo AFEGUI se basa en la idea de que lo que llamamos todo científico no es más que la descripción de un acto fenoménico que al contacto con alguna realidad específica e inquietante a la mente de quien la percibe es guiado por dos tipos de intuiciones dos tipos de ciencia distintas Una fenoménica epistémica que se circunscribe a la parte sensible de aquel contacto a lo que es explicable Aquí actúa la abstracción eidética además de la noesis y los noemas El otro tipo de intuición alude y encumbra a lo ontológico a lo intuitivo A las características y particularidades del ser con el que se ha tenido contacto Este segundo tipo de intuición es no sensible por ende se ubica en el mundo posible de lo noumenal El todo de inicio a fin es guiado por lo que su autor denomina poiesis por fisicalismo Donde poiesis denota a la capacidad creativa de los agentes científicos Y lo que los agentes crean no son más que formas de resolver problemas Además de relaciones de primer y segundo grado incluso con altos niveles de abstracción que pueden dar como resultado un conjunto de ecuaciones aplicables al campo de la física y originadas a partir de un contacto fenoménico guiado por intuición del cual se extraen objetos mentales que le son propios predicados del mismo tipo TEORÍA DE LA ENERGÍA ORIGINAL Elier Eng,2012-05 NUEVA TEORÍA SOBRE EL ORIGEN DEL UNIVERSO Y DE

LA VIDA La teoría de la Energía Original afirma que bajo la guerra y conflictos de la Energía Original el universo se originó a partir del fondo La Fotogenésis del fondo es el origen del universo La biología del fondo es el origen de la vida Esto implica que el universo no derivó del infinitamente caliente denso fondo primordial a partir de la nada que no se formó posterior a los eventos de la Singularidad y de la gran explosión el Big Bang La masa dependiente fuerza gravitacional no es la fuerza primordial que rige el universo La Nada solamente puede crear Nada La suma de masa entre protónes neutrinos y electrones quizás constituya el 4% del volumen de un fondo el resto es energía La materia solo constituye el 4% del volumen de todo el universo el resto es ocupado por energía electromagnética haciendo que el universo sea homogéneo isotrópico y estable Por lo tanto la energía electromagnética es el constituyente primordial del universo Esto implica que las supuestas Materia Negra Energía Negra y la Constante Cómica son innecesarias para la integridad del universo Entre al fascinante origen del universo

Gnomos Orzo (Accorti Rinaldo), 2021-10-20 Y si el universo no pesara nada y la materia no existiera realmente Lo que parece ser una duda legítima para un erudito matemático de los Vedas Indios es en cambio un resultado embarazoso de la aplicación de la Relatividad Restringida a las observaciones obtenidas por un grupo de astrónomos que han medido la radiación cósmica de fondo de nuestro universo En los albores del nuevo milenio el satélite WMAP nos allí de proporcionarnos una medida del cosmos nunca antes obtenida ha creado bastantes quebraderos de cabeza respecto al concepto de universo en el que todavía hoy creemos obstinadamente Este libro a través de cien años de historia de fascinantes descubrimientos de la Física nos lleva hasta una nueva y asombrosa visión del cosmos Curiosamente idéntica a la de un matemático

¿Qué hace un bosón como tú en un big bang como éste? Javier Santaolalla, 2022-12-05 Un libro ameno y desenfadado que explica de manera clara conceptos tan abstractos como los campos cuánticos o el bosón de Higgs narrado con humor y precisión por el autor de El bosón de Higgs no te va a hacer la cama Si cuando sales de noche a un sitio despejado levantas la cabeza y sólo ves puntos de luz te estás perdiendo la mejor parte de estar vivo Yo veo partículas que surgen de una gran explosión hace miles de millones de años que chocan y se transforman mientras se van agrupando por gravedad Veo cómo se van creando cúmulos de materia en forma de nubes de gas que dan lugar a sistemas mayores llamados galaxias Pero también veo ese maravilloso viaje del ser humano para entender quiénes somos qué hacemos aquí acompañados de genios como Galileo o Einstein de grandes ideas como la relatividad o la mecánica cuántica de historias como el gato de Schrödinger el sombrero mexicano o la manzana de Newton Este libro es un viaje hacia las estrellas hacia el Big Bang pero por encima de todo hacia el interior de nosotros mismos Nos permite situar mejor el lugar que ocupamos en este mundo
