United States. Bureau of International Commerce, 1974 **Modern Electrics** ,1911 The Perversity of Things Hugo Gernsback, 2016-11-21 In 1905 a young Jewish immigrant from Luxembourg founded an electrical supply shop in New York This inventor writer and publisher Hugo Gernsback would later become famous for launching the first science fiction magazine *Amazing Stories* in 1926 But while science fiction s annual Hugo Awards were named in his honor there has been surprisingly little understanding of how the genre began among a community of tinkerers all drawn to Gernsback s vision of comprehending the future of media through making In *The Perversity of Things* Grant Wythoff makes available texts by Hugo Gernsback that were foundational both for science fiction and the emergence of media studies Wythoff argues that

Gernsback developed a means of describing and assessing the cultural impact of emerging media long before media studies became an academic discipline. From editorials and blueprints to media histories, critical essays, and short fiction, Wythoff has collected a wide range of Gernsback's writings that have been out of print since their magazine debut in the early 1900s. These articles cover such topics as television, the regulation of wireless radio, war and technology, speculative futures, media archaeological curiosities like the dynamophone and hypnobioscope, and more. All together, this collection shows how Gernsback's publications evolved from an electrical parts catalog to a full-fledged literary genre. *The Perversity of Things* aims to reverse the widespread misunderstanding of Gernsback within the history of science fiction criticism. Through painstaking research and extensive annotations and commentary, Wythoff reintroduces us to Gernsback and the origins of science fiction.
