Rational Suicide in the Elderly Robert E. McCue,Meera Balasubramaniam,2016-10-27 This book provides a comprehensive view of rational suicide in the elderly a group that has nearly twice the rate of suicide when chronically ill than any other demographic Its frame of reference does not endorse a single point of view about the legitimacy of rational suicide which is evolving across societies with little guidance for geriatric mental health professionals Instead it serves as a resource for both those clinicians who agree that older people may rationally commit suicide and those who believe that this wish may require further assessment and treatment The first chapters of the book provides an overview of rational suicide in the elderly examining it through history and across cultures also addressing the special case of baby boomers This book takes an ethical and philosophical look at whether suicide can truly be rational and whether the nearness of death in late life adults means that suicide should be considered differently than in younger adults Clinical criteria for rational suicide in the elderly are proposed in this book for the first time as well as a guidelines for the psychosocial profile of an older adult who wants to commit rational suicide Unlike any other book this text examines the existential psychological

and psychodynamic perspectives A chapter on terminal mental illness and a consideration of suicide in that context and proposed interventions even without a diagnosable mental illness also plays a vital role in this book as these are key issues in within the question of suicide among the elderly This book is the first to consider all preventative measures including the spiritual as well as the psychotherapeutic and pharmacologic A commentary on modern society aging and rational suicide that ties all of these elements together making this the ultimate guide for addressing suicide among the elderly Rational Suicide in the Elderly is an excellent resource for all medical professionals with potentially suicidal patients including geriatricians geriatric and general psychiatrists geriatric nurses social workers and public health officials

Treatment of Suicidal Patients in Managed Care James M. Ellison, 2008-08-13 Suicide remains all too common in the United States As the ninth leading cause of death responsible for 30 000 deaths annually it is also one of the more preventable causes of death Increasingly mental health clinicians must care for suicidal patients within managed care systems Managed care's cost driven focus on rapid assessment and triage narrowly restrictive hospital admission criteria and abbreviated inpatient stays have resulted in poorer clinical care and increased opportunities both for adverse outcomes such as suicide and for clinician liability Bringing together a unique mix of clinicians authorities and administrators from private practice and managed care Treatment of Suicidal Patients in Managed Care offers practical guidance on how to improve care and reduce risk for suicidal patients Contributors explore a wide range of topics Hospitalization Emphasizes the increased importance of the initial assessment when managed care systems shorten or deny hospitalization for suicidal patients and of knowing whom to call within the managed care system Includes alternative programs from acute residential care to cognitive behavioral strategies and dialectical behavior therapy for the suicidal patient in crisis Suicide risk among adolescents and the elderly For adolescents emphasizes the value of multiple levels of care when admissions are too short and too often followed by distressing and costly readmissions For the elderly offers preventive interventions for primary care physicians who are uncomfortable discussing depression and suicidal ideation and intention with their elderly patients Suicide and substance abuse Details the role of case managers in providing continuity of care in a disorder known to be chronic and relapsing Pharmacotherapy of depression and suicidality Discusses the effects of managed care and raises questions about the expertise of the prescriber especially relevant now that more primary care physicians are treating patients with uncomplicated unipolar depression Risk management issues To counter the perception that managed care companies profit from withholding care emphasizes the crucial importance today of documenting the reasons for treatment decisions Helping those affected by the aftermath of a suicide A step by step process 1 anticipating a suicide 2 announcing or sharing the news of a suicide 3 assessing those affected by a suicide and 4 seeing what can be learned from reviewing the patient's treatment This clinical guide will aid understanding of clinical administrative and risk management issues relevant to the care of suicidal patients Psychiatrists psychologists nurse clinical specialists social workers administrators and primary care

physicians will also rely on it as they cope with the mounting pressures of managed care while maintaining the quality of their care for these vulnerable and patients Handbook of Emotional Disorders in Later Life Ken Laidlaw, Bob Knight, 2008 Although the perceptions and realities of ageing have changed markedly over the last few decades for practitioners working with older people emotional problems remain a major factor of health and happiness in later life This handbook provides a concise authoritative and up to date guide to best practice in therapy for older people for a wide range of mental health professionals The editors bring together chapters by experienced trainers and clinicians that cover all the significant problems and issues in the assessment and treatment of emotional disorders in later life The introductory chapters examine the individual social cultural and physical experience of ageing and provide an essential background for a caring and professional understanding of related emotional disorders and their effective treatment Throughout the book key research and clinical experience is reported as underlying evidence based treatment but the emphasis is on practical guidance for assessment and interventions rather than detailed discussion of methodological issues With each chapter written by a specialist in their field a range of expertise is provided in a single source making this book an invaluable resource for anyone dealing with the mental health needs of older people *Assessing And Treating Late-life Depression: A Casebook And Resource Guide* Michele J Karel, Suzanne Ogland-hand, Margaret Gatz, 2009-04-30 Not only is depression among the elderly treatable but given its increase in incidence and a rapidly aging population it is a critical issue for the mental health and medical communities The authors review the range of late life depressive syndromes and the strategies for assessing and treating them and illustrate the problems and principles with fourteen extended case studies rare in the geropsychology literature and the core of the book They also provide a guide to medications screening tools innovative models and supplementary resources invaluable tools for mental health professionals and medical practitioners alike The International Handbook of Suicide and Attempted Suicide Keith Hawton, Kees van Heeringen, 2000-11-21 Recent research in the area of suicidology has provided significant new insights in the epidemiological psychopathological and biological characteristics of suicidal behaviour The International Handbook of Suicide and Attempted Suicide is the first book to bring together this expertise and translate it into practical guidelines for those responsible for policy issues and for those involved in the treatment and prevention of suicidal behaviour Leading international authorities provide a truly comprehensive and research based reference to understanding treating and preventing suicidal behaviour They explore concepts and theories which best guide work within this field and detail key research which has supported conceptual developments preventive interventions and clinical treatment No self respecting worker in deliberate self harm and suicide prevention either clinical or research can afford to be without access to this comprehensive handbook possession and regular use may well become a marker of serious involvement in the subject This is the most comprehensive up to date informative and well written source of information on suicide and suicidal behaviour an invaluable work of reference which will be essential for clinicians and

researchers for many years to come Andrew Sims Emeritus Professor of Psychiatry St James s University Hospital Leeds UK
British Journal of Psychiatry Handbook of Social Work in Health and Aging Barbara Berkman,2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families The volume s 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up to date knowledge of evidence based practice guidelines for effectively assessing and treating older adults and their families new models for intervention in both community based practice and institutional care and knowledge of significant policy and research issues in health and aging A truly monumental resource this handbook represents the best research on health and aging available to social workers today

The International Handbook of Suicide Prevention Rory C. O'Connor,Jane Pirkis,2016-10-31 The International Handbook of Suicide Prevention 2nd Edition presents a series of readings that consider the individual and societal factors that lead to suicide it addresses ways these factors may be mitigated and presents the most up to date evidence for effective suicide prevention approaches An updated reference that shows why effective suicide prevention can only be achieved by understanding the many reasons why people choose to end their lives Gathers together contributions from more than 100 of the world s leading authorities on suicidal behavior many of them new to this edition Considers suicide from epidemiological psychological clinical sociological and neurobiological perspectives providing a holistic understanding of the subject Describes the most up to date evidence based research and practice from across the globe and explores its implications across countries cultures and the lifespan Handbook of Psychosocial Interventions with Older Adults Sherry M. Cummings,Nancy P. Kropf,2013-09-13 In the past decade evidence based practice EBP has emerged as one of the most important movements to improve the effectiveness of clinical care As the number of older adults continues to grow it is essential that practitioners have knowledge of effective strategies to improve both the medical and the psychosocial aspects of older persons lives The purpose of this work is to present systematic reviews of research based psychosocial interventions for older adults and their caregivers The interventions presented focus on a variety of critical issues facing older adults today including medical illnesses cardiac disease diabetes arthritis pain cancer and HIV AIDS mental health cognitive disorders depression anxiety dementia substance abuse and social functioning developmental disabilities end of life dementia caregivers grandparent caregivers For each of these areas the prevalence of the problem the demographics of those affected and the nature and consequences of the problem are discussed The empirical literature is then reviewed A treatment

summary highlights the type and nature of research supporting the interventions reviewed and is followed by a conclusion section that summarizes the status of intervention research for the specified issue A Treatment Resource Appendix for each area is included These appendices highlight manuals books articles and web resources that detail the treatment approaches and methodologies discussed This book was previously published as a special issue of the Journal of Gerontological Social Work

Clinical Manual of Geriatric Psychiatry James E. Spar, Asenath La Rue, 2007-04-02 Because limited training in geriatric psychiatry has tended to give insufficient attention to mental health care for the elderly clinicians often need help when assessing and treating problems specific to older clients Clinical Manual of Geriatric Psychiatry provides a single volume reference that covers the full range of such problems from depression to dementia It shows that psychiatrists working with older people must sometimes be willing to play a generalist's role combining routine medical management with psychiatric interventions or helping with social or situational problems Drs Spar and La Rue review the effects of aging on cognitive performance including clinical presentations of memory loss and medication induced symptoms of mental disorder They offer practical guidance to help the clinician not only diagnose and treat these conditions but also address such issues as evaluating competency for informed consent Enhanced by numerous charts and tables for easy reference the book boasts a broad range of coverage Guidelines to differential diagnosis of depression laboratory tests psychological tests and symptom rating scales along with insights on new directions in psychotherapy including intervention within primary care Assessment of both selective serotonin reuptake inhibitors and non SSRIs as first line agents for depression citing advantages and disadvantages of specific drugs plus advice

on switching or combining antidepressants Discussion of the effective use of electroconvulsive therapy particularly the use of brief pulse bilateral electrode placement as well as experimental therapies such as repetitive transcranial magnetic stimulation and vagal nerve stimulation Guidance in cognitive mental status examinations and brief screening tools for dementia and Alzheimer's disease focusing on the Mini Mental State Exam and summarizing advanced and experimental diagnostics such as single photon emission computed tomography and positron emission tomography Appraisal of psychosocial therapies for patients with Alzheimer's Disease such as behavior modification and reminiscence therapy plus use of cholinesterase inhibitors for treatment of cognitive deficits Review of approaches to anxiety disorders including differential diagnosis of phobias generalized anxiety disorder obsessive compulsive disorder and panic disorder with a focus on psychosocial behavior therapy and medications of choice With life expectancies increasing people over 85 already constitute one of the fastest growing demographics and the number of older people with mental disorders is rising as well Clinical Manual of Geriatric Psychiatry explains how working effectively with older adults requires a blending of specialized knowledge with a flexible approach to the patient and shows how to bring that about in daily practice **Practical**

Psychiatry in the Long-Term Care Home David K Conn, Nathan Herrmann, Alanna Kaye, Dmytro Rewilak, Barbara Schogt, 2007-05-01 This is a practical book aimed at providing training and guidance for staff members in long term care facilities The goal is to help staff understand and solve the wide range of psychiatric and behavioral problems which are encountered on a day to day basis Numerous clinical illustrations are presented This material is invaluable for all team members nurses physicians social workers psychologists and occupational therapists It is especially helpful for frontline health aids who work most closely with the residents and for supervisors and administrators As a result it also serves as a useful tool for teaching students The emphasis is on training all members of the staff to provide the highest quality of care in the most cost effective and productive manner The authors have worked together for many years at the Baycrest Centre for Geriatric Care a large university affiliated multilevel geriatric center which has an international reputation for its excellence in the care of the elderly Psychotherapy with Older Adults Bob G. Knight, 2004-02-20 This Third Edition of the bestselling Psychotherapy with Older Adults continues to offer students and professionals a thorough overview of psychotherapy with older adults Using the contextual cohort based maturity specific challenge CCMSC model it draws upon findings from scientific gerontology and life span developmental psychology to describe how psychotherapy needs to be adapted for work with older adults as well as when it is similar to therapeutic work with younger adults Sensitively linking both research and experience author Bob G Knight provides a practical account of the knowledge technique and skills necessary to work with older adults in a therapeutic relationship This volume considers the essentials of gerontology as well as the nature of therapy in depth focusing on special content areas and common themes Psychotherapy with Older Adults includes a comprehensive discussion of assessment and options for intervention Numerous case examples illustrate the dynamics of the therapeutic

task and issues covered in therapy and stress the human element in working with older adults A concluding chapter considers ethical questions and the future of psychotherapy with older adults The author has updated the Third Edition to reflect new research findings and has written two entirely new chapters covering psychotherapy with persons with dementia and psychotherapy with caregivers of frail older adults Since its initial publication in 1986 the book has been used as a course text and a professional reference around the world including translations into French Dutch Chinese and Japanese It is a vital resource for practicing therapists and counselors who work with older adults and is also ideally suited as a text for advanced students in psychology social work gerontology and nursing Praise for Previous Editions Bob G Knight s largest contribution is his excellent discussion of therapy The book is clearly written with a good use of summaries and case examples to clarify the major points By linking research findings to practice experience Knight has provided a pragmatic introduction which should be helpful to psychiatrists psychologists social workers and psychiatric nurses working with older adults JOURNAL OF APPLIED GERONTOLOGY I recommend this book to anyone interested in working with the elderly partly because of the content and partly because the author presents the case for doing psychotherapy with the elderly with realism and enthusiasm BEHAVIOR RESEARCH THERAPY
