Electoral Democracy:

The Global Divergence of Democracies Larry Diamond, Marc F. Plattner, 2001-09-19 With contributions by more than thirty of the world's leading scholars of democracy this volume presents the most comprehensive assessment available of the state of democracy in the world at the beginning of the new millennium China's Chance to Lead Richard W.

Carney, 2023-11-16 How is China acquiring global influence Rather than focusing exclusively on China's interests this book considers a vital but overlooked feature the interests of recipient countries Richard W Carney argues that countries in which political leaders rely more heavily on clientelism coupled with greater control over the corporate sector have a higher demand for Chinese infrastructure spending Through a combination of statistical analyses and case studies Carney shows that electoral autocracies in contrast to closed autocracies electoral democracies and liberal democracies display these features most prominently and are the most avid recipients This in turn contributes to elevated levels of Chinese digital technologies imports which facilitates the spread of Chinese technical standards enabling China to create the scale to assert its dominance over the emerging digital economy Electoral autocracies are the most prevalent type of regime and are therefore essential partners to China's global ambitions Electoral Systems and Democracy Larry Diamond, Marc F. Plattner, 2006-09 As the number of democracies has increased around the world a heated debate has emerged among political scientists about which system best promotes the consolidation of democracy This book compares the experiences of diverse countries from Latin America to southern Africa from Uruguay Japan and Taiwan to Israel Afghanistan and Iraq

Rethinking American Electoral Democracy Matthew J. Streb, 2008-02-19 Is the cure for the ills of democracy more democracy Is it possible to have too much democracy in a well functioning government What should a model electoral democracy look like In this critical examination of the state of American electoral process Matthew Streb analyzes the major debates that embroil scholars and reformers on subjects ranging from the number of elections we hold and the use of nonpartisan elections to the presidential nominating process and campaign finance laws Ultimately Streb makes an argument for a less burdensome democracy a democracy in which citizens can participate more easily This book is designed to get students of elections and American political institutions to think critically about what it means to be democratic and how democratic the United States really is Part of the Controversies in Electoral Democracy and Representation series edited by Matthew J Streb Matthew J Streb is Assistant Professor of Political Science at Northern Illinois University He is the author The New Electoral Politics of Race and the editor or co editor of five other books including Running for Judge

Developing Democracy Larry Diamond, 1999-05-07 The book concludes with a hopeful view of the prospects for a fourth wave of global democratization **Electoral Democracy and Management of Election** Dr. Babudhan Tripura, 2023-11-27 This book Electoral Democracy and Management of Elections delves into the multifaceted aspects of electoral processes aiming to provide readers with a comprehensive understanding of the theoretical perspectives and practical intricacies

involved in conducting free fair and efficient elections The chapters within this book delve into various dimensions of electoral democracy and election management exploring the historical development theoretical underpinnings and contemporary challenges faced in the pursuit of democratic ideals In the world where the pulse of democracy beats to the rhythm of informed choices this chapter explores the pivotal role of voter education in enhancing citizen participation It navigates the labyrinthine pathways that lead to effective voter education programs unravelling strategies that illuminate the path for both citizens and policymakers The journey doesn't end there the chapter dauntlessly confronts barriers that impede voter participation dissecting each obstacle and charting ways to surmount them **Electoral Democracy** Michael

MacKuen, George Rabinowitz, 2003 Top scholars in the field survey the study of elections and democracy **The World We Want : How and Why the Ideals of the Enlightenment Still Elude Us** Robert B. Loudon Professor of Philosophy University of Southern Maine, 2007-09-21 The World We Want compares the future world that Enlightenment intellectuals had hoped for with our own world at present In what respects do the two worlds differ and why are they so different To what extent is and isn't our world the world they wanted and to what extent do we today still want their world Unlike previous philosophical critiques and defenses of the Enlightenment the present study focuses extensively on the relevant historical and empirical record first by examining carefully what kind of future Enlightenment intellectuals actually hoped for second by tracking the different legacies of their central ideals over the past two centuries But in addition to documenting the significant gap that still exists between Enlightenment ideals and current realities the author also attempts to show why the ideals of the Enlightenment still elude us What does our own experience tell us about the appropriateness of these ideals Which Enlightenment ideals do not fit with human nature Why is meaningful support for these ideals particularly within the US so weak at present Which of the means that Enlightenment intellectuals advocated for realizing their ideals are inefficacious Which of their ideals have devolved into distorted versions of themselves when attempts have been made to realize them How and why after more than two centuries have we still failed to realize the most significant Enlightenment ideals In short what is dead and what is living in these ideals **Democrats and Autocrats** Agustina Giraudy, 2015 The

book advances a new explanation to account for the continuity of undemocratic subnational regimes SURs in democratic countries **Democratization** Christian W. Haerpfer, Patrick Bernhagen, Christian Welzel, Ronald Inglehart, 2019
