Economic Aspects Of Television Regulation Studies In The Regulation Of Economic Activity:

Economic Aspects of Television Regulation Roger G. Noll, 1973 *The Economic Effects of Airline Deregulation* Steven Morrison, Clifford Winston, 2010-12-01 In 1938 the U S Government took under its wing an infant airline industry Government agencies assumed responsibility not only for airline safety but for setting fares and determining how individual markets would be served Forty years later the Airline Deregulation Act of 1978 set in motion the economic deregulation of the industry and opened it to market competition This study by Steven Morrison and Clifford Winston analyzes the effects of deregulation on both travelers and the airline industry The authors find that lower fares and better service have netted travelers some 6 billion in annual benefits while airline earnings have increased by 2 5 billion a year Morrison and Winston expect still greater benefits once the industry has had time to adjust its capital structure to the unregulated marketplace and they recommend specific public policies to ensure healthy competition *Hearings, Reports and Prints of the Joint Economic Committee* United States. Congress. H. Snider, 2005 Broadcasters have always been coddled by politicians and *Speak Softly* explains how and why J H Snider tells the story with the rigor of a scholar the doggedness of an investigative reporter and the zeal of a reformer Paul Taylor Executive Vice President Pew Research Center J H Snider offers an extremely comprehensive and well documented look behind the curtain at how the National Association of Broadcasters drives its national legislative agenda This is must reading for not only political scientists but for all who are interested in media policy and how it gets made in Washington Chellie Pingree President and CEO Common Cause This astute book is a first rate work of original scholarship It also provides an unsettling description of broadcasters policy influence When their own interests are involved broadcasters cannot be trusted to act in the way they demand of all others in society Readers will no doubt question whether J H Snider's recommended solution is a practical one But no reader will question his call for new measures Thomas E Patterson Bradlee Professor of Government and the Press Harvard University Having played a role in the mad cap drama of telecommunications legislation Snider documents I can tell you he has captured the essence of the machinations strange bedfellows and almost single minded righteous self interest that drives the telecommunications debate Like it or not this is how the power game is really played Stephen R Effros Former President 1976 1999 Cable Telecommunications Association *Speak Softly* documents the broadcast industry's striking influence on public policy including the landmark Telecommunications Act of 1996 As Congress gears up to re write the Act J H Snider's analysis is particularly timely Kevin Werbach Professor The Wharton School University of Pennsylvania **Railroads, Freight, and Public Policy** Theodore E.
