Architecture, Technology and Process Chris Abel, 2007-03-30 This new selection of essays follows Chris Abel's previous best selling collection *Architecture and Identity* Drawing upon a wide range of knowledge and disciplines the author argues that underlying technological changes in the process of architectural production are fundamental changes in the way we think about machines and the world we live in Key topics include new patterns of urbanism in the fast growing cities of Asia Pacific metaphorical extensions of mind and body in cyberspace the divergent European and North American values shaping Sir Norman Foster's and Frank Gehry's work and the collaborative work methods and technologies creating the adaptable design practices of today

On the Good Ship Lollipop Horst Bredekamp, James S. Ackerman, Irving Lavin, 2019-03-04 The Fondation Louis Vuitton by Frank O Gehry rises from the Bois de Boulogne as a new landmark in the Parisian skyline Gehry's dynamic architecture is both glittering and multifaceted is it a sailing vessel an iceberg or a sea monster It fascinates with its wealth of references and at the same time escapes any clear cut definition Three outstanding representatives of different generations of art history James S Ackerman Irving Lavin and Horst Bredekamp have together paid a visit to the Fondation Louis Vuitton They explore the building in three richly illustrated essays that try to fathom the floating architecture of the magician Gehry in the context of both art and architectural history

Arquitectura biodigital Marcelo Fraile, 2021-06-17 La rápida e intensiva evolución que han experimentado las tecnologías biológicas y digitales a finales del siglo XX han producido importantes transformaciones en nuestros hábitos cotidianos y laborales En el campo específico de la arquitectura se iniciaba con esto un universo de nuevos planteos que desafían las concepciones tradicionales del diseño dando lugar a una arquitectura con una expresión espacial germinal fluida en continuo proceso de cambio y de transformación hasta su concreta final Una arquitectura de modelos digitales producidas a través de una amplia gama de herramientas tecnológicas modelos paramétricos algoritmos genéticos tecnologías CAD CAM que permiten optimizar los recursos de un modo lógico más allá de la construcción gráfica o del discurso exclusivamente conceptual Revelando el peso de lo biológico y de lo digital en la práctica del arquitecto contemporáneo En este ámbito la presente investigación parte de la hipótesis de que un nuevo paradigma está surgiendo en el

modo de concebir la arquitectura Dentro de la situación contemporánea donde los límites disciplinares parecieran ser difusos algunos afirman que la arquitectura biodigital es la nueva vanguardia otros que es una moda formalista pasajera que en muy poco tiempo ser olvidada Hasta qué punto constituye dicho marco un nuevo paradigma es aún un tema sometido a debate

Revolución científica o anomalía Esta dicotomía presenta un campo abierto que ser objeto de esta investigación cuyos límites y consecuencias son impredecibles

Contemporary Architecture and the Digital Design Process Peter Szalapaj, 2014-04-23

Contemporary Architecture and the Digital Design Process introduces the reader to new developments in the computer modelling of design form in contemporary architectural practice through a series of detailed case studies The book illustrates how evolving design practices use and exploit the potential of new computing technologies in a wide range of areas and application A central thesis of this book is that technology follows design demand rather than design adjusting to available new technology Designers are not merely passive recipients of prescribed computing tools and techniques Instead they are increasingly able to express their intuitive design ideas through the rational medium of computing The book features several contemporary building projects each of which introduces a range of CAD and computing issues based upon the work of creative architectural and engineering design practices These include the offices of Frank O Gehry Peter Cook and Colin Fournier Anthony Hunt Associates Peter Hubner Szyskowitz Kowalski and Faulkner Brown All these examples show what architects need to know and the skills they need to acquire to use advanced CAD technology

ARQUITECTURA RELIGIOSA DEL SIGLO XXI EN ESPAÑA ESTEBAN FERNÁNDEZ-COBIÁN, 2022-09-23 Este libro presenta veinticuatro espacios para el culto realizados en España durante los primeros años del siglo XXI Durante las dos últimas décadas la arquitectura religiosa contemporánea ha gozado de una particular atención en nuestro país El foco se centra principalmente en los años cincuenta y sesenta del siglo XX cuando las iglesias se situaron por primera vez propios en el primer plano del debate Sin embargo el periodo que siguió al Concilio Vaticano II 1962-65 todavía no ha sido estudiado en su conjunto Entre las obras seleccionadas para este volumen se encuentran veintidós iglesias católicas una iglesia evangélica y otra levemente interconfesional Es difícil saber si estos edificios son realmente significativos de la reciente arquitectura religiosa española en cualquier caso su selección responde a una elección personal del autor cuyo criterio se ha apoyado exclusivamente en valores arquitectónicos Y aunque no se hayan incluido mezquitas sinagogas o templos de religiones orientales podemos pensar que este conjunto de iglesias nos dice algo acerca de la situación actual de las religiones en España La arquitectura religiosa permite tomar el pulso de la sociedad en general ya que condensa en sí misma una serie de valores que la hacen especialmente sensible para captar las sinergias de cualquier tejido social Y esto por varios motivos por su escala singular porque apenas tiene programa y porque para mantenerla a lo largo del tiempo es necesaria la confluencia de muchas voluntades porque trabaja con grandes vacíos porque para formalizarla se requieren recursos constructivos no habituales y porque en ella la luz es el tema porque comunica y porque en definitiva aspira a ser sagrada Ahora bien Cabe hablar de
