## **A CENTURY OF GROWTH, CRISIS, WAR AND RECOVERY, 1870-1970**

### **Introduction**

This chapter surveys the economic development of Southeast Asia over the century from 1870 to 1970, a century which saw the rapid integration of many parts of the region into the world economy, followed by the great depression of the 1930s, the Japanese occupation from 1942 to 1945, and the transition to independence, which was in some former colonies peaceful and in others violent and prolonged. Although many economic historians consider that the first era of globalisation came to an end in 1913, I suggest that in Southeast Asia it continued until 1929, when the world depression had a serious effect on many parts of the region. Not only did Southeast Asia's commodity trade grow rapidly between 1870 and 1930, but there were substantial movements of people, both within the various colonies, and between them and the two huge population reservoirs of India and China. Last but by no means least, there were considerable flows of capital, both public and private, into Southeast Asia. These increased flows of goods, people and capital left deep and lasting legacies to the independent governments in the region.

When the Suez Canal was just completed in 1870, and Southeast Asia's trading links with rapidly industrialising Europe and North America were expanding, the various parts of the region were not greatly dissimilar in economic structure and in the level of their economic development. In contrast to the ancient civilisations of China and India, which had larger populations and, especially in the case of China, much higher agricultural densities, densities were still

*Economic Crises and Global Politics in the 20th Century* Alexander Nützenadel,Cornelius Torp,2016-04-08 This book analyses the history of economic crises from the angle of international politics and its transformation throughout the 20th century While political and economic debates in the wake of the present financial crisis are revolving around the question of how to create effective forms of global governance historians have discovered a long tradition of international economic regulation that can be traced back to the late 19th century In the global economy sovereign defaults banking crises and currency crashes have been recurrent phenomena At the same time alongside the growing globalization of commodity and capital markets nation states have introduced new forms of regulation both on the national and international level The experience of economic crises has been an important driver behind numerous initiatives to foster global politics The purpose of the book is to reconnect economic history with the perspectives of political economy and the history of international relations It forms a dialogue between the disciplines that have been increasingly separated throughout the past decades With first rate economic historians and political economists writing for a wider audience it simultaneously makes public debates and methods of recent cutting edge research in economic history within a wider academic community This book was originally published as a special issue of the European Review of History

**The Oxford History of the British Empire: Volume III: The Nineteenth Century**

Andrew Porter,1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history Volume III of The Oxford History of the British Empire covers the long nineteenth century from the achievement of American independence in the 1780s to the eve of world war in 1914 This was the period of Britain s greatest expansion as both empire builder and dominant world power The volume is divided into two parts The first contains thematic chapters some focusing on Britain others on areas at the imperial periphery exploring those fundamental dynamics of British expansion whcih made imperial influence and rule possible They also examine the economic cultural and institutional frameworks whcih gave shape to

Britain's overseas empire Part 2 is devoted to the principal areas of imperial activity overseas including both white settler and tropical colonies Chapters examine how British interests and imperial rule shaped individual regions nineteenth century political and socio economic history Themes dealt with include the economics of empire imperial institutions defence technology imperial and colonial cultures science and exploration Attention is given not only to the formal empire from Australasia and the West Indies to India and the African colonies but also to China and Latin America often regarded as central components of a British informal empire

*The Rise of Asia* Frank B. Tipton, 1998-05-29 The shifting balance of economic power away from Western Europe and the United States and towards East and Southeast Asia firstly Japan then the small Tiger economies and now the larger nations of Southeast Asia and China the potential Dragons has provoked anger dismay and a search for the secrets of growth and for lessons to be learned The Rise of Asia brings together recent scholarship analysing the process of economic social and political development in East and Southeast Asia from the mid nineteenth century to the present day

Time's Arrow, Time's Cycle Peter A. Coclanis, 2006 No part of the world has been affected more by globalization in recent decades than Southeast Asia This has led many observers to believe that the region's present experience with globalization is at once unprecedented inevitable and irreversible Professor Peter A Coclanis challenges such beliefs and in so doing provides a history of globalization in Southeast Asia over the past two millennia Employing Stephen Jay Gould's famous temporal metaphors time's arrow and time's cycle Coclanis traces the trajectory of globalization arguing that globalization has ebbed and flowed in the region over the centuries that globalization is best viewed as a process rather than a permanent condition and that its effects have differed considerably across space and over time Professor Peter A Coclanis is Associate Provost for International Affairs and Albert R Newsome Professor of History and Economics at the University of North Carolina at Chapel Hill He was Raffles Visiting Professor in the Department of History at the National University of Singapore in 2005

*The Future of Foreign Investment in Southeast Asia* Frank Bartels, Nick Freeman, 2012-09-10 This book explains the dynamics behind southeast Asia's foreign investment activity and looks at the region's options for reviving its reputation as an attractive host for foreign investors Each chapter focuses on a key element together they portray southeast Asia's foreign investment profile and prospects By bringing these key interlocking elements together under a single cover the book aims to provide a more profound understanding of the challenges southeast Asian countries face in their on going attempts both to attract new foreign

investment inflows and to continue hosting substantial existing foreign invested assets Australian Economic History
