Russomania Rebecca Beasley, 2020-03-31 Russomania Russian Culture and the Creation of British Modernism provides a new account of modernist literature s emergence in Britain British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but

between French English and Russian models Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers editors and politicians who made up the early twentieth century intellectual class the British intelligentsia Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period the relation between language and action writer and audience and the work of art and lived experience The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived romanticism of the 1930s and 1940s future

Karl Marx Francis Wheen, 1999 A major biography of the man who more than any other made the twentieth century Written by an author of great repute The history of the 20th century is Marx s legacy Not since Jesus Christ has an obscure pauper inspired such global devotion or been so calamitously misinterpreted The end of the century is a good moment to strip away the mythology and try to rediscover Marx the man There have been many thousands of books on Marxism but almost all are written by academics and zealots for whom it is a near blasphemy to treat him as a figure of flesh and blood In the past few years there have been excellent and successful biographies of many eminent Victorians and yet the most influential of them has remained untouched In this book Francis Wheen for the first time presens Marx the man in all his brilliance and frailty as a poverty stricken Prussian emigre who became a middle class English gentleman as an angry agitator who spent much of his adult life in scholarly silence in the British Museum Reading Room as a gregarious and convivial host who fell out with almost all his friends as a devoted family man who impregnated his housemaid as a deeply earnest philosopher

Lyric and Labour in the Romantic Tradition Anne F. Janowitz, 1998-08-06 Lyric and Labour in the Romantic Tradition first published in 1998 examines the legacy of Romantic poetics in the poetry produced in political movements during the nineteenth century It argues that a communitarian tradition of poetry extending from the 1790s to the 1890s learned from and incorporated elements of Romantic lyricism and produced an ongoing and self conscious tradition of radical poetics Showing how romantic lyricism arose as an engagement between the forces of reason and custom Anne Janowitz examines the ways in which this Romantic dialectic infected the writings of political poets from Thomas Spence to William Morris The book includes new readings of familiar Romantic poets including Wordsworth and Shelley and investigates the range of poetic genres in the 1790s In the case studies which follow it examines relatively unknown Chartist and Republican poets such as Ernest Jones and W J Linton showing their affiliation to the Romantic tradition and making the case for the persistence of Romantic problematics in radical political culture
