Electric Power In Brazil Entrepreneurship In The Public Sector:

Electric Power in Brazil Judith Tendler, 1968 Sponsored by Safety at sea *Electric Power in Brazil* Judith Tendler, 1968 *Brazil's State-Owned Enterprises* Thomas J. Trebat, 1983-08-31 The economic role of the state Origins of public enterprise in Brazil The control of public enterprise in Brazil Relationship with economic growth Sources of growth and rates of return Policies on pricing The financing of public enterprise investment Law and Development in Latin America Kenneth L. Karst, Kenneth L. Karst, Keith S. Rosenn, 1975-01-01 Textbook on law and jurisprudence in Latin America including an interdisciplinary research analysis of the legal aspects of economic development covers land reform commercial law responses to inflation the role of the courts etc includes a case study of legal institutional frameworks in the Caracas urban area slums in Venezuela and provides historical background References Oil and Politics in Latin America George Philip, 2007-01-18 This book provides a study of the transformation of the Latin American oil system from one in which the international oil companies dominated to one which is dominated by the main state oil companies and an account of how some of the more important of the state companies have operated This comprehensive guide to the evolution of the Latin American oil system combines in one volume a synthesis of material from secondary sources and original research and thus provides an invaluable reference for all concerned with the history and economy of Latin America and with the development and functioning of the international oil industry **Energy and Security in the Industrializing World** Raju G. C. Thomas, Bennett Ramberg, 2021-03-17 Provides detailed analyses of the related concerns of energy needs the economy and national security for developing countries Argentina Brazil Cuba India Pakistan South Africa South Korea and Taiwan The essays serve to underline the dangerous problem of nuclear proliferation for several of these countries have uneasy relations with their neighbors In their detailed reviews of these eight nations their plans and their capabilities the contributors have provided a valuable source for a neglected area of international affairs *Electrifying India* Sunila S. Kale, 2014-04-09 Throughout the 20th century electricity was considered to be the primary vehicle of modernity as well as its quintessential symbol In India electrification was central to how early nationalists and planners conceptualized Indian development and huge sums were spent on the project from then until now Yet despite all this sixty five years after independence nearly 400 million Indians have no access to electricity *Electrifying India* explores the political and historical puzzle of uneven development in India's vital electricity sector In some states nearly all citizens have access to electricity while in others fewer than half of households have reliable electricity To help explain this variation this book offers both a regional and a historical perspective on the politics of electrification of India as it unfolded in New Delhi and three Indian states Maharashtra Odisha and Andhra Pradesh In those parts of the countryside that were successfully electrified in the decades after independence the gains were due to neither nationalist idealism nor merely technocratic plans but rather to the rising political influence and pressure of rural constituencies In looking at variation in how public utilities expanded over a long period of time this

book argues that the earlier period of an advancing state apparatus from the 1950s to the 1980s conditioned in important ways the manner of the state's retreat during market reforms from the 1990s onward

The Political Economy of Institutional Change in the Electricity Supply Industry Carlos Rufin, 2003-01-01 Through a variety of analytical lenses formal modeling econometrics and case study comparisons Carlos Rufin fills a gap in the political economy of second wave or microeconomic reforms around the world More specifically he does so in the context of the electricity supply industry where such reforms have been as problematic as they have been widespread The author shows that ideological considerations and bargaining over the distribution of economic rents accruing from certain institutional arrangements are powerful shapers of institutional change At the same time the legacy of the past does not appear to have a clear or systematic effect on the direction of second wave reforms that seek to transform existing economic institutions If distributional conflicts can be resolved these conclusions provide grounds for optimism about the ability to create new institutions even in countries where little favorable precedent exists

Infrastructure Regulation: What Works, Why And How Do We Know? Lessons From Asia And Beyond Darryl S L Jarvis, M Ramesh, Xun Wu, Eduardo K Araral, Jr, 2011-06-08 Regulation of public infrastructure has been a topic of interest for more than a century Providing public goods securing their financing maintenance and improving the efficiency of their delivery has generated a voluminous literature and series of debates More recently these issues have again become a central concern as new public management approaches have transformed the role of the state in the provision of public goods and the modalities by which the financing of infrastructure and its operation are procured Yet despite the proliferation of new modalities of regulating infrastructure little is known about what works and why Why do certain regulatory regimes fail and others succeed What regulatory designs and institutional features produce optimal outcomes and how And why do regulatory forms of governance when transplanted into different institutional contexts produce less than uniform outcomes This book addresses these questions exploring the theoretical foundations of regulation as well as a series of case studies drawn from the telecommunications electricity and water sectors It brings together distinguished scholars and expert practitioners to explore the practical problems of regulation regulatory design infrastructure operation and the implications for infrastructure provision

The Future Of Brazil William H. Overholt, 2019-09-05 This book analyzes Brazil's foreign relations politics domestic economy international economic relations and relations with multinational corporations It identifies the balance of payments crisis in the late 1970s as the key to Brazil's economic and political future

The Foreign Powers in Latin America Herbert Goldhamer, 2015-03-08 Our preoccupation with the role of the United States in Latin American affairs has obscured the important part played by Canada and the nonhemispheric nations e g the Soviet Union Japan and Israel To compensate for this neglect Herbert Goldhamer examines the interests and activities of the foreign powers in Latin America focusing on the decade of the Alliance for Progress 1961-1971 Adopting an analytical and topical rather than a country by country approach Mr Goldhamer presents a

comparative picture of the foreign powers objectives territorial national security economic political and of the means and resources the migrant presence affinities advocacy models cultural programs aid diplomacy they have used in pursuit of these ends In conclusion he evaluates the extent to which they have achieved their ends and sets forth the principles of interstate behavior and the lessons in statecraft these principles suggest that seem to have been involved Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Politics of Economic Adjustment Stephan Haggard, Robert R. Kaufman, 2018-06-05 In the 1980s some developing countries adopted orthodox market oriented policies in response to international economic crises others experimented with alternative programs and still others failed to develop coherent adjustment strategies of any sort Building on the case studies in *Economic Crisis and Policy Choice* these essays offer comparative analysis of these divergent experiences with macroeconomic stabilization and structural adjustment Barbara Stallings and Miles Kahler explore the external pressures on governments Peter Evans and John Waterbury examine the role of the state in the adjustment process Evans through the lens of earlier historical experience with economic restructuring Waterbury by focusing on the politics of privatization Joan Nelson analyzes the politics of income distribution in the adjustment process and Haggard and Kaufman investigate the political correlates of inflation and stabilization A final essay assesses the prospects for combining market oriented reforms with political democratization

Big Business and Dictatorships in Latin America Victoria Basualdo, Hartmut Berghoff, Marcelo Bucheli, 2020-12-04 This edited volume studies the relationship between big business and the Latin American dictatorial regimes during the Cold War The first section provides a general background about the contemporary history of business corporations and dictatorships in the twentieth century at the international level The second section comprises chapters that analyze five national cases Argentina Brazil Chile Uruguay and Peru as well as a comparative analysis of the banking sector in the Southern Cone Argentina Brazil Chile and Uruguay The third section presents six case studies of large companies in Argentina Brazil Chile Colombia and Central America This book is crucial reading because it provides the first comprehensive analysis of a key yet understudied topic in Cold War history in Latin America

Energy, Bio Fuels and Development Edmund Amann, Werner Baer, Don Coes, 2011-03-07 This collection examines the important and topical issue of the economic social and environmental implications of concerted attempts to diversify energy sources away from fossil fuels The book expertly examines this issue by focussing on the contrasting experiences of two major economies one developed and the other a rapidly expanding emerging market *Energy Bio Fuels and Development* evaluates the experience of Brazil with elements of that of the US

highlighted for the purpose of comparison A key area of concern surrounds the causes and consequences of the contrasting routes to biofuel production represented by sugar cane in Brazil and corn in the US The book also places the recent biofuels drive in perspective by discussing the broader energy policy context The book shows the complexity and interdependence of the issues involved in moving a society reliant on non renewable energy sources to one based on alternative sources of energy The key conclusion to emerge is that Brazil in pursuing a flexible mix of fossil fuels and bio fuels has greatly diminished its exposure to exogenous energy shocks The US experience in particular its development of corn based ethanol has been more problematic though by no means without successes It is argued that bio fuels should not be seen as a panacea There are clear limits to the efficiency and cost effectiveness of current biofuel production technologies while there remain concerns surrounding potentially adverse effects on food production and rural livelihoods This book should be an excellent resource for students focussing on economic development particularly in the areas of energy biofuels rural development and food supply

Area Handbook for Brazil Thomas E. Weil, 1971 *Let There Be Light: Engineering, Entrepreneurship and Electricity in Colonial Bengal, 1880-1945* Suvobrata Sarkar, 2020-12-03 This book studies the correlation between technological knowledge and industrial performance with the focus on electricity an emerging technology during 1880 and 1945

The Governance of Large Technical Systems Olivier Coutard, 2002-01-04 This work examines the governance of large technical systems LTS at firm industry and state levels and the interactions between the systems and society In particular international contributors explore the implications of major technological economic and social changes during the last twenty years for traditional forms of LTS governance Their research is centred around the following themes traditional forms of governance new regulatory challenges the governability of complex technologies conceptual issues related to the governance of inter organizational networks

The Statesman's Year-Book 1974-75 J. Paxton, 2016-12-23 The classic reference work that provides annually updated information on the countries of the world

Brazil and Canada Rosana Barbosa, 2016-12-07 This book provides a synthesis of the relationship between Brazil and Canada or what comprises Canada today with the objective of uncovering a neglected history This book covers from the first known exchange of migrants between the two countries in 1828 to 1979 when a political openness in the Brazilian military dictatorship gave rise to a new chapter in the two countries relationship As the first synthetic treatment of this relationship this book not only aims to build on the limited historiography that exists but also to open up new interpretive channels that can be further explored in the future Recommended for scholars of Latin American studies history and international relations
