Economic History Of Bengal 1793 1848 V3:

The Modern World-System III Immanuel Wallerstein, 2011-06-10 Immanuel Wallerstein's highly influential multi volume opus *The Modern World System* is one of this century's greatest works of social science. An innovative panoramic reinterpretation of global history, it traces the emergence and development of the modern world from the sixteenth to the twentieth century.

Merchants and Colonialism Amiya Kumar Bagchi, 2018-12-13 Amiya Kumar Bagchi's *Merchants and Colonialism* is a landmark work in economic history and sociology. The author shows us how colonial rule put traders and manufacturers under immense pressure, forcing them to look for survival strategies in a changed economic environment. This resulted in long term de industrialization and irreversible damage to traditional modes of production which had far reaching economic consequences for India after Independence.

This set will be of particular interest to students of sociology, health and political studies respectively.

The Santal Rebellion 1855-1856 Peter B. Andersen, 2022-11-22 The book presents a new interpretation of the Santal Rebellion the Hul 1855-1856 drawing on the colonial sources as well as Santal memories. It offers a critique of postcolonial approaches that overlook specifically tribal perspectives and see the Hul as a class based peasant rebellion. The author analyses the Hul and its participants the Santals and their opponents both the colonial administration and the Bengalis. He also looks at the attempts of the Hul's leaders Sido and K nhu to reform the Santal religion. Offering a new respectful reading of the Hul's religious legitimization, the book argues that changes in Santal religion and ethics were responses to the colonial regime's new and aggressive economic order. The Hul's leaders Sido and K nhu demanded the introduction of just laws based on the universal principle of equality. This historical approach leads to a call for the inclusion of the voice of tribal and Adivasi minorities when formulating politics for their development in the 21st century. The book is relevant for researchers and students of social history, social reform, tribal and indigenous studies, postcolonial studies and South Asian studies.

Birth of a Colonial City Ranjit Sen, 2019-03-04 Long before Calcutta was discovered by Job Charnock, it thrived by the Hugli since times immemorial. This book and its companion *Colonial Calcutta* is a biographical account of the when, the how and the what of a global city and its emergence under colonial rule in the 1800s. Ranjit Sen traces the story of how three clustered villages became the hub of the British Empire and a centre of colonial imagination. He examines the historical and geopolitical factors that were significant in securing its prominence and its subsequent urbanization which was a colonial experience without an antecedent. Further, it sheds light on Calcutta's early search for identity, how it superseded interior towns and flourished as the seat of power for its

hinterland developed its early institutions while its municipal administration slowly burgeoned A sharp analysis of the colonial enterprise this volume lays bare the underbelly of the British Raj It will be of great interest to scholars and researchers of modern history South Asian history urban studies British Studies and area studies Calcutta in Colonial Transition Ranjit Sen,2019-03-14 This book brings home the story of how three clustered villages grew into a primate city in which a garrison town a port city and the capital of an empire merged into one entity Calcutta This and its companion volume Birth of a Colonial City examine the geopolitical factors that were significant in securing Calcutta s position in the light of growing influence of the East India Company and subsequently the British Empire A definitive history of Calcutta in its nascent years this book discusses the challenges of city planning the de industrialization at the hands of British imperialists the catastrophic fall of the Union Bank the advent of British capital and the rise of the Bengali business enterprise in the colonial era It also underlines how Calcutta facilitated the development of a political consciousness and the pivotal political and cultural role it played when the movement for independence took hold in the country This volume will be of great interest to scholars and researchers of modern South Asian history British Studies city and area studies **Business, Race, and Politics in British India, c.1850-1960** Maria Misra,1999-04-29 This is a study of the political and economic activities of an important group of British businessmen in India between 1850 and 1960 Though denounced by Indian nationalists as the economic arm of the British Raj the firms of these Managing Agents seemed unassailable before the First World War However during the inter war period they rapidly lost their commanding position to both Indian and other foreign competitors Dr Misra argues that the failure of these firms was in part the consequence of their particular and ultimately self defeating attitudes towards business politics and race She casts new light on British colonial society in India and makes an important contribution to current debates on the nature of the British Empire and the causes of Britain s relative economic decline **Dacca** Sharif Uddin Ahmed,2018-01-12 Originally published in 1986 this work discusses the development in Dacca of western style municipal organization and its financial and practical problems and also explores the economic transition of the city after 1840 It is one of the few urban studies which carries through from the old order to the new administrative towns of British rule and attempts to show what happened to the communities of townsmen in the period of adaptation It casts new light on the function and organization of Indian urban societies in the colonial period on the transfer of western institutions and the organization and composition of Bengali trade outside Calcutta *Economics of Revenue Maximization in Bengal, 1757-1793* Ranjit Sen,1988 Why Europe Grew Rich and Asia Did Not Prasannan Parthasarathi,2011-08-11 Why Europe Grew Rich and Asia Did Not provides a striking new answer to the classic question of why Europe industrialised from the late eighteenth century and Asia did not Drawing significantly from the case of India Prasannan Parthasarathi shows that in the seventeenth and eighteenth centuries the advanced regions of Europe and Asia were more alike than different both characterized by sophisticated and growing economies Their subsequent divergence can

be attributed to different competitive and ecological pressures that in turn produced varied state policies and economic outcomes This account breaks with conventional views which hold that divergence occurred because Europe possessed superior markets rationality science or institutions It offers instead a groundbreaking rereading of global economic development that ranges from India Japan and China to Britain France and the Ottoman Empire and from the textile and coal industries to the roles of science technology and the state Labour-Management Relations in Colonial India Arup Kumar Sen,2025-05-15 This book is a pioneering study of the relationship between management and labour in three key industries namely coal jute and cotton textile in colonial India from 1900 to 1947 It studies history of labour and enterprise through a Marxian Gramscian lens The author builds a narrative of economic history alongside he pens a social history of working class life It is a rare blend of economic and social history and an indispensable tract to understand the history of capitalist industrialization and concomitant labour management relations in colonial India within the broad framework of Marxism
