Politics and Society in Mid Thirteenth-Century England Peter Coss, 2024-09-03 Despite the multidirectional nature of modern research the interpretation of the political history of thirteenth century England has remained locked into a traditional framework bequeathed by the mid twentieth century historian R F Treharne and embellished by the emphases and accentuations of his present day successors Characterised by its conception of community its constitutionalism its ready identification of a national enterprise and its predilection for idealism and progressive thinking this framework remains close to the Whig interpretation of English history It is reinforced by the continuation of reverence for the baronial leader Simon de Montfort In contrast Peter Coss offers here an alternative approach to the period which is anchored in social mores and cultural values More emphasis is placed upon the interests ambitions and needs of contemporaries upon social networks of various kinds and upon how interests both clashed and cohered as people strove to improve or preserve their situations This was a crisis born of political instability but in the context of institutional administrative and legal growth that is to say at a particular point in the evolution of the state Drawing on a wide range of sources the book reconsiders the generation of the crisis the factors which influenced its course and its partial resolution In short it explores the anatomy and physiology of a troubled realm

The King's Jews Robin R. Mundill, 2010-06-07 In July 1290 Edward I issued writs to the Sheriffs of the English counties ordering them to enforce a decree to expel all Jews from England before All Saints Day of that year England became the first country to expel a Jewish minority from its borders They were allowed to take their portable property but their houses were confiscated by the king In a highly readable account Robin Mundill considers the Jews of medieval England as victims of violence notably the massacre of Shabbat haGadol when York's Jewish community perished at Clifford's Tower and as a people apart isolated amidst a hostile environment The origins of the business world are considered including the fact that the medieval English Jew perfected modern business methods many centuries before its recognised time What emerges is a picture of a lost society which had much to contribute and yet was turned away in 1290
