Democratization in Africa: Challenges and Prospects Gordon Crawford,Gabrielle Lynch,2013-09-13 It is two decades since the third wave of democratization began to roll across sub Saharan Africa in the early 1990s This book provides a very timely investigation into the progress and setbacks over that period the challenges that remain and the prospects for future democratization in Africa It commences with an overall assessment of the lack of progress made from

1990 to 2010 exploring positive developments with reasons for caution Based on original research subsequent contributions examine various themes through country case studies inclusive of the routinisation of elections accompanied by democratic rollback and the rise of hybrid regimes the tenacity of presidential powers the dilemmas of power sharing ethnic voting and rise of a violent politics of belonging the role of donors and the ambiguities of democracy promotion Overall the book concludes that steps forward remain greater than reversals and that typically though not universally sub Saharan African countries are more democratic today than in the late 1980s Nonetheless the book also calls for more meaningful processes of democratization that aim not only at securing civil and political rights but also socio economic rights and the physical security of African citizens This book was originally published as a special issue of Democratization *Electoral Commissions and Democratization in Africa* Nicholas Kerr, 2024-09-04 Why do some countries hold elections that meet global democratic standards while other countries do not Electoral Commissions and Democratization in Africa makes a novel contribution to this question In a departure from the typical story about the boring administrative tasks that electoral commissions carry out and their impact on international observers assessments of election quality Kerr argues that electoral commissions provide valuable information that helps politicians and citizens resolve uncertainties about electoral fraud and administrative irregularities Whereas previous research focuses on the institutional design of electoral commissions this book privileges their actual performance and focuses on two attributes autonomy and capacity By serving an informational role the autonomy and capacity of electoral commissions influences how citizens and elites think about and behave during elections This includes whether political elites and citizens participate in elections engage in electoral fraud and violence accept electoral outcomes and express confidence in elections These attitudes and behaviors in turn influence whether elections meet democratic standards election quality and whether political elites and citizens regard election processes as acceptable election legitimacy This book brings together evidence from public opinion surveys elite surveys field research and cross national databases to give an unusually rich empirical exploration of the dynamics of elections and democracy in sub Saharan Africa since the 1990s with a focused case study of Nigeria Electoral Commissions and Democratization in Africa will be appealing to scholars and policymakers interested in democratization and elections Oxford Studies in African Politics and International Relations is a series for scholars and students working on African politics and International Relations and related disciplines Volumes concentrate on contemporary developments in African political science political economy and International Relations such as electoral politics democratization decentralization gender and political representation the political impact of natural resources the dynamics and consequences of conflict comparative political thought and the nature of the continent's engagement with the East and West Comparative and mixed methods work is particularly encouraged as is interdisciplinary research and work that considers ethical issues relating to the study of Africa Case studies are welcomed but should demonstrate the broader theoretical and empirical implications of the study and its wider relevance to

contemporary debates The focus of the series is on sub Saharan Africa although proposals that explain how the region engages with North Africa and other parts of the world are of interest Series Editors Nic Cheeseman Professor of Democracy and International Development University of Birmingham Peace Medie Senior Lecturer in Gender and International Politics University of Bristol and Ricardo Soares de Oliveira Professor of the International Politics of Africa University of Oxford

Democracy, Elections, and Constitutionalism in Africa Charles Manga Fombad, Nico Steytler, 2021 This volume examines democracy and elections in Africa taking stock of the state of constitutional democracy on the continent after the democratic gains of the 1990s and 2000s focusing on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes Routledge Handbook of Democratization in Africa Gabrielle Lynch, Peter VonDoepp, 2019-07-02 This volume explores the issues and debates surrounding the ongoing processes of democratization in sub Saharan Africa illuminating the central dynamics characterizing Africa's democratic experiments and considering the connections between democratization and economic social and cultural developments on the continent Reflecting the diverse and rich nature of this field of study the Handbook of Democratization in Africa features more than thirty contributions structured into six thematic sections The politics and paths of regime development Institutional dynamics Political mobilization and voting dynamics The politics of identity Social forces from below The consequences of democracy Chapters offer overviews of the key scholarship on particular topics including central insights from the latest research and provide suggestions for those interested in further inquiry The material includes attention to broad cross continental patterns for example with respect to public opinion political violence or the role of different institutions and actors It also includes rich case material drawing on and highlighting the experiences of a diverse collection of countries Encouraging a comprehensive view of key concerns and enhancing understanding of particular issues the Handbook of Democratization in Africa represents a critical resource for experts and students of African politics democratization and African studies Political Mobilizations and Democratization in Sub-Saharan Africa Wolfgang Stuppert, 2019-06-14 This book explores why democratization processes in Sub Saharan Africa have made so little progress despite more than two decades of multi party politics on the subcontinent By applying multiple linear regression analyses to a new data set on multi party elections in Sub Saharan Africa the study investigates the relationship between political mobilizations and electoral competitiveness It finds that the more societal groups engage in political mobilizations such as protests and strikes the more competitive elections become Based on these results the author argues for a change in the policies of international democracy assistance programs The study's findings suggest that efforts to promote democracy would likely be more successful if international donors focused their support on organizations that have active constituencies and are willing to use their mobilization capacity to address ruling elites with political or socio economic grievances

Democratization in Africa Larry Jay Diamond, Marc F. Plattner, 1999 The country specific chapters serve to underline

the differences between African democracy and liberal democracy yet some authors are at pains to emphasize that whatever their limitations African democracies are an advance over what had gone before African Studies Review Democratization in Africa Larry Diamond, Marc F. Plattner, 2010-03-29 Weiss Christopher Wyrod Daniel J Young **Democracy at Large**, 2005 IFES published this quarterly magazine from 2004 2006 for scholars and practitioners interested in democratic development Each issue addresses current affairs in the field of democracy promotion **Leadership and the Problem of Electoral Democracy in Africa** E. Ike Udogu, 2016-12-14 This volume explores the notion that African leaders are fundamentally responsible for electoral malfeasance throughout the continent The quagmire of fixing elections in order to stay in power ad infinitum has frequently led and will continue to lead to political violence civil wars internal displacement of citizens international refugee crises and economic malaise with its attendant crisis of underdevelopment This book provides five case studies selected from Anglophone Francophone and Lusophone Africa that illustrate some variations and similarities in the dilemma of electoral democracy in this epoch of Africa s democratic experiment It suggests among other factors Colin Powell s and Abraham Lincoln s theoretical templates as pointers for African political chiefs in their struggle for democratic consolidation a successful move that could advance national legitimacy and political stability critical for impressive development in this millennium **The Moral Economy of Elections in Africa** Nic Cheeseman, Gabrielle Lynch, Justin Willis, 2021-02-18 Do elections turn people into democratic citizens Elections have long been seen as a way to foster democracy development and security in Africa with many hoping that the secret ballot would transform states Adopting a new approach that focusses on the moral economy of elections Nic Cheeseman Gabrielle Lynch and Justin Willis show how elections are shaped by competing visions of what it means to be a good leader bureaucrat or citizen Using a mixed methods study of elections in Ghana Kenya and Uganda they explore moral claims made by officials politicians civil society international observers and voters themselves This radical new lens reveals that elections are the site of intense moral contestation which helps to explain why there is such vigorous participation in processes that often seem flawed Demonstrating the impact of these debates on six decades of electoral practice they explain why the behaviour of those involved so frequently transgresses national law and international norms as well as the ways in which such transgressions are evaluated and critiqued so that despite the purported significance of vote buying the candidates that spend the most do not always win Democracy and Africanness Hannah Muzee, Tata Emmanuel Sunjo, Andrew Osehi Enaifoghe, 2022-10-31 This book examines the governance and democratization process in Africa its history trends and prospects Written by a diverse panel of experts the book provides an intersectional and interdisciplinary analysis of Africa s democratic environment Chapters cover topics such as the evolution of democracy in Africa electoral politics gender activism human rights and cultural diversity Critically assessing the fit of democracy for African countries and offering strategies for the Africanization of democracy this volume will be important for researchers and students interested in African politics postcolonial theory

democracy and governance **Beyond Free and Fair** Eric Bjornlund,2004-11-02 Publisher Description **Party Systems and Democracy in Africa** R. Doorenspleet,L. Nijzink,2014-12-02 Do party systems help or hinder democracy in Africa Drawing lessons from different types of party systems in six African countries this volume shows that party systems affect democracy in Africa in ways that are unexpectedly different from the relation between party systems and democracy observed elsewhere Democracy without Borders Jean Grugel,2002-01-04 This book carves out a new area of democratisation studies by analysing the transnational dimension and the role of non state actors across three different geographical regions Chapters utilise empirical data from Europe Africa and Latin America **Civil War and Democracy in West Africa** David Harris,2011-12-13 In the aftermath of explosive civil wars in Africa during the 1990s and 2000s the establishment of multi party elections has often been heralded by the West as signaling the culmination of the conflict and the beginning of a period of democratic rule However the outcomes of these elections are very rarely uniform with just as many countries returning to conflict as not Here David Harris uses the examples of Sierra Leone and Liberia to examine the nexus of international and domestic politics in these post conflict elections In doing so he comes to the conclusion that it is political rather than legal solutions that are more likely to enhance any positive political change that has emerged from the violence This book is thus of significance to Western and African policy makers and also to students and scholars who wish to engage with the critical issues of conflict resolution and reconciliation both in Sierra Leone and Liberia in particular and in the wider region in general **Election Observation at a Crossroads** Thomas Molony,2025-09-18 This groundbreaking collection offers the first book length contribution to ongoing debates around how election observation can best support genuine democratic elections in Africa In a three part structure covering international observers their domestic counterparts and the consequences of observation the chapters of Election Observation at a Crossroads draw on a range of methodologies rooted in deep field based research to offer detailed looks at election observation in ten African countries All of this is articulated by predominantly African country experts hailing from a variety of disciplinary and professional backgrounds all of whom are gathered together by Thomas Molony one of very few academics with extensive work experience of election observation in Africa This variety of coverage and perspectives combined with the book s various methodologies sheds new light on concerning shifts in the relationship between African organisations and their Western counterparts on questions over the credibility and independence of citizen observation groups and on assumptions about the influence of election observation on democracy in Africa Cumulatively these insights add up to important unique contributions to ongoing debates about the neo imperial dimensions of international election observation not just within Africa but also in other parts of the Global South For its sole focus on Africa its broad geographical coverage within Africa and its significance for wider debates around international election observation Election Observation at a Crossroads Perspectives from Africa is a must read for students researchers and policymakers interested in African politics and development as well as for those interested in
