Elections and TV News in South Africa Bernadine Jones, 2021-08-02 This book takes television news seriously Over the course of nine chapters Elections and TV News in South Africa shows how six democratic South African general elections 1994 2019 were represented on both local and international news broadcasts It reveals the shifting narratives about South African democracy coupled with changing and challenging political journalism practices The book is organised in three parts the first contains a history of South African democracy and an overview of the South African media environment The second part is a visual analysis of the South African elections on television news exploring portrayals of violence security power and populism and how these fit into normative news values and the ruling party's tightening grip on the media The final part is a conclusion a call to action and a suggestion to improve political journalistic practice The Revival of Right Wing

Extremism in the Nineties Peter H. Merkl, Leonard Weinberg, 2014-01-14 Most studies of the radical right concentrate on movements in a single country neglecting to some extent the international dimensions of right wing extremism Here Merkl and Weinberg adopt a comparative perspective concentrating on the revival of the right across a variety of countries
