Economic Change Political Conflict In:

Political Conflict and Economic Change in Nigeria Henry Bienen, 2013-11-26 First Published in 1985 In the early morning hours of 31 December 1984 the Nigerian military once again removed an elected head of state A coup carried out by senior military officers ended the Second Republic which had been ushered in by elections at the end of 1979 Political Conflict and Economic Change in Nigeria is based on articles and essays written between 1978 and 1983 Economic Change and Political Conflict in Ghana, 1600-1990 Kwame Nimako, 1991 Economic Issues and Political Conflict: US—Latin American Relations Jorge I. Domínguez, 2013-10-22 Economic Issues and Political Conflict US Latin American Relations is a collaborated work from different experts that discusses the economic and political relations and policies of Latin American countries with the United States of America and how it changed over the years The book covers topics such as the history of the US Latin American economic policies US policy in relation to the Latin American countries and the attitudes of Latin American national businesses toward multinational enterprises The book also covers the business policies industrial exports and trade negotiations of Latin American countries with the United States and the US Latin American technology transfer relations The text is recommended for political analysts economists and historians especially those who would like to know more about the economic and political relationship between US and Latin American countries **The Handbook of Political, Social, and Economic Transformation** Wolfgang Merkel, Raj Kollmorgen, Hans-Jürgen Wagener, 2019-01-25 Political social and economic transformation is a complex historical phenomenon It can adequately be analysed only by a multidisciplinary approach The Handbook brings together an international team of scholars who are specialists in their respective research fields It introduces the most important areas theories and methods in transformation research with particular attention placed on the historical and comparative dimension Although focussing on post communist and other democratic transformations in our epoch the Handbook therefore presents and discusses not only their problems paths and developments but also deals with the antecedent waves beginning with the Meiji Restoration in Japan in 1868 and its aftermath The book is structured into six parts Starting with basic concepts as systems actors and institutions Section I it gives an overview over major theoretical approaches and research methods Sections II and III The connection of theory and method with their application is essential allowing special insights into the past and opens analytical avenues for transformation research in the future Section IV provides a historically oriented description or interpretation of particular waves or types of societal transformation With a clear focus on present transformations the contributions to Section V provide a description and discussion of the problems structures actors and courses of the transformations within different spheres of civil society politics law and economics Finally brief lexicographic entries in Section VI delineate research perspectives and facts about relevant issues of societal transformation Each of the 79 contributions contains a concise list of the most important research literature *Economic Collapse, Economic Change* Arthur MacEwan, John Miller, 2015-02-11

This thoughtful book offers a widely accessible account of the recent economic collapse and crisis emphasizing the deep nexus of economic inequality undemocratic power and leave it to the market ideology at its root Based on their understanding of the origins of the crisis the authors propose a program for reform that is equally dependent on popular action and changes in government policy **The Political Process and Economic Change** Bruno S. Frey,1983 How is the political process affected by economic change How is the making of economic policy influenced by political considerations Progress in econometrics and a new recognition of the enhanced role of government in the functioning of market systems n

Market Economics and Political Change Juan D. Lindau,2000-01-01 Does market liberalization promote democracy The accepted answer from scholars pundits and politicians alike has been yes However the contributors to this innovative study of market reforms and political change in Mexico and the People s Republic of China argue that this easy equation is not only empirically uncertain but methodologically flawed Using comparative contextual analysis the contributors carefully identify the elective affinities between these two very different polities to reveal key variables that determine how markets will affect democracy particularly law as the rudder of democracy and the role of political culture in civil society Understanding the Process of Economic Change Douglass C. North,2010-05-09 In this landmark work a Nobel Prize winning economist develops a new way of understanding the process by which economies change Douglass North inspired a revolution in economic history a generation ago by demonstrating that economic performance is determined largely by the kind and quality of institutions that support markets As he showed in two now classic books that inspired the New Institutional Economics today a subfield of economics property rights and transaction costs are fundamental determinants Here North explains how different societies arrive at the institutional infrastructure that greatly determines their economic trajectories North argues that economic change depends largely on adaptive efficiency a society s effectiveness in creating institutions that are productive stable fair and broadly accepted and importantly flexible enough to be changed or replaced in response to political and economic feedback While adhering to his earlier definition of institutions as the formal and informal rules that constrain human economic behavior he extends his analysis to explore the deeper determinants of how these rules evolve and how economies change Drawing on recent work by psychologists he identifies intentionality as the crucial variable and proceeds to demonstrate how intentionality emerges as the product of social learning and how it then shapes the economy s institutional foundations and thus its capacity to adapt to changing circumstances Understanding the Process of Economic Change accounts not only for past institutional change but also for the diverse performance of present day economies This major work is therefore also an essential guide to improving the performance of developing countries The Political Economy of the Dutch Republic Oscar Gelderblom,2016-02-24 In the first half of the seventeenth century the Dutch Republic emerged as one of Europe s leading maritime powers The political and military leadership of this small country was based on large scale borrowing from an increasingly wealthy middle class of merchants manufacturers and regents This volume

presents the first comprehensive account of the political economy of the Dutch republic from the sixteenth to the early nineteenth century Building on earlier scholarship and extensive new evidence it tackles two main issues the effect of political revolution on property rights and public finance and the ability of the nation to renegotiate issues of taxation and government borrowing in changing political circumstances The essays in this volume chart the Republic's rise during the seventeenth century and its subsequent decline as other European nations adopted the Dutch financial model and warfare bankrupted the state in the eighteenth century By following the United Provinces's financial ability to respond to the changing national and international circumstances across a three hundred year period much can be learned not only about the Dutch experience but the wider European implications as well

The Political Economy of War and Peace Murray Wolfson, 2012-12-06

cancer n any malignant tumor Metastasis may occur via the bloodstream or the lymphatic channels or across body cavities setting up secondary tumors Each individual primary tumor has its own pattern There are probably many causative factors Treatment depends on the type of tumor the site of the primary tumor and the extent of the spread Oxford Concise Medical Dictionary 1996 97 Let us begin by stating the obvious Acts of organized violence are not necessarily of human nature but they are endogenous events arising within the an intrinsic part evolution of complex systems of social interaction To be sure all wars have features in common people are killed and property is destroyed but in their origin wars are likely to be at least as different as the social structures from which they arise Consequently it is unlikely that there can be a simple theory of the causes of war or the maintenance of peace The fact that wars are historical events need not discourage us On the contrary we should focus our understanding of the dimensions of each conflict or classes of conflict on the conjuncture of causes at hand It follows that the study of conflict must be an interdisciplinary one It is or a penchant for eclecticism that leads to that conclusion but the not humility multi dimensionality of war itself

Political Identity and Conflict in Central Angola, 1975-2002 Justin Pearce, 2015-07-02 This book examines the internal politics of the war that divided Angola for more than a quarter century after independence In contrast to earlier studies its emphasis is on Angolan people's relationship to the rival political forces that prevented the development of a united nation Pearce's argument is based on original interviews with farmers and town dwellers soldiers and politicians in Central Angola He uses these to examine the ideologies about nation and state that elites deployed in pursuit of hegemony and traces how people responded to these efforts at politicisation The material presented here demonstrates the power of the ideas of state and nation in shaping perceptions of self interest and determining political loyalty Yet the book also shows how political allegiances could and did change in response to the experience of military force In so doing it brings the Angolan case to the centre of debates on conflict in post colonial Africa

Crisis and Conflict in Agriculture Rami Zurayk, Eckart Woertz, Rachel Bahn, 2018-09-18 This volume sets out to explore the dialectic relating agriculture crisis and conflict and attempts to expand the knowledge on these interactions Part 1 of the volume chapters 1 6 discusses thematic issues and methodological approaches to

understanding the intersection of agriculture crisis and conflict Part 2 chapters 7 20 provides case studies that take a detailed approach to understanding agricultural contexts facing crisis and conflict or the role played by agriculture within crisis and conflict Studies are selected from areas that might be expected to feature in such a volume the Middle East and North Africa sub Saharan Africa South and Southeast Asia and Latin America as well as less obvious regions where conflict within agriculture refers not to widespread violence or wars but rather latent or simmering crisis Central Asia and Europe Crises stemming from politically driven violence natural disasters and climate change are covered as well as competition over resources

Introduction to Yemen Gilad James, PhD, Yemen is a small country situated in the southwestern part of the Arabian Peninsula bordered by Saudi Arabia to the north Oman to the east and the Red Sea and the Gulf of Aden to the west and south respectively The country has a land area of about 527 970 sq km and a population of over 29 million people making it one of the poorest and most densely populated countries in the Middle East The capital of Yemen is Sana a which is also its largest city The country is largely composed of arid and rugged terrain with few fertile areas and its economy is heavily dependent on agriculture and oil export Yemen is a republic with a president elected for a five year term Its political system is based on a mix of Islamic and civil law The country is predominantly Muslim with the majority belonging to the Sunni sect although there is also a significant Shiite minority The official language is Arabic and the currency is the Yemeni rial Yemen has a rich cultural heritage with a long history dating back to ancient times when it was known as the Kingdom of Sheba Its historical legacy can still be seen in the old cities of Sana a and Zabid which are UNESCO World Heritage sites Despite its rich cultural heritage Yemen has been plagued by internal conflicts since the 1960s and the civil war that began in 2015 has only worsened the country s political and economic instability Yemen remains one of the poorest and most war torn countries in the world with a humanitarian crisis that has left millions of people in dire need of aid

Transnational Conflicts William I. Robinson, 2003-10-16 Capitalism has disrupted the conventional pattern of revolutionary upheaval civil wars and pacification in Central America William Robinson maps the shape of change in the region

History and Society R.H. Tawney, 2013-04-15 R H Tawney believed that the subject of economic history raises questions which touch the fundamental concerns of all thinking people By setting economic development firmly within the framework of cultural and political life he provided an alternative to the recent fragmentation of economic history into a number of increasingly technical specialisms First published as a collection in 1978 these ten essays spanning the length of Professor Tawney s career remain as controversial and potent as ever and the original introduction by J M Winter provides the first full evaluation and significance of R H Tawney s approach to economic history Among the essays included in this volume are the indispensable studies of The Rise of the Gentry and Harrington s Interpretation of His Age as well as The Abolition of Economic Controls 1918 1921 here published in full for the first time Other selections such as Tawney s celebrated inaugural lecture as Professor of Economic History at the London School of Economics in 1933 the Study of Economic History offer a

representative sample of the range and sweep of Tawney's historical imagination Taken together these essays demonstrate the validity of Tawney's conviction that economic historians must confront not only the creation of wealth but also the moral questions surrounding its distribution

Transformation Index BTI 2012: Regional Findings West and Central Africa

The Oxford Handbook of Nigerian Politics A. Carl LeVan, Patrick Ukata, 2018-10-18 The Oxford Handbook of Nigerian Politics offers a comprehensive analysis of Nigeria's very rich history and ever-changing politics to its readers It provides a deep understanding of Nigeria's socio-political evolution and experience by covering broad range of political issues and historical eras The volume encompasses 44 chapters organized thematically into essays covering history political institutions civil society economic and social policy identity and insecurity and Nigeria in a globalized world By identifying many of the classic debates in Nigerian politics the chapters serve as an authoritative introduction to Africa's most populous country The chapters are interdisciplinary introducing readers to classic debates and key research on Nigeria as well as new methodologies new data and a compelling corpus of research questions for the next generation of researchers and readers interested in Africa

The Causes of the English Civil War Ann Hughes, 1998-12-14 This book is intended as a guide and introduction to recent scholarship on the causes of the English civil war It examines English developments in a broader British and European context and explores current debates on the nature

of the political process and the divisions over religion and politics It then analyses renewed attempts to set the civil war in a social context and to connect social change to broad cultural cleavages in England The author also provides her own positive interpretation which takes account of the valuable insights of revisionist approaches but concludes that long term ideological divisions and tensions arising from social change were crucial in causing the civil war **Routledge Library Editions:**

Political Protest Various,2022-07-30 This 26 volume set is a wide ranging time and subject spanning examination of the phenomenon of political protest What drives people to take to the streets and how do their governments respond These questions and many more are analysed in areas as varied as sixteenth century German peasant uprisings revolutionary Russians at the Paris Commune women protesting nuclear weapons at Greenham Common and the role Christianity played in protests across the ages An impressive reference resource this set also looks at the policing of protests and official responses to them Whose Peace? Critical Perspectives on the Political Economy of Peacebuilding M. Pugh,N. Cooper,M.

Turner,2016-01-04 The book provides critical perspectives that reach beyond the technical approaches of international financial institutions and proponents of the liberal peace formula It investigates political economies characterized by the legacies of disruption to production and exchange by population displacement poverty and by criminality
