**Teatrofonia Vol. 2 - normas, estilos y rupturas** Mirko Mescia, 2023-02-01 Si te gusta la música pero no entiendes de sonido si pides silencio pero algo siempre sigue sonando y si aún no sabes por qué la pregunta ¿Qué música pongo está muy pero muy mal formulada entonces este libro es para ti No apto vanguardista pionieristas o como estas quieras llamarlos APTO Gente de teatro y artes escénicas Muy rápidamente te cuento algunas cosas que aprenderás en este libro En Teatrofonia Vol 1 lo sonoro como arte y diseño me ocupe del presente de la percepción sonora y en particular de aquella aplicada a las artes escénicas lo que llamamos música de teatro o algo por el estilo En este segundo volumen Teatrofonia Vol 2 normas estilos y rupturas me metí con el pasado Haciéndolo me sentí como una especie de extraño y torpe arqueólogo que armado de preguntas y terquedad descubrió que una de las formas más convenientes para aprender a escuchar de verdad y en profundidad es re aprender a mirar Y fue así que descubrí que la historia de las artes visuales cobija en sí un gran secreto relacionado al arte de organizar los sonidos en escena Mirko Mescia Desde el prólogo de Ricardo Talento En este tomo hay una intencionalidad en la escritura de Mirko Mescia que no es simplemente informarnos sobre el rol de la música de teatro en el pasado El pasado sobre todo en occidente nos interpela en el presente de tal manera y perdonen la metafora que nos hace sangrar las neuronas desde las primeras líneas a todos los teatreros Leerlo es atrapante y a su vez angustiante Por que Se estará preguntando por lo que hemos perdido por lo que fuimos abandonando en el camino y por el mar de incertidumbres en la que nos seguimos moviendo con respecto al rol de la música en el teatro Que le ha pasado y le sigue pasando a esta ceremonia humana que llamamos teatro que sentimos que necesitamos de la música pero no sabemos para que y en dónde ponerla Por que en el mejor de los casos es la frutilla de la torta y no una parte esencial de la dramaturgia

Silverman,Ricardo Vasconcelos,2017-04-24 Futurism Studies in its canonical form has followed in the steps of Marinetti s concept of Futurisme mondial according to which Futurism had its centre in Italy and a large number of satellites around Europe and the rest of the globe Consequently authors of textbook histories of Futurism focus their attention on Italy add a chapter or two on Russia and dedicate next to no attention to developments in other parts of the world Futurism Studies tends to sees in Marinetti s movement the font and mother of all subsequent avant gardes and deprecates the non European variants as mere derivatives Vol 7 of the International Yearbook of Futurism Studies will focus on one of these regions outside Europe and demonstrate that the heuristic model of centre periphery is faulty and misleading as it ignores the originality and inventiveness of art and literature in Latin America Futurist tendencies in both Spanish and Portuguese speaking countries may have been in part influenced by Italian Futurism but they certainly did no derive from it The shift towards modernity took place in Latin America more or less in parallel to the economic progress made in the

underdeveloped countries of Europe Italy and Russia have often been described as having originated Futurism because of their backwardness compared to the industrial powerhouses England Germany and France According to this narrative Spain and Portugal occupied a position of semi periphery They had channelled dominant cultural discourses from the centre nations into the colonies However with the rise of modernity and the emergence of independence movements cultural discourses in the colonies undertook a major shift The revolt of the European avant garde against academic art found much sympathy amongst Latin American artists as they were engaged in a similar battle against the canonical discourses of colonial rule One can therefore detect many parallels between the European and Latin American avant garde movements This includes the varieties of Futurism to which Yearbook 2017 will be dedicated In Europe the avant garde had a complex relationship to tradition especially its primitivist varieties In Latin America the avant garde also sought to uncover and incorporate alternative i e indigenous traditions The result was a hybrid form of art and literature that showed many parallels to the European avant garde but also had other sources of inspiration Given the large variety of indigenous cultures on the American continent it was only natural that many heterogeneous mixtures of Futurism emerged there Yearbook 2017 explores this plurality of Futurisms and the cultural traditions that influenced them Contributions focus on the intertextual character of Latin American Futurisms interpret works of literature and fine arts within their local setting consider modes of production and consumption within each culture as well as the forms of interaction with other Latin American and European centres 14 essays locate Futurism within the complex network of cultural exchange unravel the Futurist contribution to the complex interrelations between local and the global cultures in Latin America and reveal the dynamic dialogue as well as the multiple forms of cross fertilization that existed amongst them
