

## A Precious Resource

The bison population in Texas has grown from about 10,000 in 1980 to over 100,000 today. This growth is due to the success of the Texas Parks and Wildlife Department's bison management program.

**O**ne of the most important factors in the success of the bison management program is the cooperation of the landowners. The Texas Parks and Wildlife Department works closely with landowners to ensure that bison are managed in a way that is beneficial to both the bison and the landowners.

In the past, bison were often considered a pest by landowners. However, in recent years, bison have been recognized as a valuable resource. Bison are a source of food, clothing, and shelter for many Native American tribes. They are also a source of income for many ranchers.
