Political Management in Practice Jennifer Lees-Marshment, 2024-05-31 All organisations manage people and politics is no different Campaigns parties and government all need to manage people and resources to try to get things done Of course the extent to which politics is managed effectively is debatable Recently public awareness of problematic HR in parliaments and government has grown as media

reports of problems emerge Such problematic practice is not surprising given that orientation and training of political practitioners by parties and parliament is hindered by a lack of academic research This comprehensive volume lays out and builds upon core theoretical foundations in the field of political management offering a wide range of in depth empirical research with multiple authors and chapters from different disciplinary perspectives and countries With authors from political management programmes political marketing management political psychology and public administration the book seeks not just to survey a topic or existing literature but to stimulate research in the area This book will be highly useful for graduate students researchers and professionals in a variety of areas including political management political marketing applied politics political science management political psychology and public administration *Political Marketing and Management in the 2020 New Zealand General Election* Edward Elder, Jennifer Lees-Marshment, 2021-10-24 This book is the second volume in the Palgrave Studies in Political Marketing and Management series to focus on political marketing and management in New Zealand's general elections Co edited by political marketing experts Edward Elder and Jennifer Lees Marshment from the University of Auckland and with contributions from academics and practitioners this book covers topics including political strategy Vote Compass market research political branding delivery marketing targeting and political communication Importantly this book looks at the use of political marketing and management during a global health crisis the COVID 19 pandemic In doing so this book provides valuable insights into political marketing and management in practice not just for New Zealand but for political leaders parties and campaigners around the world Politics and Culture in Victorian Britain Peter Ghosh, Lawrence Goldman, 2006-03-09 In the last twenty years one of the classical arenas for British historical writing the politics of Victorian Britain has ceased to be an obvious or self evidently important subject Facing up to this challenge the historians who have contributed to this volume explore central aspects of that history They continue to uphold the centrality of politics to Victorian Britain but suggest that politics must be viewed more broadly as a concern pervading almost all spheres of life just as Victorians themselves would have done In this way politics penetrates into Victorian culture Politics can lead us into the ideas governing political action itself political ideas international relations the education of men and women the writing of history and of literature engagement with past political theorists and the ideas behind professionalization Such are some of the themes taken up here The specific occasion for these essays was as a tribute to the memory of the late Colin Matthew one of the most eminent recent historians of Victorian Britain who was himself determined to uphold the contemporary relevance of Victorian political tradition and to explore the interface between politics and culture Reflection on his intellectual achievement is a second distinctive component of this book **Managing Political Behavior at Work**, 2008 *Regimes in Tropical Africa* Ruth Berins Collier, 1982-01-01 *The Funding of Political Parties in Britain* Keith D. Ewing, 1987-05-21 This study of the way in which political parties are funded examines in detail the corporate funding of the Conservative Party and trade union funding of the Labour Party In so doing the author

considers the legal implications of this activity The election expenditures of the parties come under scrutiny as does the role of the state in contributing to their financial well being The concluding chapters consider arguments for more extensive public funding of the political parties as proposed by both the Houghton Committee in 1976 and the Hansard Society in 1981 In considering this issue the author draws heavily on Swedish experience and throughout the book reference is made where appropriate to developments in other jurisdictions including the United States Canada and West Germany This important subject is addressed from a legal perspective though the book is written in a clear and forthright style accessible to lawyers and non lawyers alike

Defining the Victorian Nation Catherine Hall, Keith McClelland, Jane Rendall, 2000-05-25
Defining the Victorian Nation offers a fresh perspective on one of the most significant pieces of legislation in nineteenth century Britain Hall McClelland and Rendall demonstrate that the Second Reform Act was marked by controversy about the extension of the vote new concepts of masculinity and the masculine voter the beginnings of the women s suffrage movement and a parallel debate about the meanings and forms of national belonging Fascinating illustrations illuminate the argument and a detailed chronology biographical notes and a selected bibliography offer further support to the student reader

Culture, Politics, and National Identity in Wales 1832-1886 Matthew Cragoe, 2004-06-17 This detailed scholarly exploration of Welsh political culture in the 19th century offers a new interpretation of the rise of nationalism The author shows how the focus of legitimate power in the community shifted from the aristocracy to the urban middle classes

Women and the People Helen Rogers, 2017-05-15 Based on extensive new research investigating the range of women s involvement in early nineteenth century popular politics mid Victorian reform and the women s movements of the late century Women and the People makes an original intervention in the historiography of the radical tradition by exploring the interconnections of populism liberalism and feminism Attending to authorship the study argues that the representational forms adopted by radicals were as important as the content of what they said in shaping their self perception their construction of others and the reception of their ideas In fiction poetry and autobiography as well as in political writing speeches and journalism women reworked radical conventions and imagined new models of political identity participation and authority Though in general radicals appealed to the people women were often positioned as the suffering objects of reform rather than as the agents of change By showing how they challenged or reinforced these conceptions of women and the people the book contends that radical women invoked alternative communities of sex class and nation and helped to remake and discipline the political sphere as they strove to make it their own

The Economic Origin of Political Parties Christopher Kam, Adlai Newson, 2021-01-07 This Element examines how the changing economic basis of parliamentary elections in nineteenth century England and Wales contributed to the development of modern parties and elections Even after the 1832 Reform Act expanded the British electorate elections in many constituencies went uncontested party labels were nominal and candidates spent large sums treating and bribing voters By the end of the century however

almost every constituency was contested candidates stood as representatives of national parties and campaigns were fought on the basis of policies We show how industrialization the spread of literacy and the rise of cheap newspapers encouraged candidates to enter and contest constituencies The increased expense that came from fighting frequent elections in larger constituencies induced co partisan candidates to form slates This imparted a uniform partisan character to parliamentary elections that facilitated the emergence of programmatic political parties Peers, the Parties and the People Neal Blewett,1972-06-18 *Emerging Technologies In Sustainable Innovation, Management and Development* R.
