

Good Health for African Americans

Showing
the 25 most
common
and chronic
diseases

Barbara M. Dixon, RD, LD.N.
with **Josleen Wilson**

Foreword by Elijah Saunders, M.D.
Clinical Director of Hypertension Center, University of Maryland School of Medicine

"A valuable resource for both African Americans and health professionals who need to better understand the situation faced by contemporary black America."
—*Oakland Tribune*

Good Health For Black Americans

Eric J. Bailey

Good Health For Black Americans:

African American Psychology Faye Z Belgrave, Kevin W Allison, 2009-07-15 This core textbook provides students with comprehensive coverage of African American psychology as a field. Each chapter integrates African and American influences on the psychology of African Americans thereby illustrating how contemporary values, beliefs, and behaviors are derived from African culture translated by the cultural socialization experiences of African Americans in this country. The literature and research are referenced and discussed from the perspective of African culture, mostly West African, during the period of enslavement at other critical periods in this country, e.g., early 20th century civil rights era and through the present. Chapters provide a review of the research literature with a focus on applications for contemporary living. **Food Choice and**

Obesity in Black America Eric J. Bailey, 2006-05-30 Anthropologist Eric Bailey uses a cultural and holistic analysis of African American food preferences to show how black Americans generally perceive health, body image, food, dieting, physical fitness, and exercise. As is true of Americans overall, black Americans are becoming more overweight and obese than ever before. So too they are seeing the consequences: heart attacks, strokes, hypertension, and Type II diabetes at earlier and earlier ages. Bailey offers a new cultural diet for black Americans and a prescription for working collectively not only to understand this critical health issue but also to establish a lifestyle strategy that will be both effective and manageable. State of Black

America - 1986 Bernard E. Anderson, John Calmore, 2020-03-09 First published in 1986. A collection of studies on Black America from 1985 to 1986 including the economic status, classes, political policies, housing, education, and civil rights. Includes a population chart of American Blacks from 1980 to 1984. Sunshine Vitamin & Black People Jay Parker, Men of African

descent are at a significantly higher risk of developing prostate cancer than white men. There are reasons why more black people are dying of prostate cancer. Vitamin D: The deficiency of it. Black people need the sun more than white folks. It takes less time under the sun for a white skin to manufacture all the needed vitamin D. It requires more time for the dark skin to warm up and even more time to start manufacturing vitamin D. Black folks tend to shy away from the sun because the sun will make them darker. That is a bad strategy. When you walk through a park in the summer, you see sunbathers. I don't know about you, but these sunbathers are mostly white folks who need the sun far less than black folks. Ordinarily, the people that are mostly in need of sunbathing while partially naked are the black-skinned people. This is because dark skin needs the intense sunlight. The most Black skin is a marvel. It is black for a reason. It evolved to be black so as to be able to tap into the Sun and get those properties that will give you long life, full of health, stronger, and biologically efficient. The white skin needs the Sun but not that much. More than fifteen minutes in the Sun without sunscreen and they will get burns and ultimately peel. Black folks need it far more and they don't get scorched in fifteen minutes even without sunscreen. But some Africans and other diaspora Africans avoid the Sun. Is it not ironic that while some black folks are lightening up, some white folks are darkening down? They call it tanning and it does not come cheap either. People of African

descent living in cold climate can have a natural Sun protection factor SPF of up to 13 as compared to 3-4 for whites. For equatorial and other hot weather blacks it is even better. This advantage for African Americans and black immigrants can also be a disadvantage. It is a double-edged sword for black people not living in equatorial climate. You just need to have proper information with which to turn the disadvantage into an advantage. Vitamin D is getting a lot of attention lately even in medical circles. Many people are having their vitamin D levels tested and are surprised to find out that they are low in this essential hormone. What exactly is Vitamin D and why should you care about your Vitamin D levels? How does sunscreen use contribute to deficiency in this important vitamin and what can we do to remedy the deficiency? This book has been written in such a way that you will be able to absorb the contents in less than it takes to travel from one point to another in a bus or train ride.

Black American's Strengths-Based Cultural Practices Robert T. Carter, Alex Pieterse, Jessica Forsyth, 2025-03-31. **Black Americans Strengths Based Cultural Practices: Tools for Clinicians to Promote Psychological Well-Being** uses historical, social, scientific, and psychological research to detail how mental health professionals can use the cultural practices of Black Americans and communities to promote positive psychosocial health. Building on experiences of racial oppression and cultural values, Drs. Carter, Pieterse, and Forsyth offer an evidence-based framework for recognizing and enhancing strengths-based cultural practices of Black American clients and families in mental health interventions. This volume will broaden the base of work on the mental health treatment of Black Americans and provide an approach to understanding the unique cultural influences of Black people as they relate to psychological health. The book is suitable for a wide range of professionals including social workers, mental health practitioners, nurses, teachers, and sociologists at various levels of education and training.

Black Health Matters Richard W. Walker, Jr., 2021-08-25. It's no secret that the Black community tops the list of groups afflicted by hypertension, stroke, diabetes, heart disease, kidney failure, and cancer. What the statistics do not show is the pain, misery, and despair that these conditions create not only for the individual but also for family and friends. As an African American doctor, Dr. Richard Walker has studied these conditions among his patients for many years. Now in **Black Health Matters**, Dr. Walker offers a number of commonsense ways to prevent, manage, and possibly eliminate these killers, turning the tide of African American health. In this unique book, Dr. Walker follows the health and healthcare journey of African captives into slavery and describes what they had to do to survive nutritionally and culturally, ultimately resulting in the chronic ill health and early death now pervasive in Black communities. Most important, Dr. Walker explains how African Americans can turn their health around by understanding and incorporating better nutrition, nutritional supplements, exercise, and regular healthcare checkups into their lives. Each chapter explains a different health problem common to the Black community, including obesity, diabetes, heart disease, cancer, hypertension, sickle cell disease, and more, and offers concrete ways in which that condition can be avoided or better managed, often through simple changes that can be easily made by the individual. Tips are included for locating and communicating with affordable healthcare professionals. A

highly practical and easy to use guide **Black Health Matters** is an important first step towards achieving a healthier longer life for millions of people Good Health for African Americans Barbara M. Dixon, Josleen Wilson, 1994 Dixon supplies a fascinating historical explanation as to why disease and mortality rates differ between blacks and other Americans these are potentially political issues and Dixon handles them with grace and sensitivity while mapping lifestyle changes needed for improved health Publishers Weekly **Encyclopedia of African American Society** Gerald D. Jaynes, 2005-02 An encyclopedic reference of African American history and culture **Perceptions of African American Women About Their Dietary Habits** Christine Dial-Benton, 2012-08-29 Recent years have seen a tremendous growth in scientific knowledge of the relationship between diet and health This increase in knowledge has informed dietary recommendations to promote health It has also started a campaign to educate Americans on more healthful eating habits Guthrie Derby and Levy 1994 American consumers show a high level of awareness of the relationship between their diets and serious diseases such as heart disease and cancer Derby and Fein 1995 Public health campaigns along with growing media attention to diet and health topics have raised awareness among less educated as well as the more educated consumers Ippolito and Mathios 1996 This study will provide an up to date picture of the degree to which three groups of African American women are meeting dietary recommendations The women in the study will be grouped according to age income and education They will complete a survey concerning their dietary habits This study was designed in hopes that it would contribute to the evolving literature concerning the factors that promote general poor health among African American women African American Bioethics Lawrence J. Prograis Jr., Edmund D. Pellegrino, 2007-05-03 Do people of differing ethnicities cultures and races view medicine and bioethics differently And if they do should they Are doctors and researchers taking environmental perspectives into account when dealing with patients If so is it done effectively and properly In **African American Bioethics** Lawrence J Prograis Jr and Edmund D Pellegrino bring together medical practitioners researchers and theorists to assess one fundamental question Is there a distinctive African American bioethics The book s contributors resoundingly answer yes yet their responses vary They discuss the continuing African American experience with bioethics in the context of religion and tradition work health and U S society at large finding enough commonality to craft a deep and compelling case for locating a black bioethical framework within the broader practice yet recognizing profound nuances within that framework As a more recent addition to the study of bioethics cultural considerations have been playing catch up for nearly two decades **African American Bioethics** does much to advance the field by exploring how medicine and ethics accommodate differing cultural and racial norms suggesting profound implications for growing minority groups in the United States **African American Foodways** Anne Bower, 2009 Moving beyond catfish and collard greens to the soul of African American cooking *The State of Black America* James D. Williams, 1983-01-01 **African American Psychology** Faye Z. Belgrave, Kevin Wendell Allison, Camilla W. Nonterah, 2025-09-02 **African American Psychology** From Africa to America provides a comprehensive and

integrated introduction to the field The Fifth Edition presents recent advances and developments in African American psychology including new coverage of systematic and institutional racism Black empowerment COVID 19 s impact on Black communities and increased attention to heterogeneity within the Black community **Black Enterprise** ,1994-07 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance **The Metropolis in Black and White** George C. Galster,Edward W. Hill,2012-06 **Asthma Education** Ian Mitchell,Gaynor Govias,2021-08-23 This book comprehensively presents all the necessary information health professionals need to become Certified Asthma Educators Competent asthma educators must possess a number of skills they must have appropriate and sound medical and pharmaceutical knowledge be proficient and effective educators who can influence their patients behaviors for the better and finally they need the administrative and organizational skills needed to set up and run efficient clinics at their places of work The book is divided into three sections to meet those needs Asthma The Fundamentals The Role of Education and The Effective Asthma Educator The first section covers clinical knowledge of asthma with chapters including lung structure and function clinical presentation of asthma and environmental issues in asthma management The second section delves into the role of educating patients and teaches readers how to best do that with an integrated approach between physician educator and patient The third section looks further into educating techniques with a view of the learning process considerations for instruction locations and the role the educator plays overall The final chapter in the book presents example cases for readers to assess the knowledge they have learned throughout This second edition serves as both textbook and study guide for certification as well as a long term reference publication It has been fully updated from the previous edition with the latest treatment guidelines medications and disease monitoring methods This is an ideal guide for asthma educators those seeking NAECEB certification and any health professional involved with individuals who have asthma

Encyclopedia of Global Health Yawei Zhang,2008-01-09 The Encyclopedia of Global Health is a comprehensive A to Z inter disciplinary one stop reference to a broad array of health topics worldwide Encompassing four volumes with some 1 200 articles in 2000 pages the encyclopedia covers all aspects of health including physical and mental health entries biographies of major doctors and researchers profiles of medical institutions organizations and corporations descriptions of drugs and operations articles on national health policies and thematic health topics in the humanities Pedagogical elements of the encyclopedia include an in depth chronology detailing advances in health through history a glossary of health definitions extensive cross references to related topics and thorough bibliographic citations **Changing the Stigma of Mental Health Among African Americans: Moving From Denial to Acceptance** Hendricks, LaVelle,Smith, Dimitra,2023-09-18 Mental health among African Americans historically has been kept secret and often has been subject to intense denial from both the individuals with mental health concerns and their communities Thus African Americans have remained shielded

from treatments that are currently available which may allow them to become mentally healthier and find a sense of psychological homeostasis Recognizing mental illness treatment as a strength and not a weakness is key to mitigating existing issues of mental health in the African American community today Changing the Stigma of Mental Health Among African Americans Moving From Denial to Acceptance provides the history of mental health in the African American community and how denial has hindered and hampered treatment within this community Covering topics such as bipolar disorder dementia and disruptive behavior this book is ideal for educators researchers practitioners the African American spiritual community and all individuals concerned about psychological care for African Americans *Ebony* ,1994-03

EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine
