## **Electoral Politics:**

Money and Electoral Politics Ron Johnston, Charles Pattie, 2014-05-27 Political parties are crucial to British democracy providing the foundations for mobilising voters. Their constituency branches are key links between voters and Parliamentary candidates and their activities require two vital resources: people and money. Much has been written on the decline of party membership but far less on money. In this much needed new book Ron Johnston and Charles Pattie use the latest research and hitherto unpublished material to explore financial differences across the UK's three main parties in the four years leading up to the 2010 General Election. They look at how much local parties raise for election campaigns and find that the more money candidates spend the better their performance. Analyses of their annual accounts however show that many local parties are unable to raise all of the money that they are entitled to spend on such campaigns. This reveals an unhealthy picture of grassroots party organisation in which the capacity to engage effectively with many voters is concentrated in a relatively small number of constituencies and is likely to remain so. This timely and essential book will make a major contribution to the literature on British elections and parties especially to continuing debates regarding party funding. It will make important reading for academics, students, politicians, civil servants and others interested in this topic. *Ethnicity and Electoral Politics* Jóhanna Kristín Birnir, 2006-12-25 This book asks what distinguishes peaceful plural democracies from violent ones and what distinguishes violent ethnic groups from peaceful ones within the same democracy. Contrary to conventional wisdom it suggests that ethnic groups and their political demands are not inherently intransigent and that violence is not a necessary corollary of ethnic politics. The book posits that ethnic identity serves as a stable but flexible information shortcut for political choices influencing party formation and development in new and maturing democracies. It furthermore argues that political intransigence and violence expressed by some ethnic groups stem from circumstances exogenous to ethnic affiliations. In particular, absolute restrictions on ethnic access to the executive produce conditions under which ethnic group incentive to participate in peaceful electoral politics is eliminated. A number of case studies and statistical analysis of all electoral democracies since 1945 are used to test and support the formal argument. **Electoral Politics in India** Suhas Palshikar, Sanjay Kumar, Sanjay Lodha, 2017-02-03 The general elections held in 2014 in India, the largest democracy in the world to elect the 16th Lok Sabha brought in dramatic results. This important volume explains not only the startling victory of the Bharatiya Janata Party (BJP) but also the equally surprising downfall of the Congress Party. It examines not why BJP won and the Congress lost but why the scale of BJP's victory and that of Congress's defeat was so very different from the results in the years 2004 and 2009. The volume presents an in-depth analysis of the electoral results state wise, studies the factors leading up to these outcomes and the road India has travelled since then. With contributions from India's leading political scientists, psephologists, sociologists and political commentators, this book will be of great interest to scholars and researchers of Indian politics, democracy and political parties as well as South Asian studies. Multi-level Electoral

Politics Sona Nadenichek Golder, Ignacio Lago, André Blais, Elisabeth Gidengil, Thomas Gschwend, 2017 This volume re examines how the incentives created by specific electoral institutions affect the behaviour of voters and party elites It provides the first systematic analysis of multi level politics at three distinct levels regional national and European Parliament elections

**Immigrants and Electoral Politics** Heath Brown, 2016-08-31 In Immigrants and Electoral Politics Heath Brown shows why nonprofit electoral participation has emerged in relationship to new threats to immigrants on one hand and immigrant integration into U S society during a time of demographic change on the other Immigrants across the United States tend to register and vote at low rates thereby limiting the political power of many of their communities In an attempt to boost electoral participation through mobilization some nonprofits adopt multifaceted political strategies including registering new voters holding candidate forums and phone banking to increase immigrant voter turnout Other nonprofits opt to barely participate at all in electoral politics preferring to advance the immigrant community by providing exclusively social services Brown interviewed dozens of nonprofit leaders and surveyed hundreds of organizations To capture the breadth of the immigrant experience Brown selected organizations operating in traditional centers of immigration as well as new gateways for immigrants across the South Florida Illinois Michigan New Jersey New York and North Carolina The stories that emerge from his research include incredible successes in mobilizing immigrant communities including organizations that registered sixty thousand new immigrant voters in New York They also reveal efforts to suppress nonprofit voter mobilization in Florida and describe the organizational response to hate crimes directed at immigrants in Illinois

German electoral politics Geoffrey Roberts, 2013-07-19 The study of German electoral politics has been neglected of late despite being one of the most pervasive elements of the German political process Geoffrey Roberts exciting new book argues that concentration on electoral politics facilitates deeper understanding and appreciation of German political system It provides explanations

**Electoral Politics in Cambodia** Aurel Croissant, 2016-10-31 After more than two decades of post conflict reconstruction Cambodia s political system remains in flux Democracy is not yet firmly consolidated and the country s politics is trapped in untamed confrontation and the transformation of enemies into adversaries has yet to occur Yet perhaps the most disturbing phenomenon with regard to elections is the notable rejection of democratic norms span SPAN background color inherit text decoration inherit white space pre wrap This monograph studies the various aspects of electoral politics in Cambodia and ends with strong suggestions for reforms that can strengthen the practice of elections and aid social and political development in a country trying to transit from civil war to post conflict reconstruction from socialist one party state to multiparty electoral system and from planned economy to market economy This monograph is based on a conference paper presented at the 14th KAS Law Talk on Fairness and Integrity of the Electoral Process in Cambodia organized by Konrad Adenauer Stiftung s Cambodia Office on 17 18 June 2016

**Electoral Politics in Sri Lanka** S. Keethaponcalan, 2022-07-21 This volume examines and analyses electoral politics in Sri Lanka through the theoretical

framework of manipulation The following questions guided the study how do political actors manipulate elections and what are the salient features of electoral politics in Sri Lanka Primary and secondary data formed the basis of the analysis examining eight presidential elections The research findings indicated that Sri Lankan governments political parties and political leaders have taken advantage of six types of electoral manipulation including constitutional tinkering field fixing time fixing vote suppression process manipulation and resource manipulation Through a close examination of eight presidential elections research carried out for the volume found that elections are often associated with violence presidential elections are mainly a majoritarian affair in which minority communities play only a marginal role there is a significant gender imbalance as women s participation in the electoral process is very limited despite the presence of a large number of candidates contesting the election it always remains a two way race and amid extensive manipulation and other problems voter participation tends to be high This volume will be a valuable resource for students academics and researchers who focus on democracy good governance electoral studies and South Asian politics and history and will enhance the conceptual foundation of democracy advocates and activists

*Black Electoral Politics* Lucius J. Barker, 2017-09-29 The official publication of the National Conference of Black Political Scientists NCOBPS this annual publication includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use a variety of models approaches and methodologies The central focus is on politics and policies that advantage or disadvantage groups because of race ethnicity sex or other factors The research is performed in a variety of contexts and settings This second volume is dedicated to the twentieth anniversary of the founding of the NCOBPS and is commemorated in a special introductory section that includes major feature articles a special symposium and a book review section Lucius J Barker is Edna F Gellhorn Professor of Public Affairs and Political Science at Washington University St Louis and author of a number of books and articles on American judicial politics and public law and African American politics

*Financial Crisis, Austerity, and Electoral Politics* Pedro Magalhães, 2017-10-02 This book examines the domestic electoral consequences of the economic and financial crisis in Europe particularly in those countries where the crisis manifested itself more devastatingly the Southern European countries of Greece Italy Portugal and Spain as well as Iceland and Ireland On the surface the electoral consequences of the crisis seem largely similar having resulted in these countries in large electoral losses for incumbents as the most elementary versions of economic voting theory would have us expect However behind this fundamental similarity important differences emerge Whilst in some cases on the basis of post election surveys it is possible to see that the crisis elections followed a previous pattern of performance oriented voters with no major changes either in known predictors of electoral choices or in basic party system properties other elections brought the emergence of new parties new issues and cleavages altering patterns of political competition By examining these different outcomes by comparing the crisis elections with previous ones this book takes into account their timing relative to different stages of crisis It also scrutinises party

strategies and campaign dynamics particularly as governments attempted and sometimes succeeded in framing events and proposals so as to apportion responsibility for economic outcomes This book was originally published as a special issue of the Journal of Elections Public Opinion and Parties Power Transfer and Electoral Politics Hsin-chi Kuan,1999 This book provides an in depth analysis of the election of the Hong Kong Legislative Council in May 1998 which was the first general election in Hong Kong since the change of sovereignty to China in 1997 The election was conducted in the wake of the government s mismanagement of health policy and other aspects of public concern and amid widespread hardships inflicted by the Asian financial crisis Nevertheless the election still had the highest turnout rate in Hong Kong s entire history The elected legislature replaced the Provisional Legislative Council which was a product of the Sino British conflict before the change over However as a result of institutional design and electoral outcome this duly elected Legislative Council has been fragmented and weak in its legislative and supervisory powers and therefore there are long term implications for the governance of Hong Kong in general and for the executive legislative relations in particular Contributors to this volume are renowned scholars in Hong Kong studies The various aspects of the 1998 legislative election are critically examined to ascertain their exact meanings and to clarify doubts Questions such as the following are properly addressed Did the transfer of sovereignty have any impact on the systems of election representation and authority What was the impact of institutional change on the conduct of electoral campaigns Did the end of colonialism and the advent of one country two systems help to activate Hong Kong voters who were once dubbed attentive spectators Did the China factor which had been influential in the 1991 and 1995 elections give way to other electoral divisions Did the mass media properly perform their roles during the election Does the emergence of class and economic issues during the election signify a new era of political normalization Will the now legitimately constituted Legislative Council have political clout What is in store for the future Electoral Politics in Zimbabwe, Vol II Esther Mavengano,Sophia Chirongoma,2023-08-08 Volume two of Electoral Politics in Zimbabwe The 2023 Election and Beyond argues that research into Zimbabwe s politics is multifaceted and topical particularly because for more than two decades now this Southern African state has been dogged by multiple problems including hyperinflation drought escalating poverty levels extremely high unemployment rates and political instabilities The volume s overall goal is to ignite intellectual discussions and practical action towards turning the political wheels that have been in place for decades The first segment examines the interface between gender and electoral politics in Zimbabwe The second part discusses the role of the media in Zimbabwe s electoral politics The third section reflects on the role of traditional leaders and religious discourses in Zimbabwe s electoral politics The book will be a key resource to colleges universities and organisations in Zimbabwe the Southern Africa region and even beyond Issues in Ghana's Electoral Politics Ninsin, Kwame A.,2017-05-05 Ghana attained independence in 1957 From 1992 when a new constitution came into force and established a new democratic framework for governing the country elections have been organized every four years to choose the governing elites The

essays in this volume are about those elections because elections give meaning to the role of citizens in democratic governance. The chapters depart from the study of formal structures by which the electorate choose their representatives. They evaluate the institutional forms that representation take in the Ghanaian context and study elections outside the specific institutional forms that according to democratic theory are necessary for arriving at the nature of the relationships that are formed between the voters and their representatives and the nature and quality of their contribution to the democratic process.

Electoral Politics of Grassroots Democracy M.R. Biju, M.R.B. Anantha Padmanabha, 2021-01-01. On the Gandhi Jayanti Day of 2020 the state of Kerala has completed two and a half decades of participatory planning and decentralized governance. During its long and fruitful journey the new generation Panchayati Raj Institutions and other self governing institutions had travelled a long way with its remarkable achievements in participatory planning and governance process which had evoked genuine interest from the theoreticians and practitioners of decentralization. When the 25th anniversary was approaching the authors felt that it would be a pleasant experience to highlight the strategies, strength and weaknesses of people's participation in the decentralization process and to draw lessons for the future. Certainly, quarter a century is an enough period to assess the achievements, to evaluate the lost opportunities as well as the challenges ahead. Keeping this in background, an attempt has been made in this handy volume to present a detailed picture of the electoral history of grassroots democracy in Kerala from 1953 to 2015.

Taiwan's Electoral Politics and Democratic Transition: Riding the Third Wave Hung-Mao Tien, 2016-09-16. An examination of the evolution of the democratic two party system in Taiwan. This work explores the growth of Taiwan's competitive party system in the context of social attitudes, issue based politics and local factions.

*Race And British Electoral Politics* Shamit Sagar, 2004-01-14. This text examines key themes pertaining to the study of race and electoral politics. Addressing an issue which is of immense topical interest, it offers comprehensive coverage of key topics. Providing both an historical and theoretical analysis of race and ethnicity in politics, the contributors examine the participation and influence of ethnic minorities in electoral politics at both ends of the political spectrum. *Race and British Electoral Politics* should be of value for students studying British politics, particularly those taking course options on electoral politics, race, ethnicity and comparative politics.

*Electoral Politics in Africa since 1990* Jaimie Bleck, Nicolas van de Walle, 2019. First comprehensive analysis of electoral politics in Sub Saharan Africa since the democratic transitions of the early 1990s.

Electoral Politics in Zimbabwe, Volume I Esther Mavengano, Sophia Chirongoma, 2023-04-28. Volume one of *Electoral Politics in Zimbabwe* pays special attention to the overarching view that the 2023 harmonized elections define the fate of the major presidential contenders and their parties as well as re-shaping the political and economic trajectories of the nation. Cognizant of the complex nature of the Zimbabwean political realm and nuanced dynamics at play, the chapters in this volume cover three interrelated themes: the electoral environment in Zimbabwean politics, language politics and elections in Zimbabwe, and lastly, electoral institutions and human rights in

Zimbabwean politics The chapters foreground the ongoing tensions and politicking between the two main rivals the ruling party ZANU PF and the main opposition party the Citizens Coalition for Change CCC The contributors also highlight the impact of internal tensions and factionalism within the contending parties the apparent voter apathy disconcerting voices due to claims about lack of transparency and a toxic political space as factors impacting on the outcome of the 2023 presidential elections The volume will appeal to academics and practitioners in politics human rights religion gender media languages linguistics and development studies

**Democracy and Electoral Politics in Zambia**, 2020-06-02 Democracy and Electoral Politics in Zambia aims to comprehend the current dynamics of Zambia's democracy and to understand what was specific about the 2015/2016 election experience While elections have been central to understanding Zambian politics over the last decade the coverage they have received in the academic literature has been sparse This book aims to fill that gap and give a more holistic account of contemporary Zambian electoral dynamics by providing innovative analysis of political parties mobilization methods the constitutional framework the motivations behind voters' choices and the adjudication of electoral disputes by the judiciary This book draws on insights and interviews public opinion data and innovative surveys that aim to tell a rich and nuanced story about Zambia's recent electoral history from a variety of disciplinary approaches

Electoral Politics in the Middle East Jacob M. Landau, Ergun Özbudun, Frank Tachau, 2015-07-24 Comparative political study of the Middle East got off to a late start Unlike any previous studies in comparative politics this book first published in 1980 represents an important methodological advance in that it proceeds by themes rather than by countries and uniquely focuses on three major aspects of electoral politics in three contemporary Middle Eastern states The three countries Turkey Lebanon and Israel are chosen because they are the only Middle Eastern countries with a tradition of free elections On the other hand they also display certain characteristics found in other non-competitive Middle Eastern political systems such as the role and prominence of religion The study is based on extensive original research and presents the first comparative treatment of electoral issues voting behaviour and parliamentary elites emphasising the context of rapid socio-economic change a theme particularly pertinent to those countries with their tradition of free elections The variety of political behaviour within the countries concerned coupled with the prevailing complexities resulting from disparities in language and cultural inheritance makes the comparative approach particularly revealing The attitudes and behaviour of the voters can be seen to be at least as important as the laws and mechanisms involved

If you ally dependence such a referred **Electoral Politics** book that will give you worth, get the unconditionally best seller from us currently from several preferred authors.
