Eleanor Farjeons Of Receipts:

The Making of Modern Children's Literature in Britain Lucy Pearson, 2016-03-03 Lucy Pearson's lively and engaging book examines British children's literature during the period widely regarded as a second golden age. Drawing extensively on archival material, Pearson investigates the practical and ideological factors that shaped ideas of good children's literature in Britain, with particular attention to children's book publishing. Pearson begins with a critical overview of the discourse surrounding children's literature during the 1960s and 1970s, summarizing the main critical debates in the context of the broader social conversation that took place around children and childhood. The contributions of publishing houses, large and small, to changing ideas about children's literature become apparent as Pearson explores the careers of two enormously influential children's editors: Kaye Webb of Puffin Books and Aidan Chambers of Topliner Macmillan. Brilliant as an innovator of highly successful marketing strategies, Webb played a key role in defining what were in her words the best in children's books, while Chambers' work as an editor and critic illustrates the pioneering nature of children's publishing during this period. Pearson shows that social investment was a central factor in the formation of this golden age and identifies its legacies in the modern publishing industry, both positive and negative.

The Role of Translators in Children's Literature Gillian Lathey, 2010-09-13 This book offers a historical analysis of key classical translated works for children, such as writings by Hans Christian Andersen and Grimm's tales. Translations dominate the earliest history of texts written for children in English, and stories translated from other languages have continued to shape its course to the present day. Lathey traces the role of the translator and the impact of translations on the history of English language children's literature from the ninth century onwards. Discussions of popular texts in each era reveal fluctuations in the reception of translated children's texts, as well as instances of cultural mediation by translators and editors. Abridgement, adaptation, and alteration by translators have often been viewed in a negative light, yet a closer examination of historical translators' prefaces reveals a far more varied picture than that of faceless conduits or wilful censors. From William Caxton's dedication of his translated *History of Jason* to young Prince Edward in 1477, to the intent he may begin to learn to read English, to Edgar Taylor's justification of the first translation into English of Grimm's tales as a means of promoting children's imaginations in an age of reason, translators have recorded in prefaces and other writings their didactic, religious, aesthetic, financial, and even political purposes for translating children's texts.

Compatriots Or Competitors? Hywel Dix, 2022-11-15 Rather than being limited to political or legal discussion like most books on Brexit, this book explores the relationship between cultural production and Brexit, both in the lead up to it and in its aftermath. It is the first major study to take a comparative approach to analysing the relationship between cultural production and Brexit in all 4 nations of the UK. This comparative approach is necessary to get a detailed picture of the complex dynamics at work across each. This book is highly interdisciplinary in nature, looking at the rise of the cultural industries, the relationship between the UK City of Culture festival and its fore-runner, the European Capital of
