Jean-Claude Thill

Electronic Byways State Policies For Rural Development Through Telecommunications:

Electronic Byways Edwin B. Parker, 2021-11-28 Offers an instructive look at the role modern telecommunications infrastructures play in promoting vibrant rural economies The authors provide prescriptive policy recommendations for everyone concerned with rural economic development from state and rural policymakers to telecommunications industry executives

From Rural Village to Global Village Heather E. Hudson, 2013-09-05 From Rural Village to Global Village Telecommunications for Development in the Information Age examines the role of information and communication technologies ICTs on both the macro level societal socio economic and governmental and sector level education health agriculture entrepreneurship emphasizing rural and developing regions Author Heather E Hudson examines the potential impact of ICTs by reviewing the existing research and adding her own findings from extensive fieldwork in ICT planning and evaluation The volume includes case studies demonstrating innovative applications of ICTs plus chapters on evaluation strategies and appropriate technologies She also analyzes the policy issues that must be addressed to facilitate affordable ICT access in rural and developing regions This discussion relates to the larger digital divide issue and the impact that access to communication technology or the lack of it has on communities and societies This comprehensive volume is a valuable resource for scholars professionals researchers and students in telecommunications law and policy media economics international communication and communication and development fields It is also suitable for use as an advanced level text in these areas

Connecting Alaskans Heather E. Hudson, 2015-09-15 Introduction Alaska's first information highway Expansion after World War II and the talking lady of the North Early broadcasting Privatizing the Alaska communications system The beginning of the satellite era The NASA experiments From satellite experiments to commercial service Telephone service for every village Broadcasting and teleconferencing for rural Alaska Rural television from RATNET to ARCS Deregulation and disruption State planning and policy Alaska's local telephone companies The phone wars Distance learning from satellites to the internet Telemedicine in Alaska A new century the growth of mobile and broadband Past and future connections

Everyday Innovators Leslie Haddon, Enid Mante, Bartolomeo Sapio, Kari-Hans Kommonen, Leopoldina Fortunati, Annevi Kant, 2006-01-12 Everyday Innovators explores the active role of people collectively and individually in shaping the use of information and communication technologies It examines issues around acquiring and using that knowledge of users how we should conceptualise the role of users and understand the forms and limitations of their participation To what extent should we think of users as being innovative and creative To what extent is this routine or exceptional confined to particular group of users or part of many people's experience of technologies Where does the nature of the ICT or the particularities of its design impose constraints on the active role that users can play in their interaction with devices and services Where do the horizons and orientations of the users influence or limit what they want and expect of their ICTs and how they use them This book enables a cross fertilisation of perspectives from different disciplines and aims to

provide new insights into the role of users drawing out both applied and theoretical implications communities in the lead
, *Making Universal Service Policy* Barbara A. Cherry, Steven S. Wildman, Allen S. Hammond, IV, Allen S. Hammond, 1999-08 This volume presents the current state of universal service policy from governmental academic and industry perspectives It will be of great use to those involved in communication policy including lawyers economists policy makers and scholars **Rural Development Perspectives**, 1995 *Advances in Digital Government* William J. McIver Jr., Ahmed K. Elmagarmid, 2008-01-20 *Advances In Digital Government* presents a collection of in depth articles that addresses a representative cross section of the matrix of issues involved in implementing digital government systems These articles constitute a survey of both the technical and policy dimensions related to the design planning and deployment of digital government systems The research and development projects within the technical dimension represent a wide range of governmental functions including the provisioning of health and human services management of energy information multi agency integration and criminal justice applications The technical issues dealt with in these projects include database and ontology integration distributed architectures scalability and security and privacy The human factors research emphasizes compliance with access standards for the disabled and the policy articles contain both conceptual models for developing digital government systems as well as real management experiences and results in deploying them *Advances In Digital Government* presents digital government issues from the perspectives of different communities and societies This geographic and social diversity illuminates a unique array of policy and social perspectives exposing practitioners to new and useful ways of thinking about digital government Toward A Competitive Telecommunication Industry Gerald W. Brock, 2013-10-18 Providing an authoritative perspective on the best current research regarding telecommunication policy this book is based on the 22nd Annual Telecommunications Policy Research Conference The papers focus on the critical policy issues created by increasing competition in the industry The book contains a careful analysis of local competition and interconnection international competition universal service issues the Internet and emerging new methods of communication and the first amendment problems created by changing telecommunication technology It brings together in a convenient form a wide range of important scholarship on telecommunication policy that otherwise would require extensive research into a variety of journals government filings and unpublished papers Broadband Internet's Value for Rural America Peter Sternberg, 2010 As broadband or high speed Internet use has spread Internet applications requiring high transmission speeds have become an integral part of the Information Economy raising concerns about those who lack broadband access This report analyzes 1 rural broadband use by consumers the community at large and bus 2 rural broadband availability and 3 broadband s social and econ effects on rural areas In general rural communities have less broadband Internet use than metro communities Rural communities that had greater broadband Internet access had greater economic growth which conforms to supplemental research on the benefits that rural bus consumers and communities ascribe to broadband Internet use Illustrations

Beyond Broadband Access Richard D. Taylor, Amit M. Schejter, 2013-06-03 This volume not only examines traditional questions about broadband such as availability and access but also explores and evaluates metrics that are more applicable to the evolving technologies of information access. Importantly the book provides a well rounded international perspective on theoretical approaches to communications policymaking in the Americas Europe Asia and Africa Showcasing a diversity of approaches this collection aims to help meet the myriad challenges involved in improving the development of communications policy around the world . . . *And Communications for All* Amit M. Schejter, 2009-02-16 In *And Communications for All* 16 leading communications policy scholars present a comprehensive telecommunications policy agenda for the new federal administration This agenda emphasizes the potential of information technologies to improve democratic discourse social responsibility and the quality of life along with the means by which it can be made available to all Americans Schejter has assembled an analysis of the reasons for the failure of the Telecommunications Act of 1996 and offers an international benchmark for the future of telecommunications Addressing a range of topics including network neutrality rural connectivity media ownership minority ownership spectrum policy universal broadband policy and media for children it articulates a comprehensive vision for the United States as a twenty first century information society that is both internally inclusive and globally competitive *Econometric Methods for Analyzing Economic Development* Schaeffer, Peter V., 2013-07-31 Exploring and understanding the analysis of economic development is essential as global economies continue to experience extreme fluctuation Econometrics brings together statistical methods for practical content and economic relations *Econometric Methods for Analyzing Economic Development* is a comprehensive collection that focuses on various regions and their economies at a pivotal time when the majority of nations are struggling with stabilizing their economies Outlining areas such as employment rates utilization of natural resources and regional impacts this collection of research is an excellent tool for scholars academics and professionals looking to expand their knowledge on today s turbulent and changing economy The American Midwest Norman Walzer, 2016-07-08 The rural Midwest is undergoing fundamental changes with increased competition from foreign agriculture employment shifts from higher paying manufacturing to lower paying service industries the displacement of local small town business by large discount stores and shopping malls overall population declines that threaten the viability of schools hospitals and other public institutions along with an influx of minority groups that has led to strife in some communities Using data from the 2000 Census this collection examines the major demographic and employment trends in the rural Midwestern states with special attention to the issues that state and local policy makers must address in the near future The contributors are well known experts in their fields and in these original previously unpublished materials they offer suggestions on how the Internet and other technological advances offer new opportunities for rural economies that local leaders can build on Handbook of New Media Leah A Lievrouw, Sonia M. Livingstone, 2006-01-17 Thoroughly revised and updated this Student Edition of the successful *Handbook of New Media* has

been abridged to showcase the best of the hardback edition This Handbook sets out boundaries of new media research and scholarship and provides a definitive statement of the current state of the art of the field Covering major problem areas of research the Handbook of New Media includes an introductory essay by the editors and a concluding essay by Ron Rice Each chapter written by an internationally renowned scholar provides a review of the most significant social research findings and insights

From Combines to Computers Amy Glasmeier, Marie Howland, 1995-01-01 Through an analysis of national data and detailed case studies *From Combines to Computers* examines how the transition to a service economy is playing out for rural America It answers two important questions Will services fill the gap left by lost farming manufacturing and mining jobs And will services stabilize even revitalize rural areas Glasmeier and Howland document the intraregional spatial patterns and trends of services in the national economy compare services in urban and rural communities and identify the potential and limitations of rural development strategies based on services In particular they document the growing dominance of branch plants the displacement of mom and pop enterprises and the declining access to services for residents in the least populated rural areas The authors conclude that services are unlikely to be the basis of widespread sustainable development unless policies are designed to help firms and communities compete successfully in an increasingly global and information based economy

Innovations in Urban and Regional Systems Jean-Claude Thill, 2020-05-11 This book presents cutting edge research on urban and regional systems applying modern spatial analytical techniques of Geographic Information Science Technologies GIS T spatial statistics and location modeling The contributions written by leading scholars from around the globe adopt a spatially explicit analytical perspective and highlight methodological innovations and substantive breakthroughs on many facets of the socioeconomic and environmental reality of urban and regional contexts The book is divided into three parts The first part offers an introduction to the research field while the second part discusses critical issues in urban growth and urban management presenting case studies on city and urban environments their growth data infrastructures and spatial and management issues The third part then broadens the analysis to the regional scale addressing growth convergence and adaptation to new economic and information based realities This book appeals to scholars of spatial and regional sciences as well as to policy decision makers interested in advanced methods of spatial analysis location modeling and GIS T

Understanding the Digital Economy Erik Brynjolfsson, Brian Kahin, 2002-01-25 The rapid growth of electronic commerce along with changes in information computing and communications is having a profound effect on the United States economy President Clinton recently directed the National Economic Council in consultation with executive branch agencies to analyze the economic implications of the Internet and electronic commerce domestically and internationally and to consider new types of data collection and research that could be undertaken by public and private organizations This book contains work presented at a conference held by executive branch agencies in May 1999 at the Department of Commerce The goals of the conference were to assess current research on the digital economy to

engage the private sector in developing the research that informs investment and policy decisions and to promote better understanding of the growth and socioeconomic implications of information technology and electronic commerce Aspects of the digital economy addressed include macroeconomic assessment organizational change small business access market structure and competition and employment and the workforce **National Strategic Planning and Practice** Liaquat Hossain,2024-11-01 This title was first published in 2001 This text explores the relationship between telecommunications strategic planning process TSPP the organization and the environment for developing an understanding of the idea of a national TSPP NTSP in Thailand The overall aim is to explore an understanding of an NTSP by providing a detailed study of the strategic planning and practices of the Thai telecom regulators during the period from 1954 to 1996 It applies the strategic planning process principles to further the understanding of NTSP in Thailand By using the SPP framework the study develops a theoretical TSPP framework for analyzing the underlying TSPP strategies within the national telecom regulators in Thailand It also seeks to illustrate the limitations of the traditional strategic planning theory when applied to NTSP From a theoretical perspective this book illustrates that a lack of formalization and consensus in Thailand s NTSP is the fundamental backlog for the successful operation of its industry Rural Development Resources in the National Agricultural Library Collection ,1993

Delve into the emotional tapestry woven by in **Electronic Byways State Policies For Rural Development Through Telecommunications** .
